## Budget Book Format (how to use this book)

The Collier County Budget Document is organized into six sections. The Budget Summary Information, Departmental Budgets, Debt Service, Capital Improvement Program, Budget by Fund Summary, and the Appendix.

Please note that page numbering begins with page 1 for each of the six sections and for each of the Departmental Budgets. The electronic page numbering coincides with Budget Summary Section; however, physical page numbering of the remaining five sections does not. Each of the five sections following the Budget Summary starts with page 1. The table of contents does reference the proper page number within each of the sections.

### Budget Summary Information

This section lists the names of the Board of County Commissioners, Constitutional Officers, Appointed Officials and the Office of Management & Budget Staff at the time of budget adoption. Here you will also find the County Organizational Chart and the comprehensive Table of Contents.

This section also includes summary information for Collier County as follows:

**Budget Book Format (how to use this book):** This area describes the major sections of the Budget Book and what they mean.

**Budget Message from the County Manager (transmittal letter):** This letter from the County Manager formally transmits the annual budget to the Board of County Commissioners and the Citizens of Collier County. It summarizes the significant factors affecting Collier County's current budget development and an overview of major fiscal issues.

**Economic Overview:** Provides a brief history of Collier County, demographics and the effect of current economic conditions.

**Vision and Strategic Goals:** This section describes the current County Vision and Strategic Goals, various organization-wide long and short-range planning processes and cycles, and how they affect the budget process.

**Budget Policies and Procedures:** Includes a narrative on the annual budget development process, current year and standing Budget Policies of the County, Budget Review procedures, the Budget Amendment Process, and the current Basis of Accounting and Budget information.

**Adopted Budget Summaries:** Included in this section is the overall Budget Summary of Revenues and Expenditures for the County, including the Constitutional Officers. A second schedule is included that summarizes Governmental Funds by function and includes actual, prior year budget and current year budget amounts. The third schedule summarizes the current and prior year adopted budget by fund for all County funds.

**Summary of Budget by Fund:** This section provides a snapshot of prior and current year adopted budget totals and the % budget change for each of the appropriated funds for Collier County. This Summary of funds is categorized by fund types.

**Fund Structure, Fund Balance and Description of Funds Subject to Appropriation:** This section outlines the County's fund structure, defines fund balances and summarizes the budgeted changes to fund balances grouped by Major and Non-Major Fund Type. This schedule shows the beginning fund balances, budgeted increases and decreases in total fund balance and the ending fund balance along with a discussion of significant planned changes.

**Major Areas of Spending:** This section summarizes the County's major areas of expenditures and revenues by function to provide information for the residents to understand where their money goes in support of the County Government.

**Revenues:** Provided in this section is the summary of the major revenues used by the County to operate the government. This section also includes a detailed discussion of the major revenues, their estimates, uses and historical trends, schedules of Property Tax Rates, Property Tax Dollars, and Taxable Property Values.

**Employment Summary:** This final section of the Summary provides information on the current staffing levels, changes in service and historical trends of the number of employees to the permanent population of Collier County.

## **Departmental Budgets**

After the Summary Section, the book is organized according to County functional categories or Departmental budgets. The department budgets represent basic operating units and have been grouped and tabbed by operating division or agency. Department budgets are presented programmatically and by appropriation unit.

Program budgets provide a brief description of the program, the relative priority of each program in a department, the number of full-time equivalent positions necessary to perform the program, FY 2022 dollars necessary for the program, offsetting revenues generated by each program, and the net cost of each program. The administration/overhead program encompasses the minimum level of service that is mandated by Federal or State law or judicial order and is necessary to protect the health and safety of Collier County residents or necessary to maintain capital asset value for a particular department. Programs above the administration/overhead level approved by the Board of County Commissioners are in priority order and reflect the community's demand for high quality services.

Performance measures are presented within the Departmental Budgets, linking each functional/programmatic area to the overall County Vision and Strategic Goals. These performance measures include the number of activities (quantitative) and the effectiveness of the actions (qualitative) for FY 2020 actual results, forecast for FY 2021, and budgets for FY 2022. Performance measures are re-evaluated in conjunction with the County's strategic planning process and the desire to measure outcome based not only on available resources, but the one and five year strategic planning objectives.

The appropriation unit presentations, i.e. personal services, operating expenses and capital outlay, break out costs in two categories, current and expanded services. Current services reflect the ongoing cost of existing programs. Expanded services include new programs and enhancements to existing services. Budget highlights are incorporated to identify significant changes from FY 2021. The FY 2022 Adopted Budget is compared in the "Percent Change" column to the budget adopted by the Board of County Commissioners for FY 2021. In order to illustrate projected activity, a forecast of estimated revenues and expenditures for FY 2021 is presented. The rationale for projecting FY 2021 activity is to improve carryforward (fund balance) estimates and to reflect the policy/program decisions and budget amendments that occurred throughout the year. Also included is FY 2020 actual revenues and expenses that represent one year's history of financial activity.

## **Debt Service**

This section contains a summary discussion and presentation of the debt for the County followed by the detail and descriptions of the current county-wide General Governmental debt service.

## **Capital Improvement Program**

Provided in this section is a description of the County's Capital Program, current year planned expenditures, five year projections and detail on each capital project the County has planned and/or underway.

## **Summary Budget by Fund**

Each fund utilized by the County is summarized here. Information includes the Fund number, Fund Type, Fund Description, actual amounts for FY 20, Adopted FY 21, Forecast FY 21 and Adopted FY 22.

## **Appendix**

This section includes a glossary of commonly used terms and acronyms; the current year adopted budget policy as well as Statistical data from the Comprehensive Annual Financial Report (CAFR) for the county.

## Office of the County Manager Mark Isackson

3299 Tamiami Trail East, Suite 202 • Naples Florida 34112-5746 • (239) 252-8383

---

January 19, 2022

To the Honorable Board of County Commissioners, Citizens of Collier County and Consumers of the County's Financial information:

As County Manager, I am proud to provide the Collier County, Florida, Adopted Budget for Fiscal Year (FY) 2022.

The budget remains a flexible fiscal expenditure plan consistent with the County's financial and budget philosophy over many years. This approach is never more important when considering recovery from a complete and unexpected COVID pandemic induced economic shutdown and any related fiscal impact that might emerge going forward. Financially, the County is always positioned to absorb unexpected economic impacts or to cash flow and expend appropriated dollars to restore the community from any natural disaster and County leadership remains committed to a value-added coordinated emergency management approach which coalesces all County Agencies and external District partners as future natural disasters threaten Collier County.

This budget reflects the best efforts of all County Agencies and Constitutional Officers to maintain and where appropriate, enhance existing programs and services within funding guidance for the benefit of our residents, visitors and the general community continuing to fund high priority public health and safety programs, equipment and systems.

The COVID pandemic began in February 2020 and now variants of the COVID virus have presented from Delta to Omicron and these variants have negatively impacted the labor market across the U.S. economy in general, and in the Southwest Florida Region. Fortunately, unlike many parts of the Country, Collier County has not experienced major operational revenue shortfalls and cash flow remains optimal.

Taxable value county-wide has increased for the (10) consecutive year and is expected to increase once again for the 2022 (FY 2023) tax year. Major general governmental revenue sources like sales tax, state shared revenues, gas taxes and the local option infrastructure sales tax all exceeded forecast for FY 2021 and are trending higher over budget in FY 2022. Senior leadership regularly evaluates all economic indicators and the organization is always positioned to respond, if, necessary, to any softening economic condition

Board directed policy guidance for FY 2022 meant no increase in the General Fund property tax rate which is set at \$3.5645 and maintaining the Unincorporated Area General Fund tax rate at \$.8069. In November 2020, the Conservation Collier Referendum to reestablish the tax levy for the purpose of acquiring, preserving and managing environmentally sensitive lands passed with 76.5% of the vote. Current county wide voter approved millage is set at \$.2500 for ten years. Now there are three (3) county wide levied millage rates – the General Fund, Water Pollution Control, and Conservation Collier. Budget Policy guidance also directed growth in General Fund reserves; fully funded and policy compliant debt management; and continued high priority capital investment. Going forward, these practices in concert with the continued dedication of Collier County's workforce will provide the foundation for sustained quality service and program delivery in an environment where agency competition for limited resources remains the norm.

Three years after passage of the local option infrastructure sales tax by Collier County voters in November 2018, the process and methodology necessary to budget, track, manage and report on all aspects related to collecting and spending tax proceeds as enumerated within the enabling ordinance is in place and numerous transportation, general governmental and community infrastructure projects like extension of Vanderbilt Beach Road east of Collier Boulevard; new and replacement bridges; sidewalks; construction of Big Corkscrew Regional Park; new EMS stations; Mental Health facility, a Sheriff's forensic and evidence facility; improvements to the Domestic Animal Services facility; and other community projects are in various stages of progress. The County expects to collect \$420 million over a period not exceeding seven (7) years to apply toward construction of these projects. These funds cannot be used to fund operational costs of infrastructure.

For FY 2022, the County has appropriated \$706 million dollars toward various general governmental, public utility and other capital project initiatives. This includes \$87.5 million in anticipated collections from the local option infrastructure sales tax. County leadership is mindful that maintaining current and future capital infrastructure is of critical importance and to that end, a careful balance of resources is annually; devoted to operations necessary to service an expanding customer base; allocated to maintain existing capital infrastructure; and reserved to maintain and replace new infrastructure coming on line.

The comprehensive Adopted Budget Book, you are receiving today, contains precise details of the economic drivers, legislative impacts, and other background information that affects and influences the budgetary process. This budget is being made available, today, to County bond holders, other County creditors, contractors, state agencies, federal agencies, interested citizens and other users of budgetary information.

This budget document has been prepared in accordance with the requirements of the national Governmental Finance Officers Association (GFOA). The GFOA requirements provide assurance that the adopted budget reflects both the guidelines established by the National Advisory Council on State and Local Budgeting and the GFOA's recommended practices on budgeting.

The adopted budget is the most important document that the Board approves each year. It is the County's annual spending plan. It is comprehensive and includes both operational and capital expenditure controls. It is the authorization to commit, spend and execute Board direction and policies and provides measurement criteria to determine if the Board's Vision, Strategic Goals, Policies and Directives are being accomplished.

The following paragraphs provide summaries of key drivers/outcomes in the budget process.

### **Vision and Strategic Goals**

This budget provides a road map of Collier County's efforts toward meeting its Vision Statement: **"We strive to be the best community in America to live, work, and play."** This is also consistent with the County's updated strategic focus areas (underlined) and associated short term and long-term strategic goals, operational initiatives and tactical performance objectives which were endorsed by the Board of County Commissioners in February 2012.

- I. Quality of Place  
To preserve and enhance community identity and character – implement and enforce land development regulations that maintain and enhance the health, safety and welfare of our residents, visitors, businesses and natural environment.
- II. Growth Management  
To responsibly plan and manage community growth, development, redevelopment, and protect the natural environment.
- III. Community Health, Wellness and Human Services  
To improve the quality of life and promote personal wellness, self-reliance and independence.
- IV. Infrastructure and Capital Asset Management  
To responsibly plan, construct and maintain the county's critical public infrastructure and capital assets to ensure sustainability for the future.
- V. Economic Development  
To support a business climate that promotes a sustainable, diversified, and growing economy.
- VI. Governance  
To sustain public trust and confidence in county government through sound public policy, professional management and active citizen participation.

Collier County is continually striving to achieve the Vision and Strategic Goals utilizing a philosophy branded as "Collier Inc.", which memorializes Collier County's commitment toward establishing a best in class organization that embraces the innovative tendencies of the private sector with the nuances associated with public sector management. Our goal is to provide "best value" amenities and services at the lowest possible price while improving upon and protecting the characteristics that have made our community a world-renowned destination. The brand recognizes the value of leadership, collaboration and our team members.

Public sector management must continue to be innovative and reinvent itself to be successful in this highly competitive market. Collier County has a tremendous advantage over other destinations due to its climate, location, amenities, and services offered. Our natural environment serves as a strategic resource that must be managed and protected. Our built environment provides both aesthetic attraction and functional infrastructure. For these reasons, we continue to be one of the fastest growing metropolitan communities in the nation.

### **State of Taxable Property Valuation and Ad Valorem Taxes**

Property taxes comprise 67% of all General Fund revenue sources and 27% of the County's total net budget. With ten (10) consecutive increases in county-wide taxable value, a millage neutral General Fund tax rate policy positioned the County to capture additional ad valorem dollars totaling \$157.0 million during this period to offset general governmental capital and operating expenditure cuts of \$123 million necessary to recover from a \$24 billion tax base decline and subsequent property tax reduction which occurred during the great recession. Additionally, this millage neutral tax rate policy and accompanying levy increase funded many services at existing and expanded levels in strategic areas which are enjoyed by an expanding population base. While property taxes are a flexible source of revenue, continued attempts at the state level to curtail local control of these taxes reduces predictability and consequently budget certainty. Going forward, diversification of the County's general revenue mix will continue to be a topic of conversation with policy makers. This discussion must center on revenue streams that are not statutorily restricted as to purpose and function but rather can be spent on all general governmental programs or initiatives.

Continued construction of new plant, equipment and facilities certainly brings into focus ongoing long - term maintenance and replacement of the County's substantial infrastructure investment. Collier County leadership remains committed to protecting its substantial infrastructure investment; targeting new strategic capital investment; and structuring the organization to always maintain customary unique services and programs enjoyed by County residents and visitors. Capturing the corresponding ad valorem revenue associated with taxable value increases to; fund asset and infrastructure replacement/maintenance; and maintain service levels expected by County residents and visitors continues to represent one of the most important policy decisions faced by the elected leadership, especially knowing the reliance upon this source of funding.

Overall property valuation trends as depicted by building permit activity, land development applications, site plan applications and building inspections point to continued short term growth. New construction permitting remains strong and is consistent with seasonal averages over the past two years, despite the presence of COVID variants as well as supply shortages. Most of the new permits issued is for one-and two-family residential units.

The adopted General Fund property tax rate of \$3.5645 for FY 2022 is above the statutory rolled back rate of \$3.4577 per \$1,000 of taxable value and this low tax rate compared with other Florida Counties is possible given the County's strong and stable tax base. The State of

Florida Statutory General Fund tax rate ceiling is \$10.0000 per \$1,000 of taxable value. Overall, the County's aggregate adopted millage rate of \$4.4407 exceeds the aggregate rolled back millage rate of \$4.0655. The adopted aggregate millage rate is a product of all property taxes levied under the County's authority including twenty-one (21) MSTU's and other dependent districts levying taxes and does not include debt service levies. Under a millage neutral taxing philosophy within an increasing taxable value environment, the rolled back rate will generally always be lower than the adopted rate.

### **Budget Development**

The Board of County Commissioners annually provides guidance in the form of budget policy. This policy is approved in February/March of each year and includes direction covering tax policy, compensation, debt management, agency position limitations, health care, capital funding, reserves, and other economic and financial priorities within the organization. Also, a three-year projection of major ad valorem supported funds (General Fund and the Unincorporated Area General Fund MSTD) is conducted. Information on projected out-year tax rates, expenditure patterns and programs are presented to the Board.

The Board of County Commissioners (BCC) set rigorous budget guidance for FY 2022 requiring no increase in the General Fund tax rate for the thirteenth (13<sup>th</sup>) consecutive year. The Unincorporated Area General Fund tax rate remains at \$.8069.

### **FY 2022 Budget Objectives and Outcomes**

Staff was able to present a budget that met current program guidance while accomplishing the following noteworthy budget objectives and outcomes;

- Beginning year General Government cash balances protected by strong policy driven reserve levels; conservative budget development principles and; active budget management.
- Millage neutral General Fund tax rate of \$3.5645 generated an additional \$21.1 million in property tax revenue over FY 2021 with 48% of those dollars directed to fund Constitutional Office operations including the Sheriff.
- Sheriff represents 41% of the General Fund millage rate or \$1.4509 per \$1,000 of taxable value.
- General Fund reserves increased each year since FY 2011.
- Reserves across all funds and categories total \$712.6 million or 29% of the gross County budget and this reserve number includes \$213 million within the voter approved local option infrastructure sales tax fund.
- Continue capital "pay go" programming within the General Fund and Unincorporated Area General Fund supporting general governmental capital and infrastructure initiatives in the areas of transportation, stormwater, parks and recreation, museums, animal services, information technology, and the Constitutional Officers including the Sheriff's

agency. Increased FY 2022 general governmental capital transfers by \$13.1 million to \$57.9 million; final set aside dollars for a new sheriff's helicopter; replace jail roof; SAP upgrade; replace & upgrade video monitoring system; County Manager agency and Constitutional Officer facility renovations and relocation and; customary capital appropriations in the areas of parks and recreation, transportation system improvements, governmental building repair and maintenance, libraries, museums and various administrative back office infrastructure.

- Strategic future capital funding through continued regular appropriations into the capital vehicle and equipment recovery fund; annual contributions to a separate reserve which is earmarked to replace the County's existing and substantial general governmental capital asset investments which totals \$17.5 million in FY2022 budget and; continued hardening of infrastructure to withstand natural disasters.
- Enhanced commitment to fund community social services and specialty court services.
- County continues long standing commitment to school safety which was augmented by the recent state school safety mandate by allocating an additional \$3 million toward the Sheriff's program which places a sworn deputy in every public and charter school.
- Continued investment in the County's dedicated workforce.
- Maintained with a positive outlook the County's exemplary investment quality credit rating.
- Allocate water, sewer, solid waste and other public utility resources in a conservative approach which strikes a balance between maintaining sufficient policy driven operating and capital reserves, constructs new and replacement capital projects and, maintains strong operational resources all while maintain a strong cash position and debt coverage ratios.
- Growth management building and planning enterprise resources allocated in a customer focused approach and dedicated toward resourceful operation of all development activities in accordance with state and local regulations.
- All County principal debt and annual debt service is fully funded and policy compliant.

### **Short Term and Long-Term Debt**

Issuing strategic short term and/or long-term debt is an important part of the County's capital improvement program under the basic premise that future residents should pay for improvements that they will enjoy and not just current residents. Further, the historically low cost of capital environment which has and still exists provides a unique opportunity to lock in very low interest rates and capitalize on the County's exemplary credit rating.

As such the County has issued since April 2018, \$423.0 million in general governmental and enterprise debt to fund several strategic initiatives including

- April 2018 commercial paper draw of \$12 million to purchase 60 acres for construction of an amateur sports complex

- Series 2018 Tourist Development Tax bonds totaling \$62.9 million dated October 2018 to finance construction of amateur sports complex facilities
- Collier County Water/Sewer District revenue bonds dated April 2019 in the amount of \$76.2 million to finance the acquisition, construction and equipping of various utility capital improvements servicing the northeast area of Collier County
- Strategic purchase in July 2019 of the Golden Gate Golf Course for \$28 million through a taxable competitive bank loan
- Series 2020 A&B tax exempt and taxable debt in the amount of \$115 million dated October 2020 for strategic eastern lands property acquisition, construction of stormwater facilities and improvements to various park and recreation aquatic facilities
- Collier County Water/Sewer District revenue bond dated July 2021 in the amount of \$128.9 million to finance the Golden Gate City potable water transmission mains expansion, the utility infrastructure expansion in the northeast service area to serve future residents and business and provide funding for Government Operations Park facility for the Districts business and field operations.

The County is positioned to add new strategic debt to the portfolio after embarking upon an aggressive debt restructuring program in the summer of 2010 and to date over \$422 million in general governmental debt has been refinanced. As a result, the cost of borrowing has been reduced by \$1,896,000 annually with this recurring savings applied toward high priority “pay as you go” operating and capital programs. Annual principal and interest payments servicing outstanding general governmental and enterprise debt totals \$70.8 million and represent 4.0% of the County’s net adopted FY 2022 budget. The County continually looks for strategic and economically feasible debt restructuring opportunities.

### **General Fund Reserves**

The General Fund’s budgeted reserve position (all reserve types) has grown by \$46.7 million since FY 2012 to \$64.9 million. This reserve position represents 13.7% of General Fund non-reserve expenses which is above the minimum policy threshold of 8.0% and below the 16% ceiling established within the FY 2022 adopted budget policy. Adequate General Fund reserves within policy levels are the cornerstone of general governmental financial flexibility and provide the County with options for responding to unexpected or changing public policy dynamics, natural disasters and a buffer against other forms of external agency risk.

### **Compensation Administration:**

The philosophy of Collier County Government is to provide a market-based compensation program that meets the following goals

1. Facilitates the hiring and retention of the most knowledgeable, skilled and experienced employees available.
2. Supports continuous training, professional development and enhanced career mobility.
3. Recognizes and rewards individual and career achievements.

The following table provides a look at previous Board approved compensation plan adjustments.

| Program Component     | FY 13 | FY 14   | FY 15                      | FY 16                      | FY 17 | FY 18 | FY 19 | FY 20                                                             | FY 21                    | * FY 22                            |
|-----------------------|-------|---------|----------------------------|----------------------------|-------|-------|-------|-------------------------------------------------------------------|--------------------------|------------------------------------|
| Cost of Living (COLA) | 2.00% | 0.00%   | Greater of 2.0% or \$1,000 | Greater of 1.5% or \$1,000 | 3.00% | 2.90% | 2.00% | \$1,200                                                           | Greater of 2% or \$1,200 | \$1,000 represents average of 1.7% |
| Awards Program        | 0.00% | 0.00%   | 0.00%                      | 0.00%                      | 0.00% | 0.00% | 0.00% | 0.00%                                                             | 0.00%                    | 0.00%                              |

| <b>Total</b>          | 2.00% | \$1,000 | Greater of 2.0% or \$1,000 | 3.00%                      | 3.00% | 3.50% | 2.00% | Average of 2.2% COLA plus .50% pay plan maintenance totaling 2.7% | 3.1%                     | Average of 2.24%                   |

\* FY2022 may include additional compensation adjustments pursuant to Board approved pay plan increases resulting from a comprehensive restructuring to achieve market stability.

### **Budget Priorities**

Multi-year budget priorities include increasing funding for maintenance and replacement of the County's vast infrastructure investment while simultaneously appropriating dollars to fund current and expanded capital facilities and operations required to meet the service needs of an expanding resident and visitor base. Budget flexibility will always be necessary as future spending plans are developed to react if necessary when economic conditions change; to protect the community in the event of a natural disaster; and to adapt when new policy and operational standards are enacted. Given the County's reliance on property tax revenue, any deviation below a millage neutral tax policy should be carefully considered knowing that the economy may slow in the next twenty-four months and knowing the magnitude of investment required to maintain current and future planned infrastructure investment.

Continued critique of business operations and their relationship to the organizational structure is necessary and healthy to strive for maximum operational efficiency and to strengthen internal controls and processes in accordance with best practices

### **State and Local Economic Conditions/Outlook**

Over the next two (2) years, Collier County's taxable could slow to an average of roughly three (3) percent annually. Continual monitoring of tax base trends and tracking of leading community development and other economic indicators is important considering the County's heavy reliance upon property tax revenue. The following chart provides an historical account of taxable value changes.

State budget and legislative initiatives must be watched closely each year to gauge the impacts of potential revenue loss and or programmatic/service shifts to local government. Unfunded mandates can pose a serious threat to a local government service delivery and fiscal stability.

The FY 2023 budget (coming fiscal year) will continue to pose extreme challenges, given the need to maintain sufficient budgeted reserves; preserve the agencies superior investment credit rating and related cash positions; fund infrastructure maintenance and replacement; sustain public safety and high value public services; and continue to invest in human capital necessary to advance the organization and serve the citizens of Collier County. County staff will continue to shape the organization to deliver high quality best value services to residents and visitors of this wonderful community we call home.

### **Summary**

Collier County Government remains committed to achieving its Vision Statement of being “the best community in America to live, work, and play.” Achieving this vision requires the cooperation of all County government agencies. My sincere gratitude is extended to everyone in Collier County Government that participated in the development of the FY 2022 budget.

Respectfully submitted,

Mark Isackson,  
County Manager

## Economic Overview

### History

Barron Collier pictured 3<sup>rd</sup> from the left.

Archway between Collier & Dade County on the opening day of the Tamiami Trail.

The area that was to become modern-day Collier County stretches back thousands of years, to the end of the last ice age, where rising sea levels reduced ice age Florida by approximately two-thirds and changed much of its savannah-like terrain to the Everglades we know today. The first hunters and gatherers wandered down the Florida peninsula in search of game and warmer weather. This area has and continues to be a haven for “snowbirds” searching for warmer weather in the winter. During the late 1800s, settlers began to make their way into Southwest Florida in search of fertile land and longer growing seasons. The area became dotted with small communities where farming and ranching, especially inland, became the principle means of livelihood. Trading posts also began to emerge where pioneers could trade products of their hunting expeditions such as alligator hides, pelts, and bird plumes for guns, plows, and food and other necessities. In 1922, a New York City advertising mogul and real estate developer, Barron Gift Collier purchased 2,025.5 square miles of land and 280 square miles of water on the southwest coast of Florida. On May 8, 1923, the Florida State Legislature created Collier County, an area larger than Delaware and Rhode Island and the largest county in land area in Florida, in exchange for Baron Collier’s promise to see completion and personally fund the portion of the long-awaited highway between Tampa and Miami. Barron Collier recognized the need for the infrastructure to bring about economic development to the region. The construction of the Tamiami Trail was completed on April 26, 1928 and would forever change the character of the region that previously had been merely an agricultural community and a string of frontier outposts. By 1927, two railroads were serving Naples from the town’s newly constructed depot which provided another vital link to economic development. Natural resources also fueled the economic vitality of the region. Clams were gathered and then processed in a steam-operated cannery on Marco Island that opened in 1911, the first oil well was drilled near Immokalee in 1943, and large strands of cypress were logged in Copeland (between Immokalee and Everglades City) and sold to the United States government during WWII. After World War II, the population increased by over 1,300% and agribusiness, tourism, and real estate made Collier County one of the fastest-growing areas in the United States.\* Below is a map of Collier County and its location in relation to the state of Florida.

*\*Information about the history of Collier County supplied by the Collier County Museum Docent Guide which includes passages by Tara Hime Norman.*

## **Demographics**

Collier County is a non-chartered county established under the constitution and the laws of the State of Florida. Collier County continues to experience population growth, as it has over the past several decades. The permanent population has increased from approximately 38,000 residents in 1970, to the June 28, 2021 countywide population projection of 387,450 (extrapolated from 2020 Florida Population Studies estimates and projections prepared by the University of Florida's Bureau of Economic and Business Research (BEBR)). Between April 2010 and April 2020, the population grew by 14.4% (U.S. Census Bureau). Data from the Collier County Comprehensive Planning Section and BEBR indicates that the County's population will grow by 36,114 over the next five years – an average of 1.7% annually.

Collier County continues to be a favorite tourist destination during the winter months between November and April when the population swells to approximately 466,000, around twenty percent (20%) higher than the permanent population adjusted to fiscal year. The seasonal population is projected to be approximately 508,000 by the year 2025.

Current U.S. Census data shows Collier County's median age to be 51.8 years compared to the Florida median of 42.4 years and the U.S. median of 38.5 years. The latest available figure from the U.S. Census Bureau for Collier County median household income is \$76,025, which is \$16,798 above the State figure. According to the Florida Department of Economic Opportunity, Collier County's unemployment rate for September 2021 was 3.6%. This rate is lower than the September 2021 national unemployment rate of 4.8% and is lower than the statewide unemployment rate of 4.9%. The national, state, and Collier County unemployment rates have dropped in the last year but have not yet reached pre-pandemic levels.

## **Economic Conditions**

Historically, Collier County has received a number of designations designed to foster economic and community development opportunities. The state of Florida certified Collier County as a "Blue Chip Community" in 1985, showing that the County met state requirements in important areas of economic development, including the creation of plans for growth management and comprehensive land use. In December 1996, the communities of Immokalee and Everglades City were designated as Enterprise Zones. The Enterprise Zone Program, which expired on Dec. 31, 2015, offered tax incentives to businesses located within the zones to encourage private investment, as well as to increase employment opportunities for residents of that area. Additionally, the industrial park at the Immokalee Regional Airport was designated as a Foreign Trade Zone, which allows companies to import raw materials, manufacture their products and export them duty-free when they hire a free-zone operator. In September 1997, the Immokalee community was designated as a Foreign Investment Zone, which reduces the minimum amount of investment and number of employees required for owners of foreign companies to apply for permanent U.S. residency.

In FY 2013, the Office of Business & Economic Development (OBED) was created to work with state and local economic development organizations, assisting in the retention, relocation and/or expansion of existing businesses, in addition to the attraction of new business opportunities. A partnership between the County Office of Business & Economic Development and the chamber's Partnership for Collier's Economic Future, known as Collier EDO, has as its mission to be an effective force in improving the quality of life for all County residents and visitors. The partnership promotes economic development initiatives that will diversify the economy, create high value-added jobs, increase average wages, improve productivity and growth rate, facilitate capital formation, preserve and enhance the natural environment, and enable all County residents to have a meaningful opportunity for upward mobility.

In FY 2021 there was a \$15 million incentive approved for the construction of Great Wolf Lodge, set to open in 2026. In addition, Collier EDO manages the Immokalee Culinary Accelerator, a state-of-the-art facility that offers budding culinary businesses over 5,000 square feet to plan, prepare, cook, and package their culinary creations for distribution. The Immokalee Culinary Accelerator is currently serving 18 members.

The recent economic landscape for the January to December 2021 period ranged from post shutdown economic recovery to a return to a stable growth economy. Although the impacts of the COVID-19 health pandemic are yet to be fully realized, the County's economy continues to exhibit growth. The County is seeing improved unemployment with a rate lower than state and national averages; bellwether industries performing well; median household income remaining one of the highest in the State; strong real estate market with median home values on the rise; robust new construction permitting and increasing taxable values for the tenth consecutive year. A strong resurgence of tourism within the County, increasing 46.7% year over year, has invigorated the local hospitality and restaurant sectors that were devastated by the 2020 economic shutdown. Similar impacts to local government revenues can be seen with increasing sales tax revenues, state shared revenues, gas tax revenues and tourism-development tax revenues. As we usher in 2022 all County economic, demographic, housing, and permitting indicators point to stable growth, even in the wake of continued hurricane recovery/mitigation efforts and the ongoing health emergency. Senior leadership regularly evaluates all economic indicators, and the organization is always positioned to respond, if necessary, to any softening of economic conditions.

Steady demand for industrial space continues in Naples and the OBED has initiated a certified sites program to quickly identify and market such sites. Vacancies in industrial space decreased to 1% in December 2021. In addition, 93.5% of under construction properties are already preleased. The county's manufacturing industry grew from 289 establishments in 2008 to 342, led by surgical and medical instruments, wood kitchen cabinet and countertops and aircraft engine and engine parts. These establishments generated over 5,100 jobs with average earnings of \$60,634. Naples also is well-positioned to service both the outer Tampa and Miami metros and has started to develop a logistics and warehousing cluster as well. Collier County has easy access to I-75, which provides routes to Port Everglades and Southwest Florida International Airport. This is further evidenced by the Uline Corporations decision to locate a 1 million square foot distribution center in the City Gate Commerce Park, which broke ground in July and is expected to generate approximately 275 jobs once complete in 2023. Amazon has also invested in a last mile distribution center in the area, expected to generate over 100 jobs.

To further promote economic growth, diversify the economy and encourage high-wage job creation, the Board of County Commissioners has placed increased focus on expanding and creating new Economic Innovation Zones. The Ave Maria Innovation Zone was authorized in June 2015, the Interchange Activity Center No. 9 (IAC9) Innovation Zone was authorized in June 2018 and the Golden Gate City Economic Development Zone was authorized in November 2018. These zones encompass a specific geographic area and derive dedicated economic development funding through tax-increment revenues. Flexible zoning overlays that will allow for a reduced timeframe to incorporate any of the qualified targeted industry uses within the underlying zoning districts are in development for the areas.

Further boosting economic incentives, in June 2018, five U.S. Census tracts in Collier County were among 427 areas statewide that were named federal low-tax Qualified Opportunity Zones— three areas in and around Immokalee, one in Naples Manor and one in Golden Gate City. Opportunity Zones are an economic and community development tax incentive program that provide a new impetus for private investors to support distressed communities through private equity investments in businesses and real estate ventures. The incentive is deferral, reduction and potential elimination of certain federal capital gains taxes.

Sports tourism also is a burgeoning segment of the County's economy. The completion of the East Naples Welcome Center within the East Naples Community Park is expected in early 2022. The park will host the 2022 Minto U.S. Open Pickleball Championship which continues to expand and attract national and international attention. Phase one of the new \$100 million Paradise Coast Sports Complex opened in

October of 2020 and final completion of phase two is expected in late 2022. Once complete the facility which will contain 21 multipurpose fields, a world class outdoor fitness center, food truck and food pavilion and championship stadium. The complex will not only attract national tournaments, but also fulfill a need for local field play for popular sports such as soccer and baseball.

Paradise Coast Sports Complex, park overview.

Minto US Open Pickleball Championships.

The following table provides a snapshot of employment by major industries in Collier County:

| Industry                         | Jobs           | %             |
|----------------------------------|----------------|---------------|
| Mining, Logging, Construction    | 17,600         | 9.9%          |
| Manufacturing                    | 5,100          | 2.9%          |
| Trade, Transportation, Utilities | 29,400         | 16.5%         |
| Information                      | 1,300          | 0.7%          |
| Financial Activities             | 8,900          | 5.0%          |
| Professional & Business Services | 19,900         | 11.2%         |
| Education & Health Services      | 24,000         | 13.5%         |
| Leisure & Hospitality            | 25,200         | 14.2%         |
| Other Services                   | 8,400          | 4.7%          |
| Government                       | 12,700         | 7.1%          |
| Farm Workers                     | 25,500         | 14.3%         |
| <b>Total Employed</b>            | <b>178,000</b> | <b>100.0%</b> |
|                                  |                |               |
| Total Non Seasonal Labor Force   | 184,500        |               |
| Unemployed / Unemployment Rate   | 6,600          | 3.6%          |

Source: U.S. Bureau of Labor Statistics Naples-Immokalee-Marco Island, FL - Economy at a Glance as of September 2021

Historically, employment within the County has varied significantly throughout the year due to the large influx of tourists and seasonal residents during the winter months coupled with seasonality in the agriculture industry.

The following table identifies historical unemployment within Collier County.

### **In Summary**

Collier County, Florida continues to maintain a stable superior investment quality credit rating from all three major rating agencies. Standard and Poor's (S&P) has re-affirmed the County issuer credit rating (ICR) of AAA in September 2020 and the County's underlying Special Obligation Non-Ad Valorem Bond Rating to AAA. An obligation rated AAA has the highest rating assigned by Standard and Poor's and is an indication that the obligor's capacity to meet its financial commitments on the obligation is extremely strong. Likewise, Moody's Investor Services re-affirmed in September 2020 a stable Aaa issuer credit rating. The County is one of only a handful of local governments in the State of Florida that have an issuer credit rating of AAA from Standard and Poor's and Aaa from Moody's Investor Services.

U.S. News ranked the Naples area the #7 best place to live in the U.S. in 2021-2022. This survey ranked communities by evaluating five indexes – job market, value, quality of life, desirability, and net migration. In 2021, Naples-Immokalee-Marco Island metro area ranked 20<sup>th</sup> on the Milken Institute's index of "Best-Performing Cities" in the Nation moving up 38 spots from 58<sup>th</sup> in 2020. Collier County is positioned to capture residential, commercial and high technology opportunities through its strong infrastructure base, quality of life, natural amenities, transportation network and commitment to an organized public-private strategic economic development program.

Collier County boasts attractions and amenities which foster community and economic development. The Minto US Open Pickleball Championship continues to grow in both size and popularity; a documented sports tourism driver to the area. The amateur sports complex will only enhance the image of Collier County as a sports tourism destination. There are also numerous other recreation and educational opportunities which can be enjoyed by visitors due to our proximity to the Everglades and Ten Thousand Islands. Enjoy pristine natural wilderness perfect for bird watching or outdoor adventures within close

proximity of white sand beaches, exceptional accommodations, family attractions, upscale shopping, arts, culture and world-class dining throughout the County.

Collier County's blend of cultural and recreational amenities and unique quality of life are enjoyed by both those who visit this destination or call this extraordinary community home. The County, through its elected and appointed leadership, strives to be the best community in America to live, work, and play.

Gordon River Greenway

## The Budget as a Tactical Financial Tool and Strategic Policy Model

The annual budget document is considered a single use tactical financial plan which appropriates dollars toward one-year initiatives, activities and projects in furtherance of longer-term policy objectives. This tactical budgetary plan begins with an examination of annual budget policies which describe in detail the tactical issues to be funded. While the budget is a tactical tool, components of the budget also program dollars strategically. Reserves designated for future asset maintenance and replacement, vehicle and equipment replacement, natural disasters and unforeseen risks are considered critical strategic positions and emphasize the need for careful resource allocation among competing short term and long-term funding priorities. As the County's general governmental and enterprise capital assets grow, regularly resourcing long-term asset maintenance and replacement becomes increasingly important. For FY 2022, \$706.1 million or 28% of the County's \$2.447 billion budget represents capital projects and capital reserves.

## Vision and Strategic Goals

The budget provides a road map of Collier County's efforts toward meeting its Vision Statement: **"To be the best community in America to live, work, and play."** This is also consistent with the County's strategic focus areas (underlined) and associated short term and long term strategic goals, operational initiatives and performance objectives all of which were endorsed by the Board of County Commissioners February 2012 as part of their 10-Year Strategic Plan:

- I. Quality of Place  
To preserve and enhance community identity and character – implement and enforce land development regulations that maintain and enhance the health, safety and welfare of our residents, visitors, businesses and natural environment.
- II. Growth Management  
To responsibly plan and manage community growth, development, redevelopment, and protect the natural environment.
- III. Community Health, Wellness and Human Services  
To improve the quality of life and promote personal wellness, self-reliance and independence.
- IV. Infrastructure and Capital Asset Management  
To responsibly plan, construct and maintain the county's critical public infrastructure and capital assets to ensure sustainability for the future.
- V. Economic Development  
To support a business climate that promotes a sustainable, diversified and growing economy.
- VI. Governance  
To sustain public trust and confidence in County government through sound public policy, professional management and active citizen participation.

## The “Collier Inc.” Philosophy

Collier County is working towards the Vision and Strategic Goals utilizing a philosophy branded as “Collier Inc.”, which memorializes Collier County’s commitment toward establishing a best in class organization that embraces the innovative tendencies of the private sector with the nuances associated with public sector management. Our goal is to provide “best value” amenities and services at the lowest possible price while improving upon and protecting the characteristics that have made our community a world-renowned destination. The brand recognizes the value of leadership, collaboration and our team members.

Public sector management must continue to be innovative and reinvent itself in order to be successful in this highly competitive market. Collier County has a tremendous advantage over other destinations due to its climate, location, amenities, and services offered. Our natural environment serves as a strategic resource that must be managed and protected. Our built environment provides both aesthetic attraction and functional infrastructure. For all of these reasons, we continue to be one of the fastest growing metropolitan communities in the nation.

The brand focuses on the following key areas:

- **The Team - Build, Grow, Sustain, and Motivate a World Class Team**

- Recruitment - finding and attracting the highest caliber of talent
- Onboarding - inculcating our corporate values to new hires and taking advantage of their unique skills and experiences
- Career Development & Training - improving technical skills, soft skills, and managerial talent
- Succession Planning - preparing for planned retirements and unexpected departures
- Collaboration & Comradery - encouraging team work and celebrating our successes

- **Sustainability - Responsibly Plan, Build, Operate, and Maintain our Infrastructure and Community While Protecting the Natural Environment**

- Land Use - Master planning our communities by balancing entitlements with fair regulations that support long-term vitality
- Physical Resource Management - Managing buildings, grounds, equipment, and vehicles in a manner that optimizes the useful life of the resource
- Integrated Water Resources - conserve potable water, encouraging reuse water, balance flood control and rehydration, and minimize harmful ecological impacts
- Transportation Resources - responsibly plan, build, and maintain roadways, bike/ped facilities, and public transit resources to achieve mobility without sacrificing quality of place
- Business Practices - ensuring that policies and procedures provide quality, value, and transparency but avoid inefficient use of resources

- Waste Management - utilize innovative and alternative methods to responsibly manage and reduce the County's waste; plan new facilities, and educate the public on the value of recycling
- Natural Resources - support the preservation, conservation, and rehabilitation of the County's natural environment through education, regulation, and restoration projects
- **Operational Excellence - Leadership Committed to Innovative Solutions using Performance Metrics, Customer Engagement, and Internal Controls to Pursue Excellence**
  - Leadership - Influencing and motivating the team to enthusiastically support the County's vision
  - Internal Controls - Creating a culture of accountability using systematic measures of checks and balances, automation, and self-correcting actions
  - Innovation - delivering "best-value", by encouraging creativity and challenging the status-quo; utilizing diverse self-managed teams to develop innovative solutions
- Customer Focus - compassionate Quality Assurance / Quality Control (QA/QC) focused on learning from external and internal customers to improve service to the community
- Performance Management - Plan, execute, monitor, and review measurable goals and objectives
- **Quality of Place - Deliver Services and Amenities That Protect, Promote, and Support Becoming the Best Place in America to Live, Work, and Play**
  - Asset and Infrastructure Management - execute timely and cost-effective repairs, preventative maintenance, and replacements that preserve the integrity and quality of the community
  - Preserve and Enhance Community Identity and Character - implement and enforce land development regulations that maintain and enhance the health, safety, and welfare of our residents, visitors, businesses and natural environment.
  - World Class Facilities - build and operate venues and locations that meet and exceed the community's expectations
  - Promote Health, Safety, and Wellbeing - provide our residents and visitors access to human services that facilitate healthy lifestyles and housing assistance
  - Destination Promotion - encourage visitation, recreational tourism, eco-tourism, and the relocation of individuals and businesses
  - Economic Vitality and Diversification - promote business friendly conditions that attract, retain, and grow a diverse economic market
- **Fiscal Stewardship - Promote Transparent and Responsible Financial Management Practices and Resource Allocation In Order To Create A Better, Stronger, and More Prosperous County For Residents, Visitors, and Businesses**

- Effective Procurement - deliver “best-value” goods and services in a timely and transparent manner
- Grant Funding and Compliance - seek alternative funding sources with comprehensive oversight to maintain compliance
- Debt Management - ensure that the County’s financing needs and credit payment obligations are met at the lowest possible cost with a prudent degree of risk.
- Revenue Stability and Diversification - seek opportunities to diversify revenues and balance land use categories to minimize the impacts of fluctuating land values
- Reserve Management - maintain reserves based upon limits set through best management practices in order to provide the County with options for responding to unexpected issues and provide a buffer against shocks and other forms of risk.
- Budget Planning - engage elected leadership, through the County Manager and senior leadership team in the process of planning and appropriating available resources among competing operational and capital initiatives in furtherance of the County’s Vision and strategic goals
- Forecasting and Reporting - use timely revenue and expenditure models for financial decision making

## Impact of County-Wide Planning Processes on the Budget Development

There are several planning processes that take place throughout the year which influence the development of the annual budget document. To begin with, there are several long range planning processes such as the Long Range Transportation Plan, the Master Mobility Plan, the Water and Wastewater Master Plans, the Capital Improvement Element (CIE), the Annual Update and Inventory Report (AUIR), and concurrency planning. Each of these reports is provided to the Board of County Commissioners (Board) for their review and approval. These processes are primarily focused on capital programs, budgets and outcomes, and serve as the basis for planning for budgeted capital expenditures.

In addition, the Agency’s strategic planning process has a major impact on the development of the operating budget. The 10-year Strategic Plan, originally adopted by the Board for Fiscal Year 2007, experienced substantial changes effective for Fiscal Year 2012, which were re-affirmed during the Board’s Strategic Planning Workshop in February 2014, continuing in effect for Fiscal Year 2017. The Plan includes the Board’s Vision Statement, Mission, Guiding Principles, Motto and six Strategic Focus Areas (SFAs). Copies of the current and prior Fiscal Year Strategic Plans can be found at [www.colliergov.net/strategicplan](http://www.colliergov.net/strategicplan).

**Vision: To be the best place in America to live, work, and play.**

**Mission: To deliver high quality best value public services, programs and facilities to meet the needs of our residents, visitors, and businesses.**

Following is the high level view of the approach, from a process perspective:

Under this approach, Strategic Planning begins with input from senior staff and citizens. The proposed plan resulting from the strategic planning cycle is presented to the Board for their input and approval and the outcome forms the basis for budget and operational planning for the following fiscal year. Performance measures supporting the strategic and operational levels are reviewed, updated and acted upon as necessary.

This approach ensures the mission is clear, program and service goals are easily understood, and the resources (including financial and staff levels) applied to each program and goal are readily apparent and their achievements measurable and reportable. This approach directly impacts budget guidance as it provides visual evidence of where resources are required to assure accomplishment of all stated program and governmental goals.

In addition to focusing on the upcoming one-year term for budgeting purposes, an important component of performance management reporting is prospective in nature, spanning a 5-10 year horizon. Performance measurement reporting directly indicates whether programs are on track for attaining the current year's goals given the year's budget, but also provides an indicator of whether the current year's activities are likely to lead to achievement of the 5-10 year objectives and requirements.

### **Master Mobility Plan (MMP)**

In the past several years, Collier County has seen dramatic fluctuations in development trends. These fluctuations make it challenging to adequately plan for the timing of future transportation improvements. To address this demand, Transportation Planning and Comprehensive Planning developed the concept of a Master Mobility Plan (MMP) to address the transportation mobility needs of Collier County. The MMP is focused on demand management and coordination to reduce the need for transportation infrastructure. Staff is continuing to vet and explore the ideas approved within the MMP.

### **Three Year Budget Projection for Principal Ad Valorem Tax Supported Funds**

On an annual basis, the Office of Management and Budget (OMB) prepares a three (3) year projection of revenues and expenses within the primary ad valorem funds – the General Fund and Unincorporated Area General Fund. This analysis provides the Board of County Commissioners with important data covering millage rate assumptions, general corporate revenue trends and the impact of these revenue assumptions and trends on expense patterns over the projection period. This section of the Budget Policy is important and provides the staff and elected leadership with an opportunity to discuss the practical aspects of policy and level of service demands in conjunction with existing and projected revenue streams.

### **Annual Update and Inventory Report (AUIR) and Capital Improvement Element (CIE)**

Chapter 163, Part II, Florida Statutes required the County to adopt certain Land Development Regulations (LDR's) to implement its Growth Management Plan adopted on January 10, 1989. One of the LDR's requires the County to, "Provide that public facilities and services meet or exceed the standards established in the CIE required by Section 163.3177 and are available when needed for the development..." This Section of Chapter 163, Part II, Florida Statutes is commonly known as the concurrency requirement. Accordingly, on March 21, 1990 the Board adopted the Collier County Adequate Public Facilities Ordinance No. 90.24, which was subsequently repealed and superseded by Ordinance No. 93-82, as amended by Ordinance No. 96-53. The Adequate Public Facilities Ordinance was subsequently codified in Division 3.15 of the prior Land Development Code (LDC). Ordinance No. 04-41, adopted the current LDC, and provides for the requirements of Adequate Public Facilities within Section 6.02.00.

Section 6.02.02 of the Land Development Code establishes a management and monitoring program for public facilities, which provides for an annual determination of concurrency for Category "A" facilities and identification of additional facilities needs. Category "A" facilities are roads, solid waste, drainage, parks, potable water, and sewer. Section 6.02.02 of the Land Development Code also requires the preparation of an AUIR on Public Facilities for presentation to the Board of County Commissioners (BCC). The findings of the AUIR form the basis for the preparation of the Annual Update and Amendment to the Capital Improvement Element and Schedule of Capital Improvements, proposed projects to be included in the next annual budget, the determination of any Area of Significant Influence (ASI) and the review of the issuance of development orders (excluding roads) during the next year. The AUIR provides an update to the ledger baseline for the real-time Transportation Concurrency Management System database. The preparation and presentation of the AUIR to the BCC meets the requirements of Section 6.02.02 of the Land Development Code for an annual determination of the status of public facilities.

The Capital Improvement Element (CIE) and the Annual Update and Inventory report (AUIR) are required County processes that concentrate upon the same subject matter, the schedule of capital improvements for the County, but prior to FY 2011, each were separate processes. There were a number of negative ramifications associated with the separate timing of these two capital improvement processes:

1. Section 163.3177 Florida Statutes requires that the County adopt the annual CIE amendment by December 1<sup>st</sup> and the bifurcated process did not allow the County to achieve the statutory requirement.
2. Inconsistency between the financial basis of the two processes and the corresponding inconsistency between the projects contained within each due to timing discrepancies.
3. The CIE was adopted with 10 month old population projections and 10 month old seasonally adjusted transportation factors.
4. Redundancy in staff work effort for capital improvement projects.

The combination of the two processes, with completion in December has allowed for:

1. CIE amendment in compliance with the Florida Statutes December 1<sup>st</sup> adoption requirement.
2. A decision making process for capital improvements based upon the same financial basis.
3. One document to the Collier County Planning Commission (CCPC) and the BCC.
4. Elimination of data changes and revenue projections inconsistencies between the AUIR and the CIE processes.
5. Fewer CCPC and BCC meetings related to capital improvement programming.
6. An eight month, rather than a continuous 12 month capital improvement cycle.
7. Eliminates redundant preparation process across the County organization.

The combination of the two processes in FY 2011 has not led to any negative ramifications from a local or state compliance perspective and continues to provide a positive fiscal impact with the elimination of redundant meetings and staff duplicative efforts.

## Budget Policies and Procedures

The annual budget document is considered a single use tactical financial plan which appropriates dollars toward one-year initiatives, activities and projects in furtherance of longer-term policy objectives. This tactical budgetary plan begins with an examination of annual budget policies which describe in detail the tactical issues to be funded. While the budget is a tactical tool, components of the budget also program dollars strategically. Reserves designated for future asset maintenance and replacement, vehicle and equipment replacement, natural disasters and unforeseen risks are considered critical strategic positions and emphasize the need for careful resource allocation among the competing short-term and long-term funding priorities.

An additional key factor guiding budget development is Florida Statutes require adoption of a balanced budget (total budgeted revenues = total budgeted expenses). This definition applies to the overall budget and to individual county funds. Florida Statutes further require that all funds, including estimated fund balance, be appropriated.

### Annual Budget Development

Collier County staff initiates the budget process by developing a recommended budget policy that includes a multi-year analysis of the General Fund and the Unincorporated Area General Fund, as these funds are the principal County tax supported operating funds. The analysis reflects the estimated impact of the proposed budget policies on the respective budgets and associated millage (tax) rates.

The recommended budget policy is then presented to the Board of County Commissioners in late February or early March. The Board approves the broad policy guidelines (millage rate recommendations, capital funding allocations, level of service standards, salary adjustments, limitations on operating budgets and position guidance) that govern the development of the budget, which are then incorporated into a budget instruction manual for staff.

Year to date financial information through February (five months of the County fiscal year) is then uploaded into the budget module to assist with revenue and expense year-end forecasting. County staff members develop their respective budget requests for the upcoming fiscal year. Requests are broken down into two categories: Current Service and Expanded Service. Current Service is defined as the inflationary cost of providing existing services. Expanded Service requests include enhancements to existing programs and new programs and/or position requests. The Expanded Service column focuses attention on any service requirements that may be necessitated by a growing population or level of service increases. OMB staff then reviews and makes recommended changes to the proposed budget requests in conjunction with the operating departments. The Constitutional Officers: Supervisor of Elections, Clerk to the Board, and Sheriff submit their respective budget requests by May 1; the Property Appraiser submits their budget by June 1; and the Tax Collector's budget submittal is due on August 1. All dates are in accordance with Florida Statutes.

Internal budget reviews are conducted with the County Manager in May. At this time the County Manager's recommended budget for the upcoming fiscal year is finalized. On June 1, the Property Appraiser provides a preliminary estimate of taxable value for the upcoming fiscal year. This provides taxing authorities with important information for budget planning purposes. Tax supported budgets are re-balanced to reflect this information. In June the Board conducts workshops in order to review the tentative budget. The Board makes preliminary policy decisions regarding the proposed budget at this time. On July 1 the Property Appraiser certifies a tax roll for the upcoming fiscal year. The budget is changed based on the updated property valuations. A tentative budget summary is provided to the Board of County Commissioners in accordance with State Truth in Millage (TRIM) requirements.

In late July all taxing authorities adopt proposed tax rates. These tax rates represent the maximum rates for state statutory Truth in Millage (TRIM) purposes and may be maintained or reduced during public hearings in September. (Note: There are emergency provisions by which the proposed tax rates may be increased, subject to very onerous public notice requirements). The Property Appraiser then assimilates all

**Collier County Government**  
**Fiscal Year 2022 Adopted Budget**

of the proposed tax rates and generates the Notice of Proposed Taxes. This notice provides the taxpayer with the maximum tax impact of the proposed millage rates to be levied by the various governmental units (County, City, School District, etc.) and the updated valuation of each property as established by the Property Appraiser.

Florida Statutes require two advertised public hearings on the budget. The Notice of Proposed Taxes serves as the public notice for the first public hearing held in September. Thereafter, the final hearing is noticed and conducted in accordance with State TRIM provisions. The public is allowed to speak on any topic prior to final adoption of tax rates and the budget. Upon adoption of the budget by the Board of County Commissioners, appropriations are uploaded into the County financial system. The ensuing fiscal year begins on October 1. The annual budget development cycle is depicted in the following budget calendar.

### **Budget Calendar**

Budget formulation, adoption and execution in Collier County involve the year-round interaction of many people at various levels within the County. The purpose of the process is to identify service needs, develop strategies to meet those needs, and to develop detailed revenue and expenditure estimates to carry out the financial plan. As such, the budget process incorporates the following activities:

| <i><b>Date</b></i>                | <i><b>Activity</b></i>                                                                                                                                            |
|-----------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <i><b>February/<br/>March</b></i> | <i><b>Budget policy, providing broad direction to staff governing the preparation of the FY 2022 budget, is adopted by the Board of County Commissioners.</b></i> |
| <i><b>April/May</b></i>           | <i><b>County Manager's Agency departments submit program and appropriation requests.</b></i>                                                                      |
| <i><b>May 1</b></i>               | <i><b>Supervisor of Elections, Clerk to the Board, and Sheriff requests budget submitted.</b></i>                                                                 |
| <i><b>June 1</b></i>              | <i><b>Property Appraiser budget submitted.</b></i>                                                                                                                |
| <i><b>Mid-late June</b></i>       | <i><b>Board of County Commissioners conducts budget workshops to review the proposed FY 2022 balanced budget.</b></i>                                             |
| <i><b>July</b></i>                | <i><b>Tentative budget, incorporating workshop changes and certified taxable value, is released to the Board of County Commissioners.</b></i>                     |
| <i><b>July</b></i>                | <i><b>Proposed millage rates (maximum property tax rates to be levied in FY 2022), approved by the BCC and certified to the Property Appraiser.</b></i>           |
| <i><b>August 1</b></i>            | <i><b>Tax Collector budget submitted.</b></i>                                                                                                                     |
| <i><b>Late August</b></i>         | <i><b>Property Appraiser distributes Notice of Proposed Taxes to all property owners in Collier County.</b></i>                                                   |
| <i><b>September 3</b></i>         | <i><b>First public hearing on FY 2022 budget conducted.</b></i>                                                                                                   |
| <i><b>September 17</b></i>        | <i><b>Final public hearing on FY 2022 budgets conducted. FY 2022 millage rates and budget adopted by the BCC.</b></i>                                             |
| <i><b>October 1</b></i>           | <i><b>New fiscal year begins; implementation of FY 2022 adopted budget.</b></i>                                                                                   |

This schedule complies with the requirements set forth in Florida Statutes Chapter 200, "Determination of Millage", and Chapter 129, County Annual Budget.

## Budget Policies

Historically, the annual budget policy approved by the Board of County Commissioners (Board), has consisted of three (3) sections which are “annual budget policies to be adopted”, “continuing budget policies to be reaffirmed” and a “three-year forecast for the General Fund and the Unincorporated Area General Fund”. While it is suggested that this format continue, the policy document will also cover significant budget influences and discuss the strategies which may be utilized to address these influences as the budget document and budget planning evolves for FY 2022 and beyond.

Summary of Specific Board Adopted Budget Policies for Fiscal Year 2022:

- A millage neutral General Fund tax rate budget.
- Maintain the Unincorporated Area General Fund tax rate at \$.8069 and this rate allows for continuation of the median landscape program.
- Maintained the County’s exemplary credit rating among all there major rating agencies.
- A \$1,000 General Wage Adjustment was approved to remain competitive in a highly aggressive labor market and recognize existing employees for their continued commitment, service, and loyalty to the agency. The County is implementing a new classification and compensation plan for County employees and fixing an outdated EMS pay plan to compete with outside agency first responders.
- Annual debt service is fully funded and policy compliant.
- General governmental new dollars programmed for capital initiatives total \$59 million and include the new long term capital recovery reserve funded at \$7.5million; \$11.8 million for continued improvements to the transportation network and 6.5 million for continued improvements to our parks systems; additional \$5 million toward the Sheriff’s helicopter; \$5 million for the Sheriff’s jail roof replacement; continued facility repair support not covered by the local option sales tax; continued set aside to upgrade the financial and accounting system; improvements to the County’s website.
- Continued emphasis on capital facility repair and replacement.
- Continuation of current 80/20 cost share for health care program with employees contributing 20%.
- Adherence to OMB published retirement rates.
- State and Federal mandates fully funded.
- County continues long standing commitment to school safety which was augmented by the state school safety mandate by allocating an additional \$3 million toward placing a sworn deputy in every public and charter school; school district passes along to the County dollars received by the state net of their administrative costs. This is the 4<sup>th</sup> and final year of this funding initiative.
- Continue focus on building reserves.

### **Natural Disaster Planning**

Since landfall of Hurricane Irma in September 2017, the County has put forth significant effort and resources in a continuing effort to harden critical public safety and utility infrastructure. Financially, the County is always prepared to cash flow and expend appropriated dollars to restore the community from any natural disaster and County leadership remains committed to a value-added coordinated emergency management approach which coalesces all County Agencies and external District partners as future natural disasters threaten Collier County.

As a reminder, to cash flow a natural disaster, three specific budget techniques are utilized. First, in funds where enough cash balance exists, FEMA revenue is budgeted, and corresponding expense budget appropriated anticipating some level of reimbursement in the coming months/years. Note that there is no cash behind budgeting FEMA revenue. Existing and routine incoming fund revenue is relied upon until the receipt of any FEMA deposits. Second, existing capital project budgets are reviewed and re-allocated were

appropriate. Third, general governmental and enterprise reserves are drawn down in appropriate and prudent amounts.

**Collier County Government  
Fiscal Year 2022 Adopted Budget**

For perspective, as of January 2021, the County has spent \$115.2 million recovering from Hurricane Irma. The County has received \$87.3 million in reimbursement revenue consisting of \$65.7 million in FEMA reimbursement and \$21.6 million in insurance reimbursements. Net cost to the County for the natural disaster totals \$27.9 million. The County can expect in the future to front substantial resources recovering from a major natural disaster for 18-24 months before any reimbursement revenue is received. Debris removal is the most expensive community restoration component generally accounting for 60% to 65% of all recovery costs.

**Millage Rates**

The General Fund and Unincorporated Area General Fund tax or “millage” rate has varied over the years and has been influenced by the taxable value environment and State legislation.

Tax or “millage” rates for the past thirteen (16) years are shown in table form below.

| <b>Millage Area</b>                 | <b>FY 06</b> | <b>FY 07</b> | <b>FY 08</b> | <b>FY 09</b> | <b>FY10-FY16</b> | <b>FY17-FY21</b> | <b>FY 22<br/>Planning</b> |
|-------------------------------------|--------------|--------------|--------------|--------------|------------------|------------------|---------------------------|
| General Fund                        | \$3.8772     | \$3.5790     | \$3.1469     | \$3.1469     | \$3.5645         | \$3.5645         | \$3.5645                  |
| Unincorporated<br>Area General Fund | \$.8069      | \$.8069      | \$.6912      | \$.6912      | \$.7161          | \$.8069          | \$.8069                   |

**General Fund Allocations by Agency and Component**

The purpose of this allocation is to identify those agency appropriation components within the General Fund. All agencies work diligently with the County Manager in support of budget policies adopted by the Board. Equally important is the premise that all agencies would share in any budget reductions necessitated by taxable values below the planning threshold, reductions in property tax revenues, new state tax reform initiatives, reductions in state shared revenue and *unfunded mandates*.

Considering that planned transfers to the Constitutional Agencies in FY 2022 account for 49% of total General Fund budgeted expenses and 71% of the General Fund ad valorem budgeted revenue, their participation in any necessary reductions due in part to unexpected ad valorem revenue shortfalls, tax rate reductions or unforeseen unfunded mandates is essential.

It should be noted that these expense percentages are gross figures and do not account for statutorily required year ending constitutional officer turn back. This turn back revenue is budgeted and forecast conservatively each year. Constitutional turn back revenue totaled \$11,173,500 and \$11,134,100 respectively across all funds for years ending FY 2019 and FY 2020 respectively. For year ending 2020, actual collections exceeded forecast in the General Fund by \$2.8 million to \$10,364,600. The General Fund receives on average 85% to 90% of all turn back revenue. Turn back revenue from the Tax Collector accounted for 78.6% of all fund turn back revenue in FY 2019 and 82.0% of all fund turn back revenue in FY 2020. This level of turn-back revenue is not expected nor is planned at year ending FY 2021 and potentially FY 2022 due to facility upgrades, new facilities and office reconfigurations by the Tax Collector and Clerk of Courts.

### **Revenue Centric Budgets**

It is generally recognized that all budgets and expense disbursements regardless of fund or activity are revenue and cash dependent. This concept establishes that enterprise funds, internal service funds, certain special revenue funds and other operational funds which rely solely on fee for service income with zero reliance upon ad valorem revenue should be allowed to establish budgets and conduct operations within revenue centric guidelines dictated by cash on hand and anticipated receipts.

For FY 2022, revenue centric budget parameters for enterprise operations will be tied to working capital guidelines established by GFOA; capital obligations from the capital improvement element (CIE); any rate or fee studies stipulations; priority agency wide expansion initiatives; and statutory or ordinance spending limitations. A critical review of operating and capital reserve levels versus operating and capital appropriations will be discussed during County Manager budget deliberations with an expectation that enough recurring resources are devoted to maintaining the utility asset at a high standard while resources are set aside to protect cash and fulfill our fiduciary responsibility to public protection in the event of a natural disaster.

This concept also presumes continual monitoring of cash and receipts and, if necessary, subsequent operational adjustments dictated by cash flow. Therefore, general governmental departmental spending guidance will not apply.

Certain cost centers or functions have a net cost to the General Fund (001) or Unincorporated Area General Fund (111). In these instances where fee for services offset the ad valorem impact, then the budget reduction guidance should account for this positive impact upon the net cost to the General Fund (001) or to the Unincorporated Area General Fund (111). Under this revenue centric approach, Departments will be held to their fee for service projections and any negative fee variances will be addressed through expenditure cuts and not subsidized by Ad Valorem taxes. Department Head discretion upon guidance by the County Manager should be afforded in these scenarios.

### **Expanded Positions**

For FY 2022, Departments will carefully consider expanded positions since proposed operating expenditure guidance will likely require a significant re-prioritization of current FY 2021 budget. Any expanded requests will be limited to new capital facility openings and/or Board directed service level adjustments. All budget to budget expanded positions and programs will be reviewed by the County Manager and his recommendations will be presented as part of FY 2022 budget workshop discussions in June.

**Collier County Government  
Fiscal Year 2022 Adopted Budget**

**Compensation Administration**

The philosophy of Collier County Government is to provide a market-based compensation program that meets the following goals:

1. Facilitates the hiring and retention of the most knowledgeable, skilled, and experienced employees available.
2. Supports continuous training, professional development, and enhanced career mobility.
3. Establish equitability in position pay ranges and to rates paid incumbents in those positions
4. Recognizes and rewards individual and team achievements.

The Consumer Price Index 12-month percent change from December 2019 to December 2020 is 1.1% for the Miami-Fort Lauderdale area. This is one of the indices that Collier County traditionally uses when considering a general wage adjustment. The annual Florida Relative Price Index, an index comparing the relative cost of living among the State's 67 counties, is also used as a basis for compensation plan recommendations. The most recently published Florida Relative Price Index lists Collier County as having the highest relative cost of living among the 67 counties in the State.

Like last year, rather than waiting to appropriate dollars for a compensation adjustment on an event driven basis, the County Manager proposes to appropriate dollars for the adjustment as part of budget planning for FY 2022 with the recommended structure submitted for Board consideration at the June Workshop meeting.

For FY 2022, the County Manager is recommending a cost of living base pay adjustment equal to \$1,000 across all pay classifications. The average County Manager Agency salary totals \$57,400 and this cost of living adjustment represents a 1.7% increase on this average salary. This recommended COLA adjustment is estimated to cost \$2.5 million for the County Manager's Agency.

In addition, a .54% or \$750,000 allocation is programmed to strengthen certain targeted front line employee pay grade classifications where a market imbalance exists. More importantly, after twenty (20) years, the county will embark on a complete professionally managed industry standard classification and compensation plan overhaul to determine if the current plan is consistent with the County's compensation goals, best practices and meets current labor market standards.

The recommended FY 2022 compensation adjustment and pay plan maintenance allocation is estimated to total \$3.25 million for the County Manager's Agency which is \$1.3 million less than last year's funding levels.

| Program Component       | FY 10 –<br>FY 12 | FY 13        | FY 14          | FY 15              | FY 16              | FY 17        | FY 18        | FY 19        | FY 20                                       | FY 21                             | FY 22                                       |

**Health Care Program Cost Sharing**

The County is self-funded and seeks to operate the health plan with the same diligence as a small insurance company. Like an insurance company, the County faces a significant budget risk within the health plan due to the potential for a statistical claim cost variance of 10% around the expected mean claims cost. Such variance is normal statistically and has its roots in the fact that total medical costs are

extremely sensitive to the number of claimants who experience catastrophic losses. The expected number and size of large claimants is by nature extremely random and volatile. To manage and prevent this variability, the County reinsures catastrophic losses and maintains a prudent reserve to comply with Florida Department of Insurance requirements as well as to protect the General Fund from this volatility.

There are several goals that guide how the County operates the plan within the small insurance company context. These are:

1. Comply with all legal and regulatory requirements for plan operation
2. Manage plan cost trends to be 30% or more below published trends
3. Maintain overall controllable expenses, reinsurance costs, network fee arrangements and reserves at prudent levels
4. Protect our employees from the economic impacts of illness or injury
5. Prevent illness when possible by helping our employees and their spouses become aware of their health, and act on that knowledge

Coverage under the Plan extends to all eligible County employees, except for the Sheriff's Office, which operates its own self-funded plan. Nationally, as well as here in Florida, medical plan costs, and the premium dollars required to fund them, continue to increase annually. The County's medical plan has the potential to be similarly impacted by these rising costs.

Due to exceptional plan performance over the past nine (9) plan years, plan reserves significantly exceed statutory minimums. **Therefore, it is recommended that there be no (0%) rate increase for FY 2022.** It should be noted that employer health insurance contribution increases are absorbed within operating appropriations.

Since 2009, Collier County Government has invested in processes to heighten employees and spouse's awareness of their health and make available resources to assist covered employees and spouses in improving and maintaining their health. These programs have achieved meaningful reductions in risk and improvements in outcomes for the covered participants.

Employees and spouses have embraced the County's preventive educational and qualifier processes which have contributed greatly toward the financial strength of the health program. Over the last ten (10) years, participation has been consistently more than 90% for those meeting the necessary qualifiers. This rate far exceeds those of large employers nationwide.

With the objective of mitigating increases to the plan, the County will continue to emphasize participation in existing wellness program, proper structuring of reinsurance to manage adverse plan impacts and prudent plan management.

Historically, Board budget guidance has suggested that all agencies uniformly share health insurance contributions between employers and employees.

### **Retirement Rates**

All agencies including Constitutional Officers must use the retirement rates published within the OMB budget instructions. OMB is monitoring all proposed bills. The legislature usually establishes the new retirement rates in the beginning of May with the Governor signing the bill into law at the end of May. The preliminary retirement rates that will be published in the instructions are based on proposed House and/or Senate Bills (Florida Statute Chapter 121).

### **Accrued Salary Savings**

When employees leave, they are generally replaced, and the process of replacement takes varying lengths of time depending on the position being recruited. This fact coupled with the full budgeted amounts for health insurance and worker's compensation being transferred to the self-insurance funds, impacts the

**Collier County Government**  
**Fiscal Year 2022 Adopted Budget**

amount of accrued salary savings due to position vacancies. For FY 2016, this rate was established at 2%. For FY 2022, it is suggested that the attrition rate remain at 2%.

**Financing New and Replacement Capital Infrastructure**

The issuance of debt for capital improvements is generally considered as a good alternative to pay as you go under the philosophy that future tax payers who will also enjoy the capital improvements should participate in funding capital improvements rather than that burden falling solely to existing tax payers. Further, the low interest rate environment, the County's superior investment quality credit rating, a revenue to debt service ratio well below the self-imposed cap of 13%, and not raising the millage rate to pay debt service for world class capital amenities provide further rationale for issuing strategic debt. Total unaudited general governmental and enterprise principal debt outstanding at 9/30/20 was \$558 million compared to a high of \$788 million in FY 2008. prior to the recent new debt issues of FY 2018, FY 2019, and FY 2020.

Pursuant to the Collier County Debt Management Policy, several guiding principles have been identified that provide the framework within which the issuance, management, continuing evaluation of and reporting on all debt obligations issued by the County takes place.

*Asset Life:* The County will consider long-term financing for the acquisition, maintenance, replacement, or expansion of physical assets (including land) only if they have a useful life of at least five (5) years. Debt will be used only to finance capital projects and equipment, except in case of emergency. County debt will generally not be issued for periods exceeding the useful life or average useful lives of the project or projects financed.

*Capital Financing:* Debt of longer amortization periods will be issued for capital projects when it is an appropriate means to achieve a fair allocation of costs between current and future beneficiaries. Debt shall not, in general, be used for projects solely because insufficient funds are budgeted at the time of acquisition or construction.

To the degree possible, the County will rely on specifically generated funds and or grants and contributions from other governments to finance its capital needs on a pay as you go basis. To achieve this, it may become necessary to secure short term (not exceeding 5 years amortization) construction funding. Such financing is anticipated and allows maximum flexibility in CIP implementation.

A decision to issue some component of short or long-term debt is based upon level of service standards, the timing of any capital improvement, ability to execute, the credit market environment, and cost of capital. The County had pursued a strategy in recent history (FY 2008 and prior years) by incurring short term commercial paper loans for capital projects and refinancing that short-term debt with longer term bonds or other long-term credit instruments which match the asset's useful life. Short term commercial paper loans carry a low variable interest rate – with the January 2021 rate currently at 1.31% - and funds can be accessed within about 30-45 days of approving the authorizing resolution.

The advantage of long term competitively issued bonded debt especially in a low interest rate environment is that budget certainty for the cost of credit is achieved. Generally, a project should be ready for construction and proceeds must reasonably be expected to be spent within a three-year window from debt issuance or adverse tax consequences may occur. Long term bonded debt or in the alternative competitively issue bank loans can be issued normally within a ninety (90) day window. The County's current general governmental long-term debt portfolio is comprised of special obligation revenue bond debt under a covenant to budget and appropriate all legally available non- ad valorem revenue. It is anticipated that this type of long- term debt will be used under future new general governmental debt credit scenarios.

*Immediate Term New Debt Strategy:* Passage of the Local Option Infrastructure Sales Tax does not eliminate the need to finance future infrastructure needs. New debt would be considered as projects are engineered and progressing in the following circumstances.

**Collier County Government**  
**Fiscal Year 2022 Adopted Budget**

- Financing in the estimated amount up to \$138 million to update the **Golden Gate** wastewater and water facilities and transmission pipe network and starting additional utility infrastructure servicing the **Northeast Service Area** including new raw water wells for future water treatment, deep injection and monitoring wells; transmission piping and landscape treatments buffering neighboring residential areas.
- Government Operations Business Park located on County property by the landfill with phase one currently ongoing to prepare the land and underground in the approximate amount up to \$40.5 million in advance of locating/relocating transportation and stormwater facilities, public utility facilities, pollution control facilities, and Sheriff's evidence facility. Current budget on hand is funding this initial land and underground prep work. The Sheriff evidence facility in the amount of \$33 million is funded from the local option infrastructure sales tax. Constructing the facilities other than the Sheriff's evidence facility is estimated to cost \$55 million with the construction phase scheduled to begin in FY 2022/FY 2023. Financing will be required.
- General Sheriff replacement capital improvements based upon a phased prioritized schedule.
- Any gap financing to complete all phases of the Sports Complex and Events Center
- Gas Tax transportation network improvements

The following illustrates various long-term financing scenarios, the annual debt service, and the respective interest rates.

### **Stormwater Management Funding**

The budget planning model under a millage neutral tax rate for FY 2022 allocates \$15.4 million from the General Fund and Unincorporated Area General Fund toward cash and carry storm-water infrastructure replacement (\$5.5 million); industry standard maintenance and operations (\$7.7 million); and annual debt service on the November 2020 Special Obligation Revenue Bond Series A \$60 million stormwater component (\$2.2 million). Annual debt service will reduce the cash and carry capital allocation and project engineering and capital implementation is ongoing to spend down bond proceeds on strategic projects intended to update the County's stormwater system.

### **Use of Gas Taxes and Future Gas Tax Pledged Debt:**

Restructuring of the gas tax debt in FY 2012 and FY 2014 at substantially lower interest costs, reduced debt service by \$1.0 million annually and this additional money has been applied to system maintenance and improvements.

Gas tax dollars which align with the current gas tax ordinances not devoted to paying debt service will be available annually until the debt expires in 2023 and 2025 unless additional wrapped debt after satisfying the adds bond test is issued for identified transportation/road related improvements. Remember that **\$26**

**million of the \$60 million** set aside as part of the local option infrastructure sales tax initially for construction of new bridges were redirected to fund replacement of existing bridges due to project timing.

One potential strategy for the Board to consider is using the annual available **constitutional** gas tax bond coverage above the add bonds test of 1.35x and apply this marginal additional coverage to issuing wrapped debt in an amount up to \$25 million funding necessary and planned transportation system and road improvements. Paralleling this approach is Board consideration to extending each **local option** gas tax ordinance in the full 12 cent amount which can be accomplished by local authority. The first 11 cents (commonly referred to as the 1 cent to 5 cents and 1 cent to 6 cents series) can be extended by a simple majority vote of the Board while the 9<sup>th</sup> cent requires a super majority vote. The County approved three separate ordinances levying the maximum local option gas taxes of 12 cents for purposes of paying debt service and maintaining the roadway system. All three ordinances which extend for twenty (20) years are set to expire on or about December 31, 2025. Gas taxes are the pledged source of repayment on the current Series 2012 and Series 2014 Gas Tax Refunding Bonds.

The strategy behind an early extension before December of 2025 involves capitalizing on low interest rates; greater coverage ratios; and an extended repayment horizon which increases funding capacity. Proceeds would fund identified Transportation system assets deemed “poor” in the inventory as well as capacity improvements not funded by the Local Option Infrastructure Sales Tax. Large scale projects identified in the five (5) year CIE which could be financed include Collier Boulevard (Green Boulevard to Main Golden Gate Canal), Vanderbilt Beach Road (16th Street NE to Everglades Boulevard), Goodlette Road (Vanderbilt Beach Road to Immokalee Road) and Wilson Boulevard (Golden Gate Boulevard to Immokalee Road). Interest rates on superior investment quality bonds - like Collier County credit - remain low. These large-scale projects and others identified for completion in the five-year CIE between FY 22 and FY 24 have a projected shortfall in recurring funding approaching \$100,000,000. Specific project engineering schedules will be reviewed during the succeeding 12-month period and the Finance Committee will continue to refine the concept and strategy and further information will be forthcoming.

Previously, the Board directed through policy that all available uncommitted gas taxes will be used to support maintenance of the transportation network and related capital initiatives. Beginning in FY 2019, no general governmental dollars were transferred to the Gas Tax Fund (313). Instead, general governmental dollars will be transferred to Capital Fund (310) supporting the maintenance and improvement of the transportation network. This change was made to specifically track use of gas tax proceeds in accordance with state statutes without any comingling of general governmental money.

Gas taxes collected in FY 2020 from all sources in totaled \$21.0 million. When you consider the payment of annual debt service (\$13.1M), the remaining \$7.9 million is programmed for construction and maintenance of the transportation network consistent with strict statutory guidelines.

Augmenting transportation network improvements budgeted in Gas Tax Fund (313) are regular general governmental transfers to Transportation Capital Fund (310). The General Fund capital transfer planned for FY 2022 to Fund (310) is \$8,817,300 which represents no change from FY 2021. The Unincorporated Area General Fund transfer planned to Fund (310) for FY 2022 is \$3,000,000 representing no change from FY 2021. These dollars support maintenance on the roadway network including intersection improvements, resurfacing, sidewalks, pathways, asset management and traffic control software, and other critical maintenance needs which are not eligible for gas tax funding by statute.

#### **General Fund Debt Contribution and Debt Management**

The following table identifies how General Governmental County Wide Capital contributions appropriated within the General Fund were programmed in FY 2021 and planned in FY 2022. General Fund transfers to Stormwater and Transportation System improvements are accounted for separately and not included in this General Capital programming scenario.

**Collier County Government**  
**Fiscal Year 2022 Adopted Budget**

| <b>General Appropriation</b>           | <b>FY 2020</b>      | <b>FY 2021</b>      | <b>FY 2022</b>    |
|----------------------------------------|---------------------|---------------------|-------------------|
| Non-Growth Debt Service                | \$3,694,200         | \$3,655,600         | \$8,605,300       |
| Impact Fee Trust Fund Loans            | \$1,040,200         | \$2,192,100         | \$1,547,800       |
| General Governmental Capital Projects  | \$10,591,500        | \$15,592,400        | 21,300,900        |
| Park's, Museums, and Airport Transfers | \$4,825,600         | \$4,776,500         | 2,820,000         |
| Future Capital Replacement Reserve     | \$5,000,000         | \$5,000,000         | \$5,000,000       |
| <b>Total</b>                           | <b>\$25,151,500</b> | <b>\$31,216,600</b> | <b>39,274,000</b> |

Planned contributions in FY 2022 represent a significant increase from FY 2021 and this allocation may change depending upon Board adopted millage rate policy; changes in the tax base; Board adopted operational service level changes; or other reprioritized initiatives.

Total loans outstanding to the impact fee trust funds (i.e. EMS, Libraries, Corrections, Law Enforcement and General Government Facilities) from the General Fund since inception (FY 2005) through FY 2021 totals \$105 million. Going forward, the level of General Fund loan subsidy is heavily dependent upon the level of impact fee collections and any new eligible growth-related general governmental capital projects planned in the areas identified above in this paragraph which are not paid by the Local Option Infrastructure Sales Tax. Current general governmental growth debt which is paid predominately from impact fees expires in FY 2036.

General Fund loans to the Airports began on or about FY 1995 and to date various operational and capital subsidies total \$26.4 million. Recent loans have not been necessary to subsidize operations but to support capital grant matches.

Payment of debt is always a top priority. Under the FY 2022 budget planning scenario dollars allocated will cover all revenue bond debt service.

The cumulative net interest rate of the County's overall debt portfolio has been reduced from approximately 5% to 2.83% and annual principal and interest payments servicing all outstanding County debt (includes enterprise debt) totals \$63.5 million and represents 4.1% of the County's net adopted FY 2021 budget. General governmental debt service represents 2.6% of the County's net adopted FY 2021 budget. The following charts depicts annual debt service payments servicing all debt and annual debt service connected with our general governmental credit.

Collier County's total un-audited principal debt outstanding at 9/30/20 totals \$558.2 million of which \$288 million relates to infrastructure improvements driven by population growth and related service demands. The County's principal debt is \$230 million below the FY 2008 figure of \$788 million. Principal debt outstanding at 9/30/20 listed above does not include the most recent \$115 million 2020 A&B series issue for stormwater, parks, and strategic property acquisition.

**Collier County Government**  
**Fiscal Year 2022 Adopted Budget**

**Reserves**

**General Fund:** Reserve is a budget/policy term referring to resources set aside to provide a financial barrier against risk. Likewise, reserves may also be referred to as a portion of fund balance – only on the expense side of the equation. Reserves are the cornerstone of financial flexibility and provide government with options for responding to unexpected issues and a buffer against shocks and other forms of risk. One such un-planned risk may for example include the potential for a grant award to be rescinded after work on the activity begins.

Grant revenues are appropriated at the time of award with the expectation of future cash inflows from the grantor agency. Until reimbursements are received, the General Fund and General Fund supported agencies provides the cashflow for most general governmental grant funded activities and is responsible for financing grant related activities in full, should the County default on any grant provisions or a grantor agency cancels, revokes, or de-obligates an award.

It is essential for governments to maintain adequate levels of fund balance to mitigate current and future risks such as revenue shortfalls, natural disasters, and unanticipated expenditures. As such, budgeted reserves serve to protect beginning cash position in a fund and are an essential component of Collier County's overall financial management strategy and a key factor in external agency measurement of Collier County's financial strength.

Various bond rating agencies recognize that the best reserve policies provide both specificity and flexibility accomplishing one or more of at least the following three criteria:

- establishing a target level of reserves or a reserve floor
- specifying the appropriate circumstances for drawing down reserves
- directing the replenishment of reserves

In general, rating agencies view positively higher reserve levels, although local governments can maintain high credit ratings with lower reserve levels if other indicators of financial flexibility such as revenue raising ability, stable diverse revenue structure, expenditure flexibility and conservative budgeting practices are strong.

A reserve for contingency is typically budgeted in all operating funds, except for the Constitutional agency funds. Reserves for the Constitutional Agency funds shall be appropriated within the County General Fund.

The following is a history of budgeted reserves within the General Fund and Unincorporated Area General Fund since FY 2008 as well as the % of reserves against total operating expenses.

| Fiscal Year | General Fund Reserves | Unincorporated Area General Fund Reserves | % of General Fund Expenses | % of Unincorporated GF Expenses |
|-------------|-----------------------|-------------------------------------------|----------------------------|---------------------------------|
| 2022        | \$63,776,400          | \$2,467,800                               | 13.8%                      | 4.0%                            |
| 2021        | \$56,798,900          | \$2,695,500                               | 12.8%                      | 4.4%                            |
| 2020        | \$51,532,900          | \$2,340,600                               | 12.1%                      | 3.9%                            |
| 2019        | \$44,481,200          | \$2,982,300                               | 11.4%                      | 5.3%                            |
| 2018        | \$40,450,300          | \$3,255,000                               | 10.8%                      | 5.5%                            |
| 2017        | \$33,899,700          | \$2,432,900                               | 9.6%                       | 4.8%                            |
| 2016        | \$27,890,800          | \$1,905,600                               | 8.4%                       | 4.4%                            |
| 2015        | \$26,670,700          | \$2,220,100                               | 8.5%                       | 5.6%                            |
| 2014        | \$26,217,400          | \$1,715,000                               | 8.9%                       | 4.5%                            |
| 2013        | \$24,844,400          | \$1,596,200                               | 8.7%                       | 4.3%                            |
| 2012        | \$18,180,900          | \$1,739,500                               | 6.2%                       | 4.5%                            |
| 2011        | \$14,210,200          | \$2,925,100                               | 4.7%                       | 7.4%                            |
| 2010        | \$15,569,100          | \$3,422,400                               | 4.9%                       | 7.2%                            |
| 2009        | \$17,541,200          | \$2,853,500                               | 5.0%                       | 5.8%                            |
| 2008        | \$20,506,000          | \$6,336,600                               | 5.5%                       | 12.9%                           |

Optimally, and to achieve a regular and sustained General Fund beginning fiscal year cash position of at least \$95 to \$105 million, budgeted reserves should be a minimum of \$55 million. Otherwise, expense side management of the budget in the form of capital transfer reductions and or reductions in operating transfers may become necessary.

Budget management is always ongoing and more magnified at times when Hurricane events occur. Expenditures and revenues are monitored continually, and any budget adjustments are made accordingly. Likewise, execution patterns are scrutinized along with transfer dollars – specifically out of the General Fund to make sure that appropriations are properly executed and spent for the intended purpose.

*Florida State Statutes:* In all respects, budgeted reserves shall conform to requirements of Florida State Statutes. The State establishes maximum limitations on certain reserves. The maximum limitations for contingency reserves and for cash flow reserves are 10% and 20% of a fund's total budget respectively. There is no statutory limit on capital reserves.

### **Comparative Budget Data**

Provide comparative budget data using FY 2021 adopted budget data (cost and employees per capita based on unincorporated area population) by Agency with Budget Submittals for Similar Sized Florida Counties.

**Adopted Budget Policy:** Counties for comparison purposes include:

- Sarasota County
- Lee County
- Charlotte County
- Manatee County
- Martin County

### **Regular Routine Budget Policies for FY 2022**

**Grant Funded Positions:** Any positions formerly funded with grant funds being recommended for inclusion in a general (non-grant funded) operating budget shall be treated as expanded service requests.

**Self-Insurance:** To conduct an actuarial study of the self-insured Workers' Compensation, Property and Casualty, and Group Health Insurance programs. Program funding to be based upon an actuarial based confidence interval of 75%, except for group health to which a confidence interval is not applicable.

**Contract Agency Funding:** The Board will not fund any non-mandated social service agencies.

**Median Maintenance:** Recognize the Unincorporated Area General Fund MSTD (111) as the appropriate, dedicated funding source for median beautification maintenance costs.

**Carry forward (Fund Balance):** All funds that are unexpended and unencumbered at the end of the fiscal year will be appropriated as carry forward revenue in the following year. Carry forward revenue represents not only operating funds but also previously budgeted operating, debt service, and capital reserves that are "carried forward" to fund these same reserves in the new year or to fund capital projects in the current or future years. The largest sources of carry forward are the capital, debt service, and enterprise funds. In both the General Fund and Unincorporated Area General Fund, carry forward is maintained to provide cash flow for operations prior to the receipt of ad valorem taxes and other general revenue sources.

Proper General Fund carryforward is necessary to meet significant constitutional transfer, public safety and priority operating needs for October and November, prior to the receipt of any significant ad valorem tax revenue (ad valorem taxes represent 67.0% of the total FY 2021 General Fund adopted recurring operating revenues).

Carryforward balance is also an important measure used by bond rating agencies in determining the County's credit worthiness. Specific concerns for Florida communities are reliance on the tourism industry and sales tax revenue, and the ongoing threat from hurricanes and wildfires. For Florida coastal communities, a minimum cash balance of 15% of total General Fund expenditures was recommended by the ratings agencies. Of course, this figure and recommendation was general in nature and subject to each county's individual cash flow needs. A higher percentage would be considered positive – especially during any ratings surveillance.

The recommended level of year ending cash in the General Fund should be a minimum of 15% of actual expenditures. At year ending September 30, 2020, actual General Fund cash and cash equivalents balance totaled \$113,718,100, an increase of \$11,694,100 over year ending FY 2019. The FY 2020 year ending cash position represents approximately 27.9% of actual FY 2020 expenses.

**Indirect Cost Allocation Plan:** The policy of charging enterprise, special revenue, and grant funds for support services provided by General Fund departments will be used again in FY 2022. The basis of these charges is a detailed indirect cost allocation plan prepared, periodically, by a consultant and adjusted by staff to reflect the organizational environment on a real-time basis.

**Impact Fees:** Collier County will assess impact fees at such levels as allowed by law, established by the Board of County Commissioners, and supported by impact fee studies.

**Enterprise Fund Payment In lieu of Taxes:** The Solid Waste Fund and the Collier County Water-Sewer District will once again contribute a payment in lieu of taxes (PILT) to the General Fund. For FY 2021, the payment in lieu of taxes calculation was based upon a "franchise fee equivalent basis" commonly referred to as a percentage of gross receipts. Five and three quarters percent (6.0%) of gross receipts of the Water/Sewer District were applied in FY 2021. This method and percentage will continue for FY 2022. One and three-quarter percent (1.75%) of Solid Waste tipping fees were applied in FY 2021 and this method and percentage is planned in FY 2022. This method is a common approach used by local governments and is generally consistent with fees paid by private utilities operating in a local government jurisdiction.

Prior to FY 2013, PILT was based upon the prior year General Fund millage rate multiplied by the prior year gross (non-depreciated) value of property, plant, and equipment.

**Debt Service:** Any capital projects financed by borrowing money shall limit the repayment period to the useful life of the asset.

**Interim Financing:** Collier County may also borrow funds on an interim basis to fund capital projects. In these cases, a repayment source shall be identified and the financing source that has the lowest total cost shall be employed.

The Collier County Debt Management Policy provides that debt restructuring for economic savings will be undertaken when a present value savings of at least five percent of the refunded debt can be achieved. The policy also states that five percent savings is often considered a benchmark and that any refunding that produces a smaller net present value savings may be considered on a case by case basis. A smaller net present value savings may be prudent for example when the intent is to eliminate old antiquated and limiting bond covenant language.

**Ad Valorem Capital and Debt Funding:** Continuation of a General Fund equivalent millage dedicated to ongoing regular general governmental capital projects, debt service and impact fee fund debt loans from the General Fund. The target rate is the equivalent of 0.3333 mills. (See history below).

The General Fund continues to loan money to impact fee funds to pay their annual debt service payments. This of course is in addition to normal and customary debt service on non-growth revenue bond debt. Loans from the General Fund to the impact fee trust funds began in FY 2006 and the value of all loans made now exceed \$105 million.

**Capital Improvement Program (CIP) Policies:** On an annual basis, the County shall prepare and adopt a five-year Capital Improvement Element (CIE) consistent with the requirements of the Growth Management Plan.

- Capital projects attributable to growth will be funded, to the extent possible, by impact fees.
- Capital projects identified in the five-year CIE will be given priority for funding. The five-year plan for water and wastewater CIE projects will be based on projects included in the adopted master plans.

Unlike operating budgets that are administered at the appropriation unit level, capital project budgets will continue to be administered on a total project budget basis. The minimum threshold for projects budgeted in capital funds is \$25,000.

### **Three-Year Budget Projections Ad Valorem Tax Funds (FY 2022 - FY 2024)**

OMB staff prepares annually a three-year projection of General Fund and MSTD General Fund revenues and expenditures to improve financial planning and to understand the long-term impact of funding decisions. These projections are complimented by a **trend analysis** of revenues and expenses which conclude the General Fund and Unincorporated Area General Fund sections respectively.

The following 3-year budget projections are for the General Fund (001) and the MSTD General Fund (111).

#### **General Fund (001) Millage History and Millage Rates**

As a point of reference, the following graph plots the historical General Fund millage rate, as well as tax rates for FY 2022 through FY 2024. These rates do not include any marginal increase which the Board may direct by policy for a specific program or initiative. Millage neutral rather than tax neutral rates for general operations are used for planning purposes considering the belief that taxable value will continue to increase modestly in the future.

**Collier County Government**  
**Fiscal Year 2022 Adopted Budget**

While the County Manager will be recommending a General Fund ***millage neutral base operating budget*** in FY 2022 and while this millage neutral budget will contain funding for priority public safety and other significant asset maintenance/replacement initiatives, the Board should note the magnitude of our current and future asset maintenance responsibility as well as significant new initiatives and devote additional future dollars which may be generated from an increasing taxable value base to fund these recurring initiatives.

Diversifying the County's tax base means in large part attempting to reduce risk. Risk of an economic downturn which surely will stagnate resources and organizational risk where the risk of stagnate resources exponentially impacts operations and capital resource allocation. Significant future resources must be devoted to capital maintenance in numerous areas. We have addressed our future heavy equipment, public safety ambulance and general vehicle replacement needs. But there remains substantial asset maintenance and replacement needs, not the least of which is general governmental building maintenance, park's system infrastructure, constitutional officer capital requirements and other general governmental capital functions like, information technology upgrades, accounting system replacement, and other soft infrastructure needs. Then there is the issue of maintaining existing storm-water infrastructure which for FY 22 will be funded at an increased level through general governmental appropriations.

The following tables depict the respective ***millage neutral*** tax rates for FY 2022, 2023 and 2024 as well as additional ad valorem dollars which could be raised under certain increasing tax base assumptions.

| General Fund | FY 20 Adopted and Recommended<br><i>Operating Millage Neutral</i> Millage Rates | Additional Budgeted Ad Valorem<br>Revenue Projection Each Year |
|--------------|---------------------------------------------------------------------------------|----------------------------------------------------------------|
| FY 21        | 3.5645                                                                          |                                                                |
| FY 22        | 3.5645                                                                          | \$7,069,700 @ 2.0% TV Increase                                 |
| FY 23        | 3.5645                                                                          | \$7,211,100 @ 2.0% TV Increase                                 |
| FY 24        | 3.5645                                                                          | \$7,355,300 @ 2.0% TV Increase                                 |

For Collier County to continue providing high quality best value services; continue to address infrastructure maintenance and replacement; replace public safety and general governmental equipment and vehicles and; maintain its reserve and cash positions pursuant to policy and representative of an investment quality credit rated organization, it is prudent to capture those additional ad valorem dollars generated by an increasing taxable base. New governmental initiatives which always seem to emerge each fiscal year also provide rationale to capture property tax revenue from an increasing base year over year.

**Collier County Government**  
**Fiscal Year 2022 Adopted Budget**

Failure to capture additional property tax dollars resulting from increasing taxable values will jeopardize service levels and make it difficult to maintain the extraordinary world class infrastructure investment which this community enjoys. As taxable values begin to slow and investment in County innovation zones and the County and Naples CRA's grows the margin between rolled back rate and millage neutral will narrow. Thus, maintaining the long standing millage neutral philosophy must be continued knowing the level of investment required to simply maintain our general governmental assets, and fund Sheriff operations let alone expand services and facilities based upon AUIR requirements and servicing the needs of an expanding population.

The projected millage rates assume that the tax base will increase 2.0% in FY 2022 (the 2021 tax year). Taxable value in FY 2023 is projected to also increase 2%. The Property Appraiser will provide preliminary taxable value estimates for FY 2022 on June 1, 2021. Actual and assumed changes in County taxable values are as follows:

**Notes to Graph** - FY 2007: The General Fund (001) millage rate adopted in FY 2007 was based upon a 16% increase in taxable value pursuant to BCC direction. FY 2008: As part of the Florida Legislative Property Tax Reform package implemented in FY 2008, Collier County adopted its final millage rate at 91% of the rolled back rate.

### **FY 2022 Significant Expense Assumptions**

A millage neutral operating budget, again assuming no marginal adjustment for special policy initiatives of the BCC, assuming an increasing taxable value base provides the County with those important additional ad valorem dollars necessary to maintain our assets, invest in our personnel, and service those who live and visit Collier County. Significant expense assumptions include.

- Allocation for compensation administration – \$1,000 base COLA adjustment across all pay classifications plus a .54% pay plan maintenance component.
- 2% attrition rate on regular salaries assumed in the County Manager's Agency.
- Motor pool replacement dollars for routine ambulance replacement on schedule.
- \$5,000,000 for general County Manager Agency building maintenance plus an additional \$5,000,000 for the Jail's roof replacement.
- \$5,000,000 allocation toward long-term general governmental asset maintenance reserve
- Continued Social Service and Mental Health Funding.

- General Fund loans to the impact fee trust funds planned at \$1,547,800 which while low compared to previous years should not be viewed as a trend due to the volatility of impact fees.
- Stormwater maintenance, operations, and transfers for capital and debt service payments planned at \$7.5 million.
- General Fund transfer dollars supporting road construction and maintenance funded at 8.8 million.
- General Fund support of EMS Operations established at \$18,708,700 – up 3.8% from last year reflecting staffing of new facilities planned for opening.
- Full support for Transportation Operations from the General Fund (001) exclusively in the amount of \$21,183,300
- Continued corporate IT capital funding.
- Cash and carry deposit of an additional \$2 million bringing the total to \$4.7 million as the process of evaluating a new accounting system continues.
- Building maintenance funding for Sheriff Facilities totaling \$1,000,000.
- Second installment of \$4 million toward replacing the Sheriff's helicopter, bring the total to \$6 million.
- Mandates to be absorbed if possible, within operating budgets, including Constitutional Officers.

### **Significant Revenue Assumptions**

- FY 2021 ad valorem tax revenue forecast is 96% of actual taxes levied. FY 2021 forecast totals \$336,801,200 – a reduction of \$15,521,900 from the adopted budget. Collections are within the 5% statutorily budgeted revenue reserve.
- A millage neutral position for FY 2022 produces a levy of \$360,554,500.
- Sales tax revenue sharing forecast for FY 2021 is projected conservatively at \$42.2 million which represents the State's estimate, an increase of \$4.2 million from the adopted budget. FY 2022 budgeted revenue is planned at \$41,000,000. Conservative revenue estimates are essential to achieving the required beginning cash balance position.
- State Revenue Sharing forecast for FY 2021 is based on the State's estimate of \$11.2 million. The FY 2022 budget is projected conservatively at \$11,000,000 which is an increase of \$1.5 million over the adopted 2021 budget.
- Property taxes, sales taxes and revenue sharing deposited in the General Fund represent 92% of all recurring operating revenue which excludes carry-forward (fund balance).
- Constitutional Officer turn-back is a conservative budget estimate and for FY 2022 \$6,600,000 is planned. Turnback to the General Fund at year ending 2020 totaled \$10,364,600.
- Measures to maintain beginning cash balance at between \$95 million and \$105 million is necessary and includes continued growth in budgeted reserves coupled with any combination of revenue receipts over budget and expense side budget management.
- Interest income for FY 2022 is conservatively planned to decrease by \$300,000 to \$1,600,000.

### **EMS Fund**

EMS Operations Fund (490) is another fund that impacts the General Fund. Typically, this ad valorem support in recent years accounted for 50% to 55% of total EMS operating revenues. The percentage varies given the instability in fee revenue collections and any Board policy directives. The General Fund subsidy planned for FY 2022 is up \$690,100 reflecting an additional six (6) FTE's required to staff new facilities. Historical and projected General Fund support of EMS operations by fiscal year is as follows:

Use of General Fund dollars to support this life/safety function has and continues to be a priority.

### **Road Construction Program**

Board approved budgets have recently supplemented funding for the transportation network with general governmental dollars transferred from the General Fund to Transportation Capital Fund (310). This transfer is sized annually based upon the anticipated growth in taxable value and the recurring need to fund other strategic capital commitments. Over the past four (4) fiscal years the actual transfer has averaged \$6.9 million annually. With taxable values projected to increase modestly for FY 2022, the General Fund contribution to road construction and maintenance is planned to total \$8.8 million. This transfer is subject to change based upon budget year execution patterns.

As future budgets are planned, and scarce resources allocated, infrastructure maintenance and non-growth-related improvements will certainly require a dedicated commitment of general revenue to protect this investment. Capital obligations necessitated by state or federal agreement, like JPA's and DCA's will be funded.

### **FY 2023**

A **millage neutral** operating budget in FY 2023 with an increase of 2% in taxable value can continue to allow for priority funding of public safety capital initiatives and general governmental capital programming referenced in this document with proper budget management. This of course is in addition to the many new initiatives and program enhancements, Board directed or otherwise required to support an expanding service base, all of which compete for limited general governmental resources.

In addition to annual inflationary cost increases, the following items were included in the FY 2023 budget analysis:

- Maintain general governmental capital projects recurring funding.
- Maintain General Fund support of EMS.
- Contingency reserves are maintained at policy.
- Maintain General Fund road subsidy.

**Collier County Government**  
**Fiscal Year 2022 Adopted Budget**

- Maintain General Fund support for park system maintenance and replacement
- Maintain General Fund support for Transportation Operations expenses.
- Continue annual contribution to the long-term asset maintenance reserve.

In summary, the FY 2023 analysis signals caution especially when critical variables like taxable value, market conditions and general revenues are difficult to predict. Pursuing a **millage neutral** operating budget in FY 2023 without proper budgeted beginning fund balance would likely result in a \$18.1 million budget planning deficit as depicted in the trend analysis below. Of course, regular annual budget management to eliminate any actual equity reduction would occur in real time.

### **FY 2024**

A **millage neutral** operating budget in FY 2024 coupled with a projected 2% taxable value increase can allow for continued funding of asset maintenance and replacement while funding those programs and services enjoyed by an expanding population base. Once again, management of the budget will be important to achieve appropriate beginning fund balance.

The following items were included in the FY 2024 budget analysis:

- Maintain general governmental capital projects recurring funding.
- Maintain General Fund support of EMS.
- Contingency reserves are maintained at policy.
- Maintain General Fund road subsidy.
- Maintain General Fund support for park system maintenance and replacement
- Maintain General Fund support for Transportation Operations expenses.
- Continue annual contribution to the long-term asset maintenance reserve.

The General Fund Trend Analysis model shown below is intended to offer a picture of very conservative revenue projections against operating and capital expenses which will likely be faced in the out years. Of course, financial staff manages the budget in real time and will mitigate unplanned equity reductions. But, imagine a scenario where major revenue sources like property taxes or state shared revenues were cut or reduced. The obvious impact would be subsequent expense reductions possibly coupled with new adopted revenue sources and thus the need for budget flexibility.

## **Budget Review Process**

Department Heads prepare program and line item budgets based on adopted Board policy. Budget instructions provide details regarding the implementation of the policies such as proposed salary adjustment, internal service charges, etc. The OMB staff analyzes each submission for accuracy, content and compliance with the previously determined priorities and policies.

Each Department Head is provided an opportunity to discuss and defend budget submissions to the County Manager. The County Manager makes the final decision for the recommended budgets presented to the Board of County Commissioners in June.

Budget work sessions with the Board of County Commissioners provide a forum for the discussion and finalization of spending plans, the establishment of proposed millage rates and the finalization of the policy statements. In July, maximum proposed millage rates are adopted based on the tentative spending plan and assessed taxable values provided by the Property Appraiser.

Public hearings are held in September to allow for citizen input. The final budget is adopted at the second hearing following a legal notice summarizing the proposed plan and tax rates.

## **Budget Amendment Process**

The Board of County Commissioners annually adopts the budget by resolution for all funds of the County. Budgetary authority is legally maintained at the fund level. However, the County's computerized financial system imposes budget controls for operating funds at the appropriation unit levels by department.

Amendments to the adopted budget can occur at any time during the fiscal year through action of the Board or the County Manager in the following manner:

1. Budget Amendments: Fund revenue and expenditure amounts may be increased or decreased by formal action of the Board following proper public notice as specified in Chapter 129.03 (a) Florida Statute. Amendments to the adopted budgets normally result from either the desire to recognize anticipated revenue or the unanticipated decrease of anticipated revenue. The purpose of the amendment process is to adjust fund amounts to reflect the level of revenues reasonably anticipated to be received and to balance expenditures to these revenues in accordance with state law and sound financial practices.
2. Certain Budget Amendments in accordance with Chapter 129, F.S., require either a resolution that can be approved by the Board of County Commissioners (BCC) on the consent agenda or a resolution that can be approved by the BCC on the Summary Agenda after an advertised public hearing. To save staff time and significant advertising costs, OMB processes one consent resolution on the following agenda to cover all budget amendments that just needed a resolution on the prior agenda. Monthly, OMB processes a resolution and an advertised public hearing to cover all budget amendments that required an advertised public hearing for budget amendments from the past two agendas.
3. Budget Amendments in the amount of \$50,000 or less within the same fund and departments that do not affect revenues or reserves may be made administratively through County Manager approval. Budget Amendment requests under \$50,000 when moving dollars among departments or decreases to reserves equal to or less than \$25,000 that require individual Board action, but no executive summary (formal staff report) are presented twice monthly in a Budget Amendment report for approval. Budget Amendments requiring an executive summary and Board approval include withdrawals from reserves in excess of \$25,000; increase in an operating and/or capital budget over \$50,000; requests for new positions and/or programs; and appropriating supplemental revenues.

## Basis of Accounting and Budgeting

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. The County's accounting records and budgetary basis for general government operations are maintained on a modified accrual basis, with revenues being recorded when they are earned, and expenditures being recorded in the period incurred.

Accounting records and the budgetary basis for the County's proprietary funds (enterprise funds such as utilities and solid waste operations, and internal service funds such as fleet management and self-insurance funds) are maintained on a full accrual basis. Not only are expenditures recognized when commitments are made (i.e., through purchase orders) but revenues are also recognized when available and measurable (i.e., water and sewer fees are recognized as revenue when bills are produced). Depreciation expense is not budgeted; however, expenditures for capital outlays are budgeted. These outlays are capitalized into fixed assets and eliminated from the results of operations in accordance with generally accepted accounting principles (GAAP).

The Comprehensive Annual Financial Report (CAFR) shows the status of the County's finances on a GAAP basis. In many cases this conforms to the way the County prepares its budget. Exceptions are the treatment of depreciation expense (the budget reflects the full purchase price of equipment and capital improvements but does not reflect depreciation expenses). In addition, expenses for capital improvements in the proprietary funds are depreciated in the CAFR. Compensated absences (accrued but unused sick and vacation leave) are not budgeted but are reflected in the CAFR as an outstanding liability. The Comprehensive Annual Financial Report shows fund expenditures and revenues on both a GAAP basis and a budget basis for comparison purposes.

Finally, fund balance allocations (residual unappropriated liquid assets resulting from prior years' operations) are budgeted and included as revenue on a budgetary basis but are eliminated on a GAAP basis for financial reporting.

## Adopted Budget Summaries

Collier County prepares a Budget Summary based upon the actual operations of the County, i.e. Divisional/Agency. Summary information is provided for prior and current year adopted budgets. This tool allows management to focus on actual operating plans at a high level, monitor reserves and project cash balances for year-end.

A second Budget Summary, Comparative Revenues, Expenditures and Changes in Fund Balance by Functional Area for All Governmental Funds are prepared for Governmental Funds only. This summary is grouped by functional area for analysis on an annual basis. The highlight of this summary shows the actual fund balance as compared to the planned fund balance, in aggregate, for all Governmental Funds.

Finally, a third summary schedule is included that highlights the appropriations, by fund, compared to the prior year, and grouped by fund type.

**Note (1):** This data comes from the Collier County Comprehensive Financial Report (CAFR) and uses accrual based accounting.

**Note (2):** As discussed in the Basis of Accounting and Budgeting section, the Finance Department maintains capital expenditures separate from the functional activities while budgeting applies the capital expenditure to the function it relates to.

**Note (3):** As discussed in the Estimated Changes in Fund Balance, Recommended Ending Fund Balance assumes all budgeted appropriations will be expended and only 95% of budgeted revenues will be received.

## Fund Structure, Fund Balance and Description of Funds Subject to Appropriation

Fund balance (Net Position) represents the net financial resources of a fund – in other words, assets minus liabilities – in simpler terms, dollars available to spend. If some of the funds' resources are not available to spend, this would be indicated by "restricting" or "reserving" a portion of the fund balance.

The Governmental Accounting Standards Board (GASB) Statement Number 54, Fund Balance Reporting and Governmental Fund Type Definitions, has been in effect for fiscal years beginning after June 15, 2010. The objective of this statement was to improve the usefulness and understandability of governmental fund balance information. GASB 54 classification is only required for governmental funds and therefore, no presentation is made for Proprietary or Agency Funds. All funds are appropriated annually with the exception of Grant Funds, which are appropriated at the time grant awards are approved by the Board of County Commissioners. Collier County's funds can be divided into the following three categories: governmental, proprietary and fiduciary.

A further designation is made between Major and Non-Major.

### ***Major Funds and their descriptions are:***

#### ***Governmental:***

- **General Fund** is the largest operating fund of the County. It is used to account for all countywide general government activities and is supported principally by ad valorem taxes.
- **Bayshore/Gateway and Immokalee CRAs** are Community Redevelopment Agencies established for areas of the County to address specific needs of those areas. The primary revenue source is the Tax Increment Financing (TIF) revenue transferred from the General Fund.

**Collier County Government  
Fiscal Year 2022 Adopted Budget**

- **Infrastructure Sales Tax Fund** is used to account for receipt and expenditure of public infrastructure expenditures funded by the one-cent local government infrastructure surtax.

***Proprietary:***

- **Collier County Water and Sewer Fund** is used to account for the operations of the day-to-day operating functions for the County's water collection, distribution and sewer systems. Principal revenues are water and sewer user fees.
- **Solid Waste Fund** is used to account for the collection and disposal of the entire waste stream generated in Collier County. Landfill operations have been privatized through a contractual agreement with Waste Management, Inc. The principal revenue source is tipping fees.
- **Emergency Medical Services Fund** is used to account for the provision of emergency ambulance and paramedical services used throughout the County. Principal revenue sources are ad valorem taxes and ambulance user fees.

***Non-Major Funds include:***

***Governmental:***

- **Special Revenue Funds** are used to account for the proceeds of specific revenue sources that are for specified purposes or are restricted in use.
- **Debt Service Funds** are used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest, and related costs. A brief discussion of each bond issue, repayments pledge, and date of final maturity follows.
- **Capital Project Funds** are used to account for financial resources to be used for the acquisition or construction of major capital facilities or improvements.
- **Permanent Funds** are used to account for resources that are legally restricted.

***Proprietary:***

- **Enterprise Funds** are used to account for operations that are financed and operated in a manner similar to private business enterprise. The intent of the governing body is that all costs of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges.
- **Internal Service Funds** are used to account for the provision of goods and services by the County departments providing services to other County operations.

***Fiduciary Funds:***

- **Trust and Agency Funds** are used to account for resources held for the benefit of parties outside of Collier County government. They are assets held in trust or for individuals, private organizations, other governmental units and/or funds to be used for special purposes.

For a complete listing of all Funds utilized by Collier County, their descriptions and the category they fall into, please see the Budget by Fund section.

## Estimated Changes in Fund Balance by Fund Type

The next several pages provide an estimate and a discussion of the budgeted fund balance for the County's Funds by fund type. Fund balances are the product of unspent amounts from prior years within a fund. Fund balances can be caused by timing issues (capital projects not completed when expected, unspent grant funds), excess planned revenues over planned expenditures, or they can be planned for, such as setting aside monies for future or contingent events. When developing a "balanced budget," available fund balances are combined with estimated revenues to comprise the total sources available to fund appropriations.

The budgeted year-end fund balance is determined by subtracting budgeted expenditures from the sum of prior year-end fund balance plus budgeted revenue. The difference is budgeted year-end fund balance. The budgeted year-end fund balance is then compared to the prior year-end budgeted fund balance to determine the change in fund balance.

The budget-based approach discussed above assumes 100% of budgeted appropriations will be expended and only 95% of budgeted revenues will be received. Collier County has a history of conservative budget management practices and, as a result, actual expenditures incurred are typically less than the amount budgeted. Similarly, actual revenue received can trend above 95% of the budgeted amount. The budget is routinely managed during the course of any fiscal year to ensure that sufficient beginning actual cash is available and sized around policy objectives.

There are two summary documents for this section. The first summary provides an overview of the changes in fund balance, including beginning fund balance, estimated revenues and other financing sources, expenditures and other financing sources/uses and then budgeted (recommended) ending fund balances for all fund types. The ending fund balances are presented by undesignated reserves, designated reserves, and cash flow reserves. Undesignated reserves are the County's reserve for contingencies. Designated reserves are made up of reserves for debt service, capital, and actuarial insurance reserves. The cash flow reserve is established to fund beginning of the year operations, as a large part of County revenues are received over the course of a multiple months after the start of each fiscal year.

(1) General Fund Grouping includes the County-wide General Fund, Constitutional Officers General Funds, Affordable Housing Deferrals, Emergency Relief and Economic Development Funds.

(2) Other Non-Major Governmental Funds includes the Pine Ridge & Naples Park Agency Fund.

(3) Designated reserves include a budgeted negative reserve for payroll attrition savings. In the County-wide General Fund, the attrition reserve is the only designated reserve other than cash flow which is identified separately.

**Collier County Government**  
**Fiscal Year 2022 Adopted Budget**

The second summary document provides an overview of all County Funds by type with an analysis of the change in fund balance. As discussed above, the County practices conservative budget management and, in order to present a reasonable analysis, the prior and current year planned fund balances are compared.

The following chart shows the budgeted change in Fund Balance from FY 2021 to FY 2022 along with a discussion of the significant changes.

| <b>SUMMARY OF CHANGES IN BUDGETED ENDING FUND BALANCES</b> |                              |                      |                     |                                 |                                     |                                     |                          |                        |

| Dollar change in fund balance                              | 8,323                        | (1,069)              | (2,451)             | 62,099                          | 80,161                              | 147,063                             | (2,440)                  | 144,623                |
| % change in fund balance                                   | 14%                          | -97%                 | -96%                | 41%                             | 41%                                 | 36%                                 | -2%                      | 25%                    |

**Major Governmental Funds:** Fund balance increased by \$66.8 million or 31% and include the General Fund Grouping, Immokalee Community Redevelopment Area (CRA), Bayshore CRA and Infrastructure Sales Tax.

- **General Fund Grouping:** Fund balance increased by \$8.3 million or 14% and is attributable to an increase in the reserve for cash flow which preserves the beginning cash balance needed at the start of the fiscal year.
- **Immokalee CRA:** Fund balance decrease of \$1.1 million or 97% is attributable to decreasing the reserve for capital.
- **Bayshore CRA:** Fund balance decrease of \$2.5 million or 96% is attributable to decreasing the reserve for capital.
- **Infrastructure Sales Tax:** Fund balance increased \$62.1 million or 41% and is attributable to increasing the capital reserve. As projects are approved by the committee and contracts are awarded for the projects, the reserve will be decreased and the funds will move into the appropriate project.

**Non-Major Aggregate Governmental Funds:** Fund balance increase of \$80.2 million or 41% and this aggregate grouping includes Special Revenue, Debt Service and Capital Improvement Funds and Permanent Funds.

- **Capital Projects Funds:** Fund balance increased by \$69.1 million or 129%.
  - The reserve for capital outlay increased in Park CIP Bond Fund (308) by \$10.2 and Stormwater CIP Bond Fund (327) by \$53.2 million as bond proceeds were received in October 2020. After contracts are awarded for projects, the reserves will be decreased and funds will move into the appropriate project.
  - Pelican Bay Commercial Paper Capital Fund (323) capital outlay reserves increased \$10.0 million as a draw is budgeted in FY22. As contracts are awarded, the funds will move from reserves into a project.
- **Debt Service Funds:** Fund balance decreased by \$1.5 million or 24%. Forest Lakes General Obligation Bond Fund (259) utilized reserves to prepay the remaining balance on the bond and any remaining balance was returned to the Forest Lakes Operating Fund (159). In addition, the debt service reserve decreased in several funds.
- **Special Revenue Funds:** Fund balance increased by \$12.6 million or 10%.
  - Planning Services Fund (131) reserve for prepaid services and reserve for future improvements increased \$1.5 million and \$3.0 million respectively.
  - Conservation Collier Maintenance Fund (174) reserves increased \$9.2 million. Reserves are accumulated and set aside as dictated by Conservation Collier Ordinance for the preservation, enhancement, restoration, conservation, and maintenance of environmentally sensitive lands.

**Collier County Government**  
**Fiscal Year 2022 Adopted Budget**

- **Permanent Funds:** Fund balance decreased by \$0.04 million or less than 1%.

**All Other Proprietary Funds:** Fund balance decreased \$2.4 million or 2% and include an aggregate of the following with changes of note:

- **Enterprise Funds:** Fund balance increased by \$2.0 million or 2%.
  - Water/Sewer reserves decreased \$5.5 million primarily due to a decrease of 12.5 million in reserve for capital and \$1.8 million in reserve for contingencies, which was partially offset by an increase of \$8.5 million in debt service reserves.
  - Airport reserves for contingencies and capital decreased \$2.7 in order to fund capital and operating priorities.
  - EMS fund balance increased by \$3.7 million primarily due an increase in capital outlay reserves.
  - The Solid Waste Fund Series increased \$6.6 million primarily due to increases in the reserve for disaster relief (\$4.0 million) and the reserve for cash flow (\$1.6 million).
  - Mass Transit reserves remained relatively stable.
- **Internal Service Funds:** Fund balance decreased by \$4.4 million or 8%.
  - Property & Casualty, Group Health & Life, and Workers Comp Insurance funds decreased by \$4.4 million primarily due to a decrease in the reserve for health claims.

## Major Areas of Spending

The following table and graph depict the major functional areas of spending within the Collier County budget:

| <b>Functional Area</b>                | <b>FY 2022<br/>Adopted Budget</b> | <b>Percent of Total<br/>Adopted Budget</b> |
|---------------------------------------|-----------------------------------|--------------------------------------------|
| General Government Services           | \$ 133,339,400                    | 7.6%                                       |
| Public Safety                         | 310,555,200                       | 17.7%                                      |
| Physical Environment                  | 291,220,200                       | 16.6%                                      |
| Transportation                        | 135,000,400                       | 7.7%                                       |
| Economic Environment & Human Services | 21,113,800                        | 1.2%                                       |
| Culture & Recreation                  | 79,568,500                        | 4.5%                                       |
| Debt Service                          | 70,836,700                        | 4.0%                                       |
| Reserves                              | 712,616,300                       | 40.7%                                      |
| <b>Total Net Budget</b>               | <b>\$ 1,754,250,500</b>           | <b>100.0%</b>                              |

## **General Government**

The Legislative, Executive, Financial, Administrative, Judicial and Planning branches of Collier County provide services in this functional area for the benefit of the public and the governmental body as a whole. The major areas are the Board of County Commissioners, Tax Collector, Property Appraiser, Clerk of Courts, Supervisor of Elections, County Manager, County Attorney, Judicial Branch, County Administrative Services Department, and Comprehensive Planning. General Government decreased in total appropriations primarily due to decreases in Capital funding requests by the Tax Collector for the new Heritage Bay building (most of the funding for this project was budgeted in FY 2021) and the Planning Department's building related capital projects was also lower in FY 2022. General Government represents approximately 8% of the entire County net budget.

## **Public Safety**

Collier County provides services in this functional area for the health, safety and welfare of citizens and property. The major areas included are the Sheriff's Office, the 800MHz Radio System Operations, Medical Examiner, Emergency Medical Services (EMS), Building Review/Permitting and Code Enforcement. The Public Safety budget increased 8.9% or approximately \$25.5 million. The increase is primarily due to 10 additional positions in Law Enforcement which are related to the school safety mandates, replacement of an aging helicopter, and replacement of J1-J2-J3 roofs (Sheriff's). In addition, EMS personal services increased due to amended collective bargaining agreement which is competitive with other pay plans throughout south Florida. Public Safety amounts to approximately \$311 million, consuming 18% of the FY 2022 County net budget, as this sector of spending remains a priority for Collier County.

## **Physical Environment**

Services in this functional area provide for safe, healthy and aesthetically clean living conditions through management of various elements of the environment. The Water & Wastewater Divisions, Solid Waste Division, Pollution Control Division, Stormwater Management Division, Conservation Collier, and Beach Renourishment/Pass Maintenance activities provide most of these services. The Physical Environment budget increased 5.0% or approximately \$13.8 million dollars. The increase relates primarily to the voter approved reestablishment of a not to exceed .25 mill ad valorem levy to fund Conservation Collier's acquisition and management of environmentally sensitive lands. Physical Environment amounts to approximately \$291 million, comprising 16% of the FY 2022 County net budget.

## **Transportation**

This functional area includes maintenance, administration, planning and construction for Collier County's transportation network. Other areas included are airports, MSTU improvement districts, and operating the public transit system. Transportation increased 12.1% or approximately \$14.6 million dollars over last year. Increased funding for impact fee/growth related Vanderbilt Beach Road Extension project contributed to the increase over last year. Transportation amounts to \$135 million which is 8% of the County net budget.

## **Economic Environment and Human Services**

Services that develop, diversify, expand and improve the economic condition of the county and its citizenry through job and associated revenue creation are classified as Economic Environment. These services are provided by the County Manager's Agency in conjunction with the Collier Economic Development Office (Collier EDO); also included in this grouping are the Immokalee and Bayshore/Gateway Triangle Community Redevelopment Agencies (CRA's), Ave Maria Innovation Zone and the Veterans Services Department. /

Human Services include health and welfare services provided primarily by the Collier County Public Health Division, Domestic Animal Services, and the Community and Human Services Division.

These sectors combined decreased 1.2% or approximately \$0.3 million dollars over last year. Economic Environment and Human Services are approximately 1% of the total County net budget.

## **Culture & Recreation**

This functional area includes the provision and maintenance of cultural and recreational facilities and activities for the citizens and visitors of Collier County. Included are the Parks and Recreation Division, the Public Library system, Collier County Museums, and the Tourist Development Division. An increase in funding over the prior year of \$4.9 million brought the total budget to \$79.6 million for this functional area. The increase is attributed to artificial turf replacement at the regional parks and increased TDC marketing/promotional expenditures. Culture & Recreation functions represent 4% of the total County net budget.

## **Debt Service**

Debt Service is the payment of principal and interest on long term debt instruments. Debt service budgets in FY 2022 total \$70.8 million or 4% of the total County net budget. This area increased \$7.3 million due to an increase in FY 2022 debt service payments for the County Water & Sewer District Revenue Bond, Series, 2021. This bond will finance the Golden Gate potable water transmission mains expansion and the utility infrastructure expansion in the northeast service area.

## **Reserves**

The levels of reserves budgeted are set by Board policy, state law, and bond or debt covenants. Current Board policy dictates that a minimum reserve for contingency within the General Fund and MSTD General Fund be set at 2.5% of operations. In all other funds, the Reserve for contingencies by State statute cannot exceed 10%. Similarly, the Cashflow reserves should not exceed 20%.

Budgeted reserves of \$713 million account for 41% of the total FY 2022 County net budget. Appropriations in this area increased by \$144.6 million. The capital outlay reserve of \$213.4 million in the Infrastructure Sales Tax Capital Fund increased \$62.1 million. However, as projects are approved by the committee and contracts are awarded for the projects, the reserve for capital outlay will be decreased and the funds will be moved into appropriate capital project. The reserve for capital outlay also increased by \$10.2 million in Park Capital Improvement (CIP) Bond Fund (308) and \$53.2 million in Stormwater (CIP) Bond Fund (327) as bond proceeds were received in October 2020 which is reflected in the FY 2021 Amended Budget. In addition, Pelican Bay Commercial Paper Capital Fund (323) reserves increased by \$10.0 million as a draw is budgeted in FY22. The reserves of the Bond Funds and Commercial Paper Capital Funds will also decrease as contracts are awarded and funds are moved into capital projects.

## **Highlighted Summary Changes Between FY22 Tentative (July) Budget and FY22 Adopted Budget**

The FY 2022 Adopted Budget is \$41.7 million higher than the Tentative July Budget.

Road Impact Fee Revenues exceeded initial forecasted amounts by \$6.8 million and reserves or capital projects were increased by a like amount.

A transfer of \$8.0 million from Solid Waste Landfill Closure & Debris Mission Fund (471) to Solid Waste Capital Fund (474) was established to set up a mechanism to transfer cash to Fund 474 in the event a storm makes landfall in Collier County.

After the development of the FY2021 (July) Tentative budget the Tax Collector submitted their budget of \$26.2 million on August 1st per state statute.

## Revenues

The information contained on the following pages is included in this document to provide the reader with an overview and multi-year perspective of the major revenue sources used to support the Collier County budget. The following graph illustrates the major revenue sources and their relationship to the Collier County net budget exclusive of carryforward and the statutory required revenue reserve.

| <u>Description</u>                                          | <u>Budgeted Amount</u>       |
|-------------------------------------------------------------|------------------------------|
| <b><u>Current Revenues</u></b>                              |                              |
| Ad Valorem                                                  | \$ 465,187,000               |
| Gas / Sales Tax                                             | 151,038,400                  |
| Permits / Assessments / Fines                               | 70,291,200                   |
| Intergovernmental Revenues                                  | 17,200,900                   |
| Service Charges                                             | 293,139,300                  |
| Impact Fees                                                 | 49,363,000                   |
| Bond Proceeds / Interest / Misc Revenue                     | 23,056,700                   |
| Revenue Reserve Required by Law                             | (52,247,700)                 |
| Sub-total Current Revenues                                  | <u>\$ 1,017,028,800</u>      |
| Carry forward                                               | 737,221,700                  |
| <b>Net Total County Revenue Budget</b>                      | <b>\$ 1,754,250,500</b>      |
| Transfers – Constitutional Officers and Board               | \$ 245,311,400               |
| Transfers from General Fund (001)                           | 124,606,100                  |
| Transfers from County Water / Sewer (408)                   | 66,021,400                   |
| Transfers from Other Funds                                  | 148,408,300                  |
| Health / Dental / Life / Disability / WC Insurance Billings | 46,001,200                   |
| Property and Casualty Billings                              | 9,773,400                    |
| Fleet and Fuel Billings                                     | 19,374,400                   |
| Other Internal Billings                                     | 34,049,800                   |
| <b>Sub – total Internal Money Shifts</b>                    | <u><b>\$ 693,546,000</b></u> |
| <b>Gross Total County Revenue Budget</b>                    | <b>\$ 2,447,796,500</b>      |

Because the budget must adhere to Federal, State, and local statutes as well as generally accepted accounting principles that apply to fund accounting, the gross county budget includes double counts or internal money shifts. These double counts or internal money shifts occur wherever an amount of money is received into one fund and then expended to another fund where the final expense is recorded. The net budget eliminates these double counts or internal money shifts.

## **Property Taxes**

The County's largest source of operating revenue is the property or "ad valorem" tax. This tax is based on the value of all land and buildings (real property) as well as business equipment and machinery (tangible personal property) within the County as determined by the Property Appraiser. By state law, the appraised value must equal the full market value of the property. Property taxes are based on the taxable value (assessed value minus any applicable exemptions). The most common exemption is the "Homestead Exemption" which entitles permanent Florida residents owning the property in which they reside an exemption of up to \$50,000 on the assessed value of their property (residents only receive a \$25,000 exemption applied to Public School Board taxes). There are a number of other limited special exemptions based upon certain qualifying events. The most notable class of tax exemption are those applying to senior citizens age 65 and older.

The County levies property tax on a countywide basis to support general government services in the General Fund (001), pollution control programs in the County Pollution Control Fund (114) and land preservation in the Conservation Collier Fund (172). On November 3, 2020, the Collier County electors approved a referendum to reestablish a not to exceed .25 mil ad valorem levy for ten (10) years to fund Conservation Collier's acquisition and management of environmentally sensitive lands.

The County also levies property taxes in special taxing districts known as MSTU's (Municipal Services Taxing Units), which are created to provide municipal type services to areas not within a city. The Unincorporated Area General Fund is the County's largest MSTU. It covers all unincorporated areas of the County and provides such services as planning and zoning, code enforcement, parks and recreation, road maintenance, landscaping operations and natural resources programs. Smaller district specific MSTU's provide such services as street lighting, drainage improvements, median beautification, and community centers. Other taxes levied through the County's principal taxing authority include dependent fire district taxes. The MSTU's provide "tailor-made" government services, whereby only those directly benefiting pay for extraordinary service levels.

The general indicator of total property tax burden levied by Collier County and all special and dependent districts is the aggregate millage. The aggregate millage is the total of all non-voted ad valorem taxes to be levied by the principal taxing authority (the County) and all special and dependent districts (exclusive of debt service levies) divided by the countywide Gross Taxable Value for Operating Purposes. This millage equivalent combines the various millage rates for the numerous special and dependent districts into a County millage figure.

Section 200.065 (1) Florida Statutes (adopted in 1980) dictates to local governments the calendar and process for adopting millage rates. This section is commonly referred to as "Truth in Millage" or "TRIM," and establishes the statutory requirements that all taxing authorities levying a millage must follow, including all notices and budget hearing requirements. This law is designed to inform taxpayers which governmental entity is responsible for the taxes levied and the amount of tax liability owed to each taxing authority through the issuance of the Notice of Proposed Taxes ("TRIM notice"). The TRIM notice enables the taxpayer to compare the prior assessed value and taxes with the current year assessed value and proposed taxes. It also lets the taxpayer compare the amount of taxes if there is no budget change for the upcoming year. The notice also lists the date, time, and location of all budget hearings at which the taxing authorities will hear from the public. At these hearings, the taxing authorities establish the millage to be levied against the parcel of land shown on the TRIM notice. The notice also shows the deadline for filing a petition to protest the assessment and any denial of exemptions.

The law further requires local governments to compare proposed millage rates with "rolled back rates," rates that would generate the same tax revenue as the prior year, exclusive of new construction. The Florida Department of Revenue monitors compliance with the TRIM law.

**Collier County Government**  
**Fiscal Year 2022 Adopted Budget**

### Millage History

The schedule and graph below show the percentage increases above or below the rolled back millage rates for both countywide and aggregate taxes from FY 12 through FY 22. (Note: A “mill” is equivalent to one dollar per thousand dollars of taxable property value). In FY22, a voter approved tax of .2500 mills for the reinstated Conservation Collier Program drives the aggregate increase.

**Millage Percent Above / (Below) Rolled Back Rate**

| <b>Fiscal Year</b> | <b>General Fund</b> | <b>Aggregate</b> |
|--------------------|---------------------|------------------|
| <b>FY 12</b>       | (5.59%)             | (4.10%)          |
| <b>FY 13</b>       | (0.25%)             | (0.56%)          |
| <b>FY 14</b>       | 2.47%               | (1.67%)          |
| <b>FY 15</b>       | 4.74%               | 4.63%            |
| <b>FY 16</b>       | 6.31%               | 6.21%            |
| <b>FY 17</b>       | 6.82%               | 7.93%            |
| <b>FY 18</b>       | 4.99%               | 4.43%            |
| <b>FY 19</b>       | 2.95%               | 2.78%            |
| <b>FY 20</b>       | 2.72%               | 2.73%            |
| <b>FY 21</b>       | 3.06%               | 3.04%            |
| <b>FY 22</b>       | 3.09%               | 9.23%            |

Florida law prohibits millage rates for county services from exceeding 10 mills. Municipal services provided through MSTU have a similar 10-mill limit. Voter approved millage rates specifically for debt service are excluded from these limits. As the tables on the following pages show, the County has kept the General Fund millage rate well below the 10 mill cap.

The County has historically collected over 96% of ad valorem taxes levied. For FY 2022, taxes become due and payable in November 2021 with the tax considered delinquent if not paid by April 1, 2022. State law allows for a discount of up to 4% for early payment of taxes (November 4%, December 3%, etc.), thus, this collection rate indicates an excellent record.

**Collier County Government**  
**Fiscal Year 2022 Adopted Budget**

The enactment of Constitutional Amendment #10, Article VII, Section 4, was designed to protect homeowners from being taxed out of their homes due to rising property values. It limits increases in homestead property valuations for ad valorem tax purposes to a maximum of 3% annually. The constitutional amendment resulted in a dramatic shift in property tax burden from residential homestead property to non-homestead properties such as businesses, vacant lots, vacation homes, and rental properties. Property is reassessed at current market value upon change of ownership and may result in a major increase in the tax bill. Portability, which went into effect for 2008, allows homestead property owners to apply for a transfer up to \$500,000 of "Save Our Homes" exempt value to their next homestead property.

**Final Taxable Property Values (000's Omitted)**

| <b>Millage Area</b>   | <b>FY 15</b> | <b>FY 16</b> | <b>FY 17</b> | <b>FY 18</b> | <b>FY 19</b> | <b>FY 20</b> | <b>FY 21</b> | <b>FY 22</b> |
|-----------------------|--------------|--------------|--------------|--------------|--------------|--------------|--------------|--------------|
| <b>General Fund</b>   | 64,595,297   | 70,086,389   | 77,115,164   | 83,597,616   | 88,274,604   | 93,175,404   | 99,159,595   | 104,755,223  |
| <b>Unincorp. Area</b> | 39,634,174   | 43,075,586   | 47,455,161   | 51,754,136   | 54,773,401   | 58,037,804   | 62,320,804   | 65,904,756   |

*Note: FY 22 values are from the October 2021 DR422 Property Appraiser certification and do not reflect Final Value Adjustment Board results.*

### Other Major Funding Sources

Major funding sources other than property taxes include carry forward, internal services/transfers, bond/loan proceeds, sales tax, state revenue sharing, gas taxes, local option infrastructure sales tax, impact fees, tourist development tax and service charge/enterprise revenues.

Projections of FY 2022 intergovernmental revenues (primarily gas and sales taxes) were based on an analysis of historical monthly receipts of these revenue sources and were compared to forecasts provided by the Florida Department of Revenue. In addition, the forecast was analyzed in the context of current economic trends. OMB staff monitors revenues (major intergovernmental revenues, enterprise fund revenues, and impact fees) on a monthly basis to identify both current revenue conditions and the potential need for budgetary adjustments.

### Carry Forward

Carry Forward (Fund Balance) is an estimate of the excess of revenue above expenses from the previous fiscal year and available for use as a funding source in the succeeding fiscal year. Carry forward is a significant source of funds in the County budget, amounting to 30.12% of total gross revenues.

Carry Forward revenue represents not only operating funds but also previously budgeted operating, debt service, and capital reserves that are "carried forward" to fund these same reserves in the new year or to fund capital projects in the current or future years. The largest sources of carry forward are the capital, debt service, and enterprise funds. In the General and MSTD General Funds, adequate carry forward/fund balance is maintained to provide cash flow for operations prior to the receipt of ad valorem taxes and other general revenue sources.

### Bond/Loan Proceeds, Interest and Miscellaneous Revenue

Bond/Loan proceeds, interest and miscellaneous revenues amount to .94% of gross county revenues or \$23,056,700. In FY 2021, \$6,397,900 was budgeted for the Bayshore/Gateway Triangle land sale and the remaining balance of \$26,182,700 in interest and miscellaneous revenue, such as leases, insurance company refunds and late fees.

**State Shared Revenues**

State shared revenues are comprised of the Local Half-Cent Sales Tax and State Revenue Sharing. OMB staff maintains a database of monthly receipts from these two sources and applies trend analysis in making revenue forecasts. The Florida Department of Revenue projections are also considered in the budget projections proposed by OMB.

The Local Half-Cent Sales Tax is collected and distributed by the Florida Department of Revenue to counties and municipalities. All city and county governments share the proceeds based on a specific redistribution formula. Local regular half cent sales tax revenue is the largest non-property tax general governmental revenue source in the General Fund and may be used for any lawful purpose. Collier County deposits the proceeds of this tax into the General Fund to fund general government operations.

The State Revenue Sharing Act of 1972 established trust funds for certain State levied tax monies to be shared with counties and municipalities. The sources of these funds are cigarette taxes and state sales and use tax collection. An allocation formula distributes these revenues to each county that meets strict eligibility requirements. Funds are distributed among counties based on a weighted average of proportionate county populations, unincorporated area populations, and sales tax collections. The State Revenue Sharing money has no use restrictions other than some statutory limitations regarding funds that can be used as a pledge for indebtedness. Collier County uses these funds for general government functions in the General Fund. For FY22, the County is expected to receive a total of \$11,000,000 in State Revenue Sharing proceeds.

**Collier County Local Option Infrastructure Sales Tax:**

The Infrastructure one-cent sales surtax was passed by voters in to enhance safety, mobility, and hurricane preparedness in Collier County and its cities by constructing, repairing, and maintaining roads, bridges, signals, sidewalks, parks, evacuation shelters, governmental and emergency services facilities; acquire land and support construction for workforce housing and career and technical training, veteran's nursing home and expand mental health facilities. The collection of the one-cent sales surtax started on January 1, 2019 and will sunset on December 31st of any year in the event that the total aggregate (includes cities) distributions of the surtax proceeds equal or exceed \$490 million or on December 31, 2025. Ordinance 2018-21, Exhibit A (approved by the BCC on April 24, 2018) is a list of eligible projects.

**Collier County Gas Tax Revenue**

Gas taxes are a major source of revenue funding the County's road construction program and for the payment of debt. The County is using the proceeds of the Local Option Gas Tax (five cents per gallon), the Constitutional Gas Tax (20% and 80% portions), Old Local Option Gas Tax (six cents per gallon), the County 7<sup>th</sup> Cent Gas Tax, and the balance of the County 9<sup>th</sup> Cent Voted Gas Tax to fund road capital improvements and debt service payments. OMB staff maintains a database of monthly receipts from each individual gas tax and applies trend analysis in making revenue forecasts. The County budgeted FY 22 gas tax at \$22,500,000. The State of Florida's Department of Revenue's Office of Tax Research provides FY 21 gas tax estimates and these estimates are considered as budget projection proposed by OMB.

\*FY 19 actuals include 13 months of revenue.

**Local Option 6 Cents Gas Tax**

The 6 Cent Local Option Gas Tax is collected by the State on behalf of Collier County, the City of Naples, the City of Marco Island, and Everglades City on each gallon of motor fuel and special fuel sold in the County, with municipal shares based on their transportation expenditures over a five-year period relative to such expenditures of the County. The County's share (effective January 2014) of proceeds is 85.48% based on the transportation expenses incurred during the period from FY 08 through FY 12. On June 24, 2003, the Board of County Commissioners adopted Ordinance No. 2003-35 extending the levy of an additional six-cent local option gas tax effective January 1, 2004, expiring December 31, 2025. In FY 22, the County anticipates receiving \$8,100,000 from this revenue source and will utilize the proceeds for debt service payments and other allowable transportation related expenses.

**Collier County Government  
Fiscal Year 2022 Adopted Budget**

**Constitutional Gas Tax 20% and 80%**

Revenues from the Constitutional Gas Tax are collected by the state as a two-cent tax on each gallon of motor fuel and special fuel sold, in accordance with Article XII, Section 9(c) of the Florida Constitution. The state allocates 80% of this tax to counties after first withholding amounts pledged for debt service on bonds issued pursuant to provisions of the State Constitution for road and bridge purposes. Collier County anticipates receiving \$3,600,000 from the 80% portion and \$900,000 from the 20% portion in FY 22 and will utilize the proceeds to support the road construction program.

**County 7<sup>th</sup> Cent Gas Tax**

Funds for the County Gas Tax are collected by the state as a one-cent tax on each gallon of motor fuel and special fuel sold in accordance with Section 206.60 of the Florida Statutes. Collier County anticipates receiving \$1,900,000 from this revenue source in FY 22 and will utilize the proceeds for debt service payments, depositing the money directly into the debt service fund.

**Collier County Government**  
**Fiscal Year 2022 Adopted Budget**

**County 9<sup>th</sup> Cent Gas Tax**

The County 9th Cent Gas Tax is collected by the State on behalf of Collier County as a one-cent tax on each gallon of motor fuel and special fuel sold in the County and taxed under the provisions of Section 336.02, Florida Statutes. The electorate of Collier County voted at a referendum held on March 11, 1980 to impose this additional fuel tax for the purpose of paying the cost of acquisition, construction and maintenance of roads and streets. On June 24, 2003 the Board of County Commissioners adopted Ordinance No. 2003-34 extending the levy of an additional ninth-cent local option gas tax effective January 1, 2004, expiring December 31, 2025. In FY 22, there is \$1,800,000 budgeted from this revenue source and will utilize the proceeds for debt service payments and other allowable transportation related expenses.

**Local Option 5 Cents Gas Tax**

The Florida Legislature, in special session in 1993 amended section 336.025, Florida Statutes to provide for the levy of an additional local option gas tax on motor fuel. On June 24, 2003 the Board of County Commissioners adopted Ordinance No. 2003-36 that set forth the levy of an additional five-cent local option gas tax effective January 1, 2004, expiring December 31, 2025. This tax is expected to generate \$6,200,000 in FY 22 and will be used for debt service payments and other allowable transportation related expenses. The County's share (effective January 2014) of proceeds is 85.48% based on the transportation expenses incurred during the period from FY 08 through FY 12 relative to those incurred by the three municipalities in Collier County during the same period.

**Collier County Government**  
**Fiscal Year 2022 Adopted Budget**

**Collier County Impact Fees**

Collier County has adopted the use of impact fees as the funding source for capital improvements associated with new development. Impact fees are currently collected for road improvements, parks, libraries, emergency medical services, water and sewer services, correctional facilities, law enforcement facilities, fire, and government facilities. Each impact fee is set by ordinance after a thorough rate study. Revenue estimates for each impact fee are based on analyses of historical trends and overall economic conditions. In general, impact fee collections show a history of significant fluctuations corresponding to building industry trends, general economic conditions and the type of permit issued (i.e. residential, commercial, industrial).

Impact fee revenues decreased slightly in FY 14 and increased in FY 15 reflecting a change in when impact fees are due. On February 11, 2014, the Board approved Ordinance 2014-04 which changed the timing of the impact fee due upon the issuance of a building permit until the time a certificate of occupancy is issued.

Total impact fee collections (all sources) are estimated to be \$49,363.0 in FY 22.

**Collier County Government  
Fiscal Year 2022 Adopted Budget**

**Road Impact Fees**

Road Impact Fees are collected from six separate road-planning districts within the County. The funds are used on road projects that benefit the individual districts or provide overall transportation network improvements that benefit the districts. Annual collections of this revenue source have in the past shown large fluctuations due to year-to-year variations in construction activity, thus, they are difficult to project with a great deal of certainty. In addition, (starting in FY 03) upon approval of a site development plan, developers of Planned Unit Developments (PUD's) were required to pay 50% of the total estimated road impact fees up front (COA-Certificate of Adequacy Public Facilities). In FY 09, 50% upfront money (COA) was reduced to 20% per year for 5 years. In FY 22, road impact fee revenue is budgeted at a total of \$16,000,000.

**Park Impact Fees**

Parks capital improvements were likewise categorized into regional and community park projects. Beginning in the third fiscal quarter of FY 99, impact fees were categorized as Regional Parks—Incorporated Areas and Community and Regional Parks - Unincorporated Area. Parks impact fees are assessed only on residential construction. For FY 22, Regional Parks - Incorporated Areas impact fee revenue is estimated to be \$275,000, while Community and Regional Parks - Unincorporated Area impact fee revenue is budgeted at \$9,800,000.

### EMS Impact Fees

Emergency Medical Services (EMS) Impact Fees were originally implemented in FY 92 and are used to fund growth driven EMS facility and equipment needs. For FY 22, EMS impact fee revenue is budgeted at a total of \$450,000. EMS impact fee revenue is particularly sensitive to the types of permits issued.

### Library Impact Fees

Library Impact Fees are used to fund growth related facility additions and expansions, as well as the acquisition of library materials necessary to maintain a 1.87 books per capita ratio. Library Impact fee is assessed only on residential construction. For FY 22, there is \$960,000 budgeted for library impact fee revenue.

Collier County Government  
Fiscal Year 2022 Adopted Budget

**Correctional Facilities Impact Fee**

The Correctional Facilities Impact Fee was implemented in FY 99 and is used to fund growth driven jail facility expansions/additions. For FY 22, there is \$1,600,000 in budgeted Correctional Facilities impact fee revenue. Actual revenues received are highly variable based on the types of commercial buildings permitted in a given year.

**Law Enforcement Impact Fee**

The Law Enforcement Impact Fee was implemented in FY 05 and is used to fund growth driven law enforcement equipment and facility additions. For FY 22, Law Enforcement impact fee is revenue estimated at \$1,820,000.

**Collier County Government  
Fiscal Year 2022 Adopted Budget**

**General Governmental Facilities Impact Fee**

This was implemented in FY 04 and is used to fund growth driven facility expansions and additions. For FY 22, General Governmental Facilities impact fee revenue is estimated at \$2,800,000. It must be noted that actual revenues received are highly variable based on the types of commercial buildings permitted in a given year.

**Water & Sewer Utility Impact Fees**

Water & Sewer Utility Impact Fees are used to fund growth driven water and sewer facility expansions and additions. For FY 22, water impact fees are estimated at \$7,750,000 and sewer impact fees are estimated at \$7,900,000.

**Collier County Government**  
**Fiscal Year 2022 Adopted Budget**

**Ochopee/Isles of Capri Fire Impact Fees**

These fees were implemented in FY 98 and are used to fund growth driven fire facility and equipment needs. For FY 22, there is \$8,000 budgeted in Ochopee Fire impact fee revenue; there is \$0 budgeted in the Isles of Capri impact fee district.

**Tourist Development Tax Revenue**

Collier County levies a five (5) percent tax on short-term lodging rentals pursuant to State Statute. The following provides a history of the Tourist Development Tax (TDT). In November 1990, Collier County voters approved the implementation of a 3% tourist tax; 2% was allocated for beach renourishment and tourism promotion and 1% was allocated for debt service on a baseball stadium. This tax was challenged in the courts, and the County ceased collecting the 3% tourist tax. In November 1992, voters approved a new tourist tax plan of 2%. This 2% tax was implemented in January 1993. In January 1996, this tax was increased by 1% for the county beach renourishment program. In August 2005, this tax was increased by 1% for additional tourism promotion. Effective September 2017, the tax was increased by 1% pursuant to an overall Tourist Development Plan setting forth authorized uses of the TDT including but not limited to the promotion of tourism, financing beach improvements and facilities, the providing of museums and amateur sports complex.

Revenue is budgeted conservatively as it is recognized that state and national economic trends, stock market fluctuations, and hurricane activity can all negatively impact tourism in South Florida. FY 22 budgeted revenue is \$29,849,900 and it is anticipated that any decrease in tourism dollars due to economic conditions will fall within the 5% revenue reserve.

**Service Charges/Enterprise Fund Revenues**

Where appropriate, Collier County charges fees for services provided. The Parks and Recreation Department and the Community Development Division are the two areas where charges for services are most prevalent. The Parks & Recreation Division charges for admission to the Sun-N-Fun water park, the Golden Gate Aquatic Facility, and the numerous athletic and recreational programs it conducts. The Community Development Division charges fees for building and related permits.

Enterprise funds are set up to account for activities that are operated similarly to private enterprises, such as the County Water-Sewer District, Solid Waste Disposal, Emergency Medical Services, and the Collier County Airport Authority.

*Note: FY 14 to FY 21 amounts are actual collections--FY 22 is budget amount.*

**Building Permit Fees**

The Community Development Division charges for building and various other permits required of the construction and development industry. Permitting activities have begun to level-off when looking at a year over year comparison, with the exception of a spike during FY 18 due to Hurricane Irma repairs. Based on typical permitting trends, FY22 building permit revenue was conservatively budgeted at \$16,000,000.

**Collier County Government  
Fiscal Year 2022 Adopted Budget**

**Water-Sewer District Revenue**

The Water-Sewer District rates are set by ordinance. Water rates include a base rate plus a volume usage charge that is designed to encourage water conservation. The sewer rates also include a base charge and a volume charge based on water usage, however for residential customers, there is a cap on the volume charge to take into account that not all water used is returned via the sewer system (e.g. swimming pools, lawn watering).

Projected FY 22 water and wastewater revenues are \$76,400,000 and \$88,000,000 respectively. These revenues continue to reflect the revised rate structure. Recent rate changes included an inverted rate schedule (the more a customer uses, the more the customer pays) designed to promote water conservation.

**Landfill/Mandatory Collection Fees**

Landfill tipping fees are the primary source of revenue for the Solid Waste Disposal Department, estimated at \$16,698,200 in FY 22. The budget is based on a Landfill tipping fee increase of 3.25%.

Mandatory Collection fees: Single family residences have been required to have garbage disposed of through the County's contractor since January 1991. Residents are billed for the cost of this collection and disposal service that is estimated to be approximately \$29,894,400 in FY 22. To keep pace with contractual CPI increases to collection franchise contracts, landfill tipping fee increases, and general operational cost increases, the mandatory collection fee rates increased by \$4.44 to \$226.29 in Collier County (District 1) and \$6.90 to \$220.97 in Immokalee (District 2). Additionally, 2,700 new customer accounts are budgeted in FY 22.

### Ambulance (EMS) Fees

The Emergency Medical Services Division (EMS) is funded through a mix of General Fund support and ambulance user fees. The user fees are evaluated annually to maximize revenue and thereby reduce the subsidy from the General Fund. During the course of FY 07, Collier County transitioned to a contracted ambulance billing service. Actual ambulance fee revenue collected is a function of economic conditions, insurance carriers paying less than full billings (short pay) as well as a shift from commercial payments to private (uninsured/underinsured) payers. Ambulance fees are budgeted at \$12,363,300 in FY 22 based estimated collections projected by the billing service provider.

### Airport Authority Revenue

Airport Authority operations primary sources of revenues are from fuel sales, T-hangar leases, aircraft tie-downs, and other facility leases. Revenue generated at the Marco Island Executive Airport is estimated to be \$4,874,700 in FY 22. Revenues at the Immokalee Regional Airport are planned to be \$1,124,600 while revenue generated at Everglades Airpark is expected to be \$142,300. In FY 14, both the Marco and Immokalee runways were closed for a few months in the peak season due to construction activities. During this time, no aviation fuel was sold, which generally comprises over 75% of all Airport Authority revenue.

**Changes to Authorized Full Time Equivalent (FTE's) Positions**

**Board of County Commissioners (BCC) and County Attorney** – no changes from prior year.

**Management Offices** – had a net increase of two (+2.0) FTE's:

- Increased two (+2) positions in Corporate Business Operations Fund (001) which were transferred from the Administration Services Department's (-1) Community & Customer Relations Fund (111) and (-1) Administration Services Admin. Fund (001).
- Increased one (+1) position in County Manager Fund (001) from (-1) Impact Fee Administration Fund (107).
- Decreased one (-1) position in Tourist Development Council (TDC) Fund (194) which was transferred to the Administrative Services Department's Community & Customer Relations Fund (111).

**Courts & Related Agencies** – no changes in FTE's from FY21 to FY22.

**Administrative Services Department** – had a net decrease of two (-2.0) FTE's:

- Decreased three (-3) positions in Administrative Services Administration Fund (001) which were transferred to (+1) Public Utilities Department's Facilities Capital Project Management Fund (001), (+1) Office of the County Manager's Department Impact Fee Administration Fund (007), and (+1) Corporate Business Operations Fund (001).
- Increased one (+1) position in Procurement Services Fund (001) which was transferred from (-1) Public Services Department's County Park Facilities & Programs Fund (001).

**Collier County Government**  
**Fiscal Year 2022 Adopted Budget**

- Net increase of zero (0) positions in Community & Customer Relations Fund (111) where (+1) a position was transferred from County Managers Department's Tourist Development Council (TDC) Fund 194 and a position transferred to (-1) Corporate Business Operations Fund (001).
- Transferred three (-3) positions within the Administrative Services Department from Administrative Services Admin Fund (001) to (+2) Communication & Customer Relations (111) and (+1) Emergency Management Operating Fund (001).

**Public Services Department** – had a net decrease of two and one quarter (-2.25) FTE's:

- Decreased two (-2) positions in County Park Facilities & Programs Fund (111) which were transferred to the Administration Department's (+1) Purchasing Fund (001) and the Public Utilities Department's (+1) Capital Project Management Fund (001).
- Eliminated twenty-five hundredths (-.25) of a position.
- Transferred thirteen (+13) positions within the Public Services department into (+13) Public Services Operations Fund (001) from (-2) Library Fund (001), (-2) County Park Facilities & Programs Fund (001), (-7) County Parks & Recreation Fund (111), (-1) Golden Gate Community Center Fund (130), and (-1) Public Transit & Neighborhood Enhancement (PTNE) Administration Fund (001).

**Public Utilities Department** – had a net increase of forty-four (+44.0) FTE's:

- Added nine (+9) positions in Facilities Capital Project Management Fund (001).
- Added thirty-four (+34) positions in (+7) Operations Support Fund (408), (+21) Water Division Fund 408, and (+6) Wastewater Division Fund (408).
- Decreased one (-1) position in Public Utilities Administration Fund (408) which was transferred to the Growth Management Department's Construction & Maintenance Admin. Fund (101).
- Increased two (+2) positions in Facilities Capital Project Management Fund (001) which were transferred from the Public Services Department (-1) County Park Facilities & Programs Fund (001) and the Administrative Department's Administrative Services Fund (001).

**Growth Management Department** – had a net increase of three (+3.0) FTE's:

- Added two (+2) positions in Marco Island Executive Airport Fund (495).
- Increased one (+1) position in Construction & Maintenance Administration Fund (101) which was transferred from (-1) Public Utilities Administration Fund (408).
- Transferred two (-2) positions within the Growth Management Department from Code Enforcement Fund (111) to (+1) Construction and Maintenance Fund (101) and (+1) Building & Permitting Fund (113).
- Transferred one (+1) position within the Growth Management Department to Stormwater Engineering & Operations Fund (103) from (-1) Landscape & MSTU Operations fund (111).
- Transferred one (+1) position within the Growth Management Department to Stormwater Maintenance Fund (103) from (-1) Transportation Maintenance Road & Bridge Fund (101).

**Constitutional Officers** – had an increase of twenty-nine and two-tenths (+29.2) FTE's:

- Budgeted FTE's remained at FY 2021 levels for the Property Appraiser Fund (060).
- The Supervisor of Elections added one (+1) new position in FY 2022.
- The Clerk of Courts (non-state funded) added twelve and two tenths (+12.2) new positions. Seven (+7) positions in Clerk to Board, one and sixty-two hundredths (+1.62) in Accounting, Recording and Satellites, fifty-eight hundredths (+.58) in Administration, and three (+3) in Management Information Systems.
- The Sheriff's Office non-grant funded operations positions in Law Enforcement Fund (040) increased by ten positions (+10).
- The Tax Collectors budgeted FTE's increased by six (+6) in FY 2022.

**Grant and State Funded positions** – had a net increase of three and three tenths (+3.3) FTE's:

- The Housing Grants Fund (705/706) added four (+4.0) new positions.
- The Sheriff's Office Grant Fund (115) positions increased by four (+4) FTEs.
- The Public Services Grant Funds (709/710) eliminated five tenths (-.5) of a position.

**Collier County Government**  
**Fiscal Year 2022 Adopted Budget**

- The Clerk (State Funded) positions decreased by four and two tenths (-4.2) positions

### Employees to Permanent Population

The ratio of employees to permanent population is a benchmark that provides a measurement of relative government size; the graph and chart below illustrate that ratio for the last eleven years.

| Fiscal Year | County Employees Funded FTE's | Permanent Population* | Employees (FTE's) Per 1,000 Population |
|-------------|-------------------------------|-----------------------|----------------------------------------|
| 2012        | 3,484                         | 331,756               | 10.50                                  |
| 2013        | 3,446                         | 335,223               | 10.28                                  |

#### Board of County Commissioners

Total Full-Time Equivalents (FTE) = 10.00

#### County Attorney

Total Full-Time Equivalents (FTE) = 18.00

#### Other General Administration

Total Full-Time Equivalents (FTE) = 0.00

## **Elected Officials-Board of Commissioners**

### **Board of County Commissioners**

The following five (5) Commissioners are elected by district and are responsible for establishing policies to protect the health, safety, welfare and quality of life for Collier County citizens.

District 1 Rick LoCastro  
District 2 Andy Solis, Esq.  
District 3 Burt L. Saunders  
District 4 Penny Taylor  
District 5 William L. McDaniel, Jr.

In addition to the elected officials, there are five (5) administrative positions in the Board Office.

The County Attorney, Jeffrey Klatzkow, and his staff provide legal services to the Board of County Commissioners and the County Manager's Agency. There are eighteen (18.0) permanent positions in the County Attorney's Office.

The primary funding source for the Board of County Commissioners and the County Attorney is General Fund revenue.

The phone numbers for these offices are:

252-8097 - Board of County Commissioners  
252-8400 - County Attorney

**Collier County Government**  
**Fiscal Year 2022 Adopted Budget**

**Elected Officials-Board of Commissioners**

**County Attorney**  
**County Attorney (001)**

**Mission Statement**

To provide quality legal services in a timely, efficient and cost effective manner to the Board of County Commissioners and the County Manager and all County divisions, departments and appointive committees under the Board of County Commissioners. Also to represent the County in litigation brought by or against the County, and to work with Constitutional Officers and Judiciary on Board-related and statutorily-required matters.

| Program Summary                                                                                                                                                                                                                                                                                  | FY 2022<br>Total FTE | FY 2022<br>Budget | FY 2022<br>Revenues | FY 2022<br>Net Cost |

**Elected Officials-Board of Commissioners**

**County Attorney  
County Attorney (001)**

Current FY 2022:

Personal Services are 87% of the County Attorney's budget and includes a provision for a general wage adjustment.

Operating expenses are lower due to savings in Information Technology allocations.

Capital expenses are needed to cover the replacement of printers, scanners and laptop computers.

Revenues:

Revenues include copies of legal documents - \$1,000 and reimbursements for legal services from Risk Management \$290,000 for a total of \$291,000.

**Elected Officials-Board of Commissioners**

**County Attorney**  
**Legal Aid Society (652)**

**Notes:**

Article V legislation provided for the imposition of \$65 in additional court costs for persons found guilty or pleading no contest to felony, misdemeanor, or criminal traffic offenses. Twenty-five percent of this fee is available to fund legal aid programs.

As a result of this legislation, the County entered into an Agreement dated December 14, 2004, with Collier County Legal Aid. This Agreement, which was extended on June 22, 2010, was entered into pursuant to Ordinance 2004-42, which Ordinance was written in response to the legislative mandate of Section 29.008, Florida Statutes, which mandate was funded pursuant to Section 939.185, Florida Statutes. The Agreement provides that the minimum funding for Collier County Legal Aid in any given fiscal year is the greater of (1) twenty-five percent of the amount actually collected to assist Collier County in providing legal aid programs required under Section 29.008(3)(a), Florida Statutes, or (2) the amount provided from filing fees and surcharges to legal aid programs from October 1, 2002, to September 30, 2003, which was \$108,309.66. Collections from the \$65 fee continue to be below the agreed upon payment and require a transfer from the General Fund to make up the shortfall.

**Current FY 2022:**

Operating Expenses includes \$108,400 and an additional \$84,600 toward operating expenses to offset increased expenses associated with domestic violence and family law caseloads.

**Revenues:**

Revenue is based on average monthly collections of \$3,333. A transfer from the General Fund is necessary to bring the Legal Aid Society up to the level that it was funded in FY 2003. The transfer will only be made in the amount that will bring it up to the \$108,400 level plus the additional \$84,600 after accounting for the fees generated.

Current FY 2022:

Budgeted remittances reflects one-half of an annual Board approved park system contribution to the City of Naples in the amount of \$500,000.

## Elected Officials-Constitutional Officer

### Elected Officials-Constitutional Officer Organizational Chart

Total Full-Time Equivalents (FTE) = 1,809.76

#### Property Appraiser

Total Full-Time Equivalents (FTE) = 64.00

#### Supervisor Of Elections

Total Full-Time Equivalents (FTE) = 24.00

#### Clerk Of Courts

Total Full-Time Equivalents (FTE) = 114.76

#### Sheriff

Total Full-Time Equivalents (FTE) = 1,440.00

#### Tax Collector

Total Full-Time Equivalents (FTE) = 167.00

## **Elected Officials-Constitutional Officer**

### **Sheriff**

Kevin Rambosk is the elected Collier County Sheriff. The Sheriff's Office protects the public health, safety, and welfare through various functions including law enforcement, special operations, criminal investigations, community services, detention and corrections, emergency 911, Judicial process, and headquarters operations. The Sheriff also administers its own support operations including data processing, finance and personal services. The Sheriff's general operating budget is funded entirely from the County's General Fund.

For more information about programs administered by the Sheriff's Office, call 252-4434.

### **Property Appraiser**

Abe Skinner is the elected Property Appraiser. He is responsible for assessing all real and personal property in Collier County and preparing the annual tax rolls. The Property Appraiser is funded by the General Fund and from independent districts.

The phone number for the Property Appraiser's Office is 252-8141.

### **Tax Collector**

Rob Stoneburner is the elected Tax Collector. He is responsible for the collection of ad valorem taxes levied by the County, the School Board, special taxing districts, and all municipalities within the County. The Tax Collector's Office also issues boat titles and registrations, hunting and fishing licenses and stamps, occupational licenses, and motor vehicle licenses and registrations. The Tax collector's agency is funded by a combination of fees for service and general revenue.

The phone numbers for the Tax Collector's Office are: 252-8172 (Taxes); 252-8177 (Motor Vehicles).

### **Supervisor of Elections**

Jennifer Edwards is the Supervisor of Elections. She is an independently elected official mandated by the Florida Constitution (Constitutional Officer) who administers the voter registration system for Collier County residents, qualifies candidates for office, monitors financial reporting requirements of candidates for office, and plans and coordinates and conducts elections within Collier County. She is responsible for implementing the National Voter Registration Act provisions as they pertain to the registration process and statistical requirements.

The Supervisor's agency is primarily funded through the General Fund.

The Elections Building is located at 3750 Enterprise Avenue. For information regarding voter registration or elections, telephone 252-8683.

### **Clerk of the Circuit Court**

Crystal Kinzel is the elected Collier County Clerk. She performs the constitutional and statutory duties of the Circuit and County Courts in maintaining custody of court records and all pleadings filed, recording of all legal instruments, and acts as ex-officio Clerk of the Board, auditor, recorder and custodian of all County funds. The Clerk's agency is funded by a combination of fees for service and General Fund revenues.

The main phone number for the Clerk of Courts is 252-2745.

**Collier County Government**  
**Fiscal Year 2022 Adopted Budget**

**Elected Officials-Constitutional Officer**

**Supervisor Of Elections**  
**Supervisor Of Elections - Admin (080)**

**Mission Statement**

**ENSURE THE INTEGRITY OF THE ELECTORAL PROCESS**

The Supervisor of Elections is responsible for administration of the single permanent registration system for Collier County residents in the most efficient and economical method possible. This includes being responsible for registering voters, maintaining voter rolls, conducting elections, reporting financial disclosure forms, reporting campaign financing and all candidate filings. In addition, current lists of registered voters, demographic statistics and voter turnout is provided to candidates in accordance with Florida Election law.

| <b>Program Summary</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                              | <b>FY 2022<br/>Total FTE</b> | <b>FY 2022<br/>Budget</b> | <b>FY 2022<br/>Revenues</b> | <b>FY 2022<br/>Net Cost</b> |

**Elected Officials-Constitutional Officer**

**Supervisor Of Elections  
Supervisor Of Elections - Admin (080)**

**Notes:**

The Supervisor of Elections Administration Department is responsible for administering elections, as well as all the duties and tasks associated with elections. The Administration cost center is not affected by fluctuations in the number of elections conducted each year, as is the Elections cost center.

**Current FY 2022:**

The Administration Department's personal services increased due to an expanded FTE in the Customer Service Department. Operating expense increase is due to the need to purchase a cyber-liability policy. Capital outlay expenditures include funding for a replacement network storage device.

Notes:

The Board of County Commissioners are required to pay for insurances, information technology and some utilities for the Supervisor of Elections. These costs are included here.

Forecast FY 2021:

Forecast operating expenditures are generally consistent with the adopted budget.

**Collier County Government  
Fiscal Year 2022 Adopted Budget**

**Elected Officials-Constitutional Officer**

**Supervisor Of Elections  
Supervisor of Elections-Elections (080)**

**Mission Statement**

**ENSURE THE INTEGRITY OF THE ELECTORAL PROCESS**

Plan, coordinate, and conduct all elections by the laws of the State of Florida. Solicit, audit, and select all polling sites. Appoint and train all election workers. Notify citizens of upcoming elections and maintain precinct boundaries. Prepare ballot layout and maintain all voting equipment for each voting cycle. Perform the tabulation of election results and certification of the results to appropriate jurisdictions.

| Program Summary                                                                                                                                                                                                                                                                                                                                                                                                                                                                            | FY 2022<br>Total FTE | FY 2022<br>Budget | FY 2022<br>Revenues | FY 2022<br>Net Cost |

Current FY 2022:

In FY 2022, Elections personal services is funding the election worker payroll for the August Primary Election. Operating expenses increased due to a countywide Notice of Election mailing, as well as a voter information card mailing that is being anticipated due to redistricting.

Notes:

This budget includes Operations Finance, Finance & Accounting, Inspector General and Minutes and Records.

The forecast overall position count and the FY22 current service budget for the Clerks BOCC portion of the budget includes (0.54 FTE x 2 = 1.08 FTE) associated with the Heritage Bay satellite office. This FTE is counted in the position count but not specifically funded in the FY21 budget but will be for FY22. The other position additions to the BOCC funded budget are related to mid-year staffing adjustments. The Clerk's Office has indicated that these positions are funded through recording fees.

Forecast FY 2021:

FTE's increased mid-year by (1).

Current FY 2022:

Personal services have increased due to the COLA increases, pay plan maintenance and staff positions that were unfilled for a portion of a year. There are six (6) FTE expanded requests (1 accounts payable clerk and 5 accountants for CARES processing. Operating costs are higher due to increases in software for the Inspector General department.

**Collier County Government  
Fiscal Year 2022 Adopted Budget**

**Elected Officials-Constitutional Officer**

**Clerk Of Courts  
Clerk To The Circuit Court (011)**

**Mission Statement**

To perform the constitutional and statutory duties of the Clerk of the Circuit Court in maintaining Court Records and in providing responsible service to the judiciary, the legal community, and the public.

**Notes:**

This budget reflects the County obligated expenses of Circuit Civil, Felony, Jury, Probate, and Juvenile. Costs are related to telephone and facilities costs for court functions required by the state to be funded locally per F.S. 29.008. This budget also covers 2.5 FTE's for the BOCC's request of court clerks for the hearing officers.

**Forecast FY 2021:**

Operating Expenditure reductions are due to lower operating costs in office equipment.

**Current FY 2022:**

Operating Expenditures have increased primarily due to office equipment and office furniture.

**Collier County Government  
Fiscal Year 2022 Adopted Budget**

**Elected Officials-Constitutional Officer**

**Clerk Of Courts  
Clerk Of County Courts (011)**

**Mission Statement**

To perform the constitutional and statutory duties of the Clerk of the County Court in maintaining Court records and in providing responsible service to the judiciary, the legal community, and the public.

**Notes:**

This budget reflects the County Court Satellites, Misdemeanor, County Civil, and County Traffic. Costs are related to telephone and facilities costs for court functions required by the state to be funded locally per Florida Statute 29.008.

**Forecast FY 2021:**

Total expenditures are anticipated to be \$1,300 or 3.23% less than budgeted.

**Current FY 2022:**

Operating expense increase is due to office furniture purchases to replace broken and non-functioning items.

**Collier County Government  
Fiscal Year 2022 Adopted Budget**

**Elected Officials-Constitutional Officer**

**Clerk Of Courts**

**Accounting, Recording and Satellites (011)**

**Mission Statement**

To provide a systematic approach to controlling all phases of recording documents, reduce paperwork proliferation, to provide efficient access to needed information, dispose of obsolete records, provide documentation of compliance with laws, ordinances, and other regulations, and to maintain historical records.

**Elected Officials-Constitutional Officer**

**Clerk Of Courts**  
**Accounting, Recording and Satellites (011)**

Notes:

This budget is for the operations of the Accounting, Recording, Records Management and Satellite Offices. A re-organization of the departments occur in FY2022.

Forecast FY 2021:

FTE's increased mid-year by (1.62).

Current FY 2022:

The cost for current services increased by \$204,700 or 8.9% when compared to the prior year appropriation. The increase is due to an anticipated addition for new Satellite offices located at Heritage Bay and Marco Island. The Recording Department is self-funded and does not require any funding from the Board. Additional revenues offset costs to the Board by \$1,672,200. Clerk's Accounting is funded 51.71% by the BOCC the remaining balance is funded through court revenues. Records Management is funded 80% by the BOCC with the remaining funding from court revenues. The Satellite offices are funded 60% by the BOCC with the remaining balance funded through court revenues.

**Collier County Government**  
**Fiscal Year 2022 Adopted Budget**

**Elected Officials-Constitutional Officer**

**Clerk Of Courts**  
**Administration (011)**

**Mission Statement**

To efficiently and effectively manage and direct the performance of the Clerk to the Board and the Clerk to the Courts legal and constitutional duties.

**Elected Officials-Constitutional Officer**

**Clerk Of Courts  
Administration (011)**

Notes:

This budget includes the Administrative Offices of the Clerk's operations including the Administration and Human Resources departments.

Forecast FY 2021:

FTE's increased mid-year by (0.58).

Current FY 2022:

The budget reflects changes for personal services pay plan maintenance and re-allocations based on FTEs served between court and non-court. The large decrease in revenues is due to the one time reimbursement of PPE items purchased during the COVID-19 pandemic in FY2020.

**Collier County Government  
Fiscal Year 2022 Adopted Budget**

**Elected Officials-Constitutional Officer**

**Clerk Of Courts**

**Management Information Systems MIS (011)**

**Mission Statement**

To provide data processing software, hardware and administrative support to the Board of County Commissioners and its staff, the Clerk of the Circuit Court and the Supervisor of Elections for SAP financial systems and other processes integrated to SAP.

Forecast FY 2021:

FTE's increased mid-year by (3).

Current FY 2022:

Personnel costs are expected to increase (and be offset by operating and capital reductions) as vacant positions are filled. There are additional expanded operating and capital costs consisting of SAP enhancements and preparation for the update with the SAP software.

Forecast FY 2021:

Increase in capital is due to the purchase of vehicles, other equipment and communication equipment.

Current FY 2022:

The increase in personal services is due to ten (10) expanded positions (8 Deputies, 1 Sergeant and 1 Lieutenant) related to the school safety mandate.

Operating costs increased due to other contractual services, IT equipment repair.

Capital decreased due to saving in IT equipment and computer software.

Forecast FY 2021:

An additional 4 SRO FTE's are funded by the awarded COPS grant.

Current FY 2022:

Any new grants will be presented to the Board of County Commissioners for approval and budget appropriated at that time.

**Collier County Government  
Fiscal Year 2022 Adopted Budget**

**Notes:**

Due to statutory changes in FY08, the funds collected from conventional telephone systems for operation of the Emergency 911 phone system are now in the Consolidated Emergency 911 System Fund 611.

**Current FY 2022:**

The budget is for remittances to other government entities to reimburse the Sheriff for equipment purchased for the Communications Center in the Emergency Service Complex.

\$ 11,500 - Total

Budgeted Transfer to the Sheriff's Grant Fund (115) will be processed once new grants are presented to the Board of County Commissioners for approval.

**Collier County Government**  
**Fiscal Year 2022 Adopted Budget**

**Elected Officials-Constitutional Officer**

**Sheriff**  
**Crime Prevention (603)**

**Mission Statement**

Pursuant to Florida Statute 775.083, court costs shall be assessed and collected in each instance a defendant pleads nolo contendere to, or is convicted of, or adjudicated delinquent for, a felony, a misdemeanor, or a criminal traffic offense under state law, or a violation of any municipal or county ordinance if the violation constitutes a misdemeanor under state law. The court costs imposed is \$50 for a felony and \$20 for any other offense. The county, in consultation with the sheriff, must expend such funds for crime prevention programs in the county, including safe neighborhood programs under ss. 163.501-163.523 F.S.

**Domestic Violence Trust Fund (609)**

**Mission Statement**

Pursuant to Florida Statute 938.08, In addition to any sanction imposed for a violation of s. 784.011, s. 784.021, s. 784.03, s. 784.041, s. 784.045, s. 784.048, s. 784.07, s. 784.08, s. 784.081, s. 784.082, s. 784.083, s. 784.085, s. 794.011, or for any offense of domestic violence described in s. 741.28, the court shall impose a surcharge. Payment of the surcharge shall be a condition of probation, community control, or any other court-ordered supervision. A portion of the surcharge shall be deposited into this trust fund and must be used only to defray the costs of incarcerating persons sentenced under s. 741.283 and provide additional training to law enforcement personnel in combating domestic violence.

Current FY 2022:

Budget is provided to reimburse the Sheriff's Office in the event a request is made for training needs in domestic violence.

**Collier County Government  
Fiscal Year 2022 Adopted Budget**

**Elected Officials-Constitutional Officer**

**Sheriff**

**Juvenile Cyber Safety (618)**

**Mission Statement**

Under Section 847.0141(6) Florida Statutes, a civil penalty is assessed to minors if they commit the offense of sexting. Eighty (80%) percent of the civil penalty received by a juvenile court pursuant to this section shall be remitted by the Clerk of the Court to the County Commission to provide training on cyber-safety for minors.

**Elected Officials-Constitutional Officer**

**Tax Collector**  
**Tax Collector Fund (070)**

Notes:

The Tax Collector's annual budget request is submitted on August 1 of each year in accordance with Florida Statutes.

Current FY 2022:

FTE count increased by six (6) with the addition of customer service representatives for Heritage Bay. Decrease in capital outlay is due to the final year of a three-year build for Heritage Bay with FY22 being the wrap up year.

Currently, our Greentree office has 15 front-line service personnel. The Heritage Bay office will provide for 23 front-line service personnel as well as 2 more drivers' license testing personnel. This new facility will have a drivers' license testing track and we plan on utilizing this facility for more full-service activities than we did at the Greentree location. The Heritage Bay location will totally replace the Greentree location, which will save us approximately \$225,060 annually in facility rental as the building will be owned by the Collier County Board of Commissioners.

## **Administrative Services Department**

The Administrative Services Department provides the essential business functions that allow Collier County government to perform at the highest level through all challenges -- hurricanes, wildfires, pandemics, or any other threat to the welfare of the people of Collier County – and throughout the year.

Our primary services include:

- Emergency Management that provides an effective response in preparation for, during and after a disaster
- World-class emergency medical services and transportation
- Accurate, timely and useful information about agency plans, services, projects, events, and programs
- Safety Programs and Services for the public and for our employees
- Procurement services that competitively procure best value goods and services
- Human resource services to build and maintain a superior workforce
- Fleet management services that ensure our teams are there and properly equipped when our customers need them
- State-of-the-art communications, automation, and information technology
- Document management services that deliver the right document to the right person at the right time

Generally, the Administrative Services Department works quietly in the background without a public face. Our success is aligned with the success of the agency and we aspire every day to reach the goals laid out by the Board of Commissioners to provide a consistent and high level of service no matter the circumstances.

The Administrative Services Department budget for FY 2022 totals \$217,982,500 with the impact on the General Fund and Unincorporated Area General Fund being \$34,052,400 or 15.62%.

**Administrative Services Department**

**Dori Slosberg Driver Education**  
**Driver Education Grant Fund (173)**

Forecast FY 2021:

The forecast remittance of \$141,000 is to the Collier County School District for Driver Education programs. Forecast revenue is based on the previous 12-month average collections.

Current FY 2022:

All funds collected will be used for the direct expenses of driver education programs in Collier County schools. In addition, there is an indirect service charge payment of \$1,000 to the General Fund (001). Historically, the disbursement of funds takes place at the beginning of the School District fiscal year (July 1st); given the difference from the County fiscal year, reserves are maintained in order to carry funds from the prior fiscal year until such time as the disbursement takes place.

Revenues:

The current surcharge assessed is \$5 per violation, pursuant to Ordinance 2007-39. Total revenue in this budget is based on a 12-month average monthly collection of \$11,416.

**Forecast FY 2021:**

The budgeted amount for fuel in FY2021 was \$2.60 per gallon; however, we are estimating fuel prices through the current fiscal year to average \$2.95 per gallon including taxes with a mid-year increase in prices. Adding to that is a decrease of about 60,000 gallons usage by the Collier County Schools created by school closings due to COVID-19. Overall, the difference is approximately \$1.0 million less than budgeted in both expenses and revenues.

The costs of parts are forecast to be approximately \$150,000 more than budgeted in both expenses and revenue due to inflation, and increased stock orders to counter anticipated shortages caused by the circumstances of COVID-19. This reason for the difference in costs and revenue can be explained by the increased parts cost and shelf inventory.

Revenues from motor pool rentals are forecast to be approximately \$19,800 more than budgeted.

**Current FY 2022:**

Personal services expenditures will stay about neutral with the exception of the projected across-the-board salary increase.

Fleet Management's FY 2022 budgeted operating expenditures remain close to those of FY2021 with major outliers being increases in fuel costs, IT capital, and repair parts costs. Budget includes shop equipment maintenance and replacement.

Also included in the fuel budget, \$200,000 for additional vehicle fuel rings. Maintenance for our new FuelMaster fuel control system, and two dispenser replacements at the Immokalee location, and fuel tank maintenance.

**FY2022 Capital Outlay**

- Replace four (4) Fleet Vehicles (\$130,000).
- Replace three shop diagnostic laptop computers (\$5,000).
- Replace shop equipment (\$30,000).

**Service Level:**

With implementation of a post-recession vehicle and equipment replacement program, Fleet Management has started to see shorter downtimes; however since FY2016, 209 on-road vehicles and over 550 equipment items have been added to Fleet Management's workload with no increase in personnel to support them. To date, with extensive use of overtime and prudent use of outside vendors, we have been able to maintain an overall 96.9% availability rate, but as the fleet continues to grow we will need more personnel to maintain satisfactory availability.

**Revenues:**

Labor revenue is based on 34,271 billable hours for vehicles, and heavy equipment maintenance at \$85.50 per hour, and small equipment repair at \$75.50 per hour. Parts revenue assumes \$2,549,900 in sales which includes a 26.0% markup. Sublet revenue assumes \$450,000 reimbursement including a 18.30% markup plus County car wash revenues. Motor Pool mileage revenue is estimated at \$88,000. Fuel sale revenue is based on 1,363,200 gallons at \$3.00 per gallon (includes a \$0.196 per gallon markup) and 117,500 gallons at \$2.80 per gallon for outside agency agreements.

**Collier County Government**  
**Fiscal Year 2022 Adopted Budget**

**Administrative Services Department**

**Motor Pool Capital Recovery Program**

**Motor Pool Capital Recovery Fund (523)**

**Mission Statement**

Provide cost-effective life cycle replacement of general governmental Motor Pool vehicles and heavy equipment through a centralized capital recovery system. The Motor Pool capital recovery program for enterprise entities are located within the 400 series of fund numbers: Water/Sewer Motor Pool Fund (409), Solid Waste Motor Pool Fund (472), and EMS Motor Pool Fund (491).

| <b>Program Summary</b>                                                                                                                                                                                                                                                                                                                                    | <b>FY 2022<br/>Total FTE</b> | <b>FY 2022<br/>Budget</b> | <b>FY 2022<br/>Revenues</b> | <b>FY 2022<br/>Net Cost</b> |

## **Administrative Services Department**

### **Motor Pool Capital Recovery Program Motor Pool Capital Recovery Fund (523)**

**Notes:**

The Motor Pool Capital Recovery Program was restarted in FY 2016 for all the Governmental funds except for the Road and Bridge Fund 101 which joined the program in FY 2017. Excluded from the program are vehicles in MSTU's, CRA's, Pelican Bay, Tourism Funds (including the Museum), Conservation Collier, grants, Airport, Fire Districts, and Constitutional Officers. User Divisions are assessed an annual replacement charge based upon the cost and estimated life of the equipment.

**Forecast FY 2021:**

Miscellaneous Revenue in the amount of \$346,000 is from several auctions held in fiscal year 2021, where old vehicles were auctioned and proceeds retained to fund replacement vehicles.

**Current FY 2022:**

Personal Services are consistent with budget guidelines. One FTE is providing support for the Motor Pool Capital Recovery Program which includes accounting in four motor pool funds and to track approximately 851 vehicles in the program. To support the operating costs to administer this program, an administrative charge is assessed based on the number of vehicles in each of the four funds and will be paid from interest earnings.

The capital outlay budget is for replacement vehicles. Fleet Management, in cooperation with the various Divisions decided on which vehicles should be replaced in FY 2022.

The Reserve levels is set at 150% of the annual motor pool billings for the for Information Technology Fund (505) and 100% for Stormwater Operations Fund (103) so large pieces of equipment and vehicles may be replaced. For the remaining funds, the Reserves have been set at 200% of the annual motor pool billings. The goal is to grow all these reserves to 200% of the annual motor pool capital recovery billings to establish a level of program flexibility not afforded by the 100% or 150% level. For the other participating Funds in the program, their reserve levels have been budgeted at 200% of the annual motor pool billings, to allow for unexpected price fluctuations, repayment schedule adjustments and other program changes.

**Revenues:**

The Motor Pool Capital Recovery Billings (revenue) in the amount of \$4,962,400 represent motor pool capital recovery charges assessed to the governmental funds for the purchase of (future) replacement vehicles and heavy equipment as determined by Fleet.

To help fund the Operating cost to administer the Motor Pool Capital Recovery program, the other Motor Pool Funds (409, 472, 491) are transferring in the following amounts:

\$28,300 from the Water/Sewer Motor Pool Fund 409 (to support 226 vehicles in the program)  
\$ 5,100 from the Solid Water Motor Pool Fund 472 (to support 40 vehicles in the program)  
\$ 7,800 from the EMS Motor Pool Fund 491 (to support 62 vehicles in the program)

**Collier County Government**  
**Fiscal Year 2022 Adopted Budget**

**Administrative Services Department**

**Motor Pool Capital Recovery Program**

**Water/Sewer District Motor Pool Capital Recovery Fund (409)**

**Mission Statement**

Provide cost-effective life cycle replacement of Water and Wastewater Motor Pool vehicles and heavy equipment through a centralized capital recovery system. User Divisions are assessed an annual replacement charge based upon the cost and estimated life of the equipment. The Motor Pool capital recovery program for other enterprise entities are located within the 400 series of fund numbers: Solid Waste Motor Pool Fund (472), EMS Motor Pool Fund (491); and the General Governmental Motor Pool Fund (523).

| Program Summary                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         | FY 2022<br>Total FTE | FY 2022<br>Budget | FY 2022<br>Revenues | FY 2022<br>Net Cost |

| The F550 truck will be utilized for heavy system rehabilitation work and maintenance needs within the water distribution system. This new more robust vehicle will alleviate excess wear and tear on existing lighter duty vehicles.                                                                                                                                                                                                                                                                                    |                      |                   |                     |                     |
| <b>Transit XLT Passenger Wagon for Automation Systems</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                               | -                    | 30,500            | 30,500              | -                   |
| This Transit Connect XLT Passenger Wagon will be utilized by the Automation Systems team to review/monitor/install county SCADA projects and attend vendor and county meetings. This vehicle well suited to store and transport equipment and parts for SCADA projects. SCADA equipment cannot be stored in the current Ford Escape because the equipment is visible. The current Ford Escape will be reassigned to meet other operational needs in the water sewer district more appropriate for this type of vehicle. |                      |                   |                     |                     |

**Notes:**

The Motor Pool Capital Recovery program was restarted in FY 2016. All vehicle purchases for the County Water/Sewer District Operations Fund (408) have been transferred into Motor Pool Capital Fund (409) to add clarity and improve accountability over these important operational assets.

**Forecast FY 2021:**

Miscellaneous Revenue in the amount of \$118,000 is from several auctions held in the spring/summer of 2021, where old vehicles were auctioned and proceeds retained to fund replacement vehicles.

A vehicle was transferred from the Solid Waste motor pool to the Water/Sewer motor pool in FY 2021. This vehicle had 2 years worth of capital recovery in the amount of \$14,600 which was transferred in (revenue) from the Solid Waste motor pool fund 472.

**Current FY 2022:**

The capital outlay budget is for replacement vehicles. Fleet Management, in cooperation with the Public Utilities Department decided on which vehicles should be replaced in FY 2022.

An administrative charge is calculated based on the number vehicles in each motor pool capital fund to offset the operating cost in the General Governmental Motor Pool Fund (523) to administer the program. The total amount of administrative charge is calculated at \$28,300 and will be transferred accordingly; interest earnings will be used to offset the administrative charge.

The Reserve level is set at 200% of the annual motor pool capital recovery billing which will establish a level of program flexibility. This will allow for unexpected price fluctuations, replacement schedule adjustments and other program changes.

**Revenues:**

The Motor Pool Capital Recovery billings (revenue) in the amount of \$2,349,000 represent motor pool capital recovery charges assessed to the water and wastewater enterprise fund for the purchase of (future) replacement vehicles and heavy equipment.

**Motor Pool Capital Recovery Program**  
**Solid Waste Motor Pool Capital Recovery Fund (472)**

**Mission Statement**

Provide cost-effective life cycle replacement of Solid Waste Motor Pool vehicles and heavy equipment through a centralized capital recovery system. User Divisions are assessed an annual replacement charge based upon the cost and estimated life of the equipment. The Motor Pool capital recovery program for other enterprise entities are located within the 400 series of fund numbers; Water/Sewer Motor Pool fund 409; EMS Motor Pool fund 491; and the General Governmental Motor Pool replacement program is in fund 523.

**Notes:**

The Motor Pool Capital Recovery program was restarted in FY 2016. All vehicle purchases for the Solid Waste Funds (470/473) have been transferred into Motor Pool Capital Fund (472) to add clarity and improve accountability over these important operational assets.

**Forecast FY 2021:**

Miscellaneous Revenue in the amount of \$61,000 is from several auctions held in the spring/summer of 2021, where old vehicles were auctioned and proceeds retained to fund replacement vehicles.

A vehicle was transferred from the Solid Waste motor pool to the Water/Sewer motor pool in FY 2021. This vehicle had 2 years worth of capital recovery in the amount of \$14,600 which was moved to the Water/Sewer motor pool fund 409.

**Current FY 2022:**

The capital outlay budget is for replacement vehicles. Fleet Management, in cooperation with the Solid Waste Division decided on which vehicles should be replaced in FY 2022.

An administrative charge is calculated based on the number vehicles in each motor pool capital fund to offset the operating cost in the General Governmental Motor Pool Fund (523) to administer the program. The total amount of administrative charge is calculated at \$5,100 and will be transferred accordingly; interest earnings will be used to offset the administrative charge.

The Reserve level is set at 200% of the annual motor pool capital recovery billing which will establish a level of program flexibility. This will allow for unexpected price fluctuations, replacement schedule adjustments and other program changes.

**Revenues:**

The Motor Pool Capital Recovery billings (revenue) in the amount of \$352,000 represent motor pool capital recovery charges assessed to the solid waste enterprise fund for the purchase of (future) replacement vehicles and heavy equipment.

**Fiscal Year 2022 Adopted Budget**

**Administrative Services Department**

**Motor Pool Capital Recovery Program**  
**EMS Motor Pool Capital Recovery Fund (491)**

**Mission Statement**

Provide cost-effective life cycle replacement of Emergency Medical Services Motor Pool vehicles and ambulances through a centralized capital recovery system. User Divisions are assessed an annual replacement charge based upon the cost and estimated life of the equipment. The Motor Pool capital recovery program for other enterprise entities are located within the 400 series of fund numbers: Water/Sewer Motor Pool Fund (409), Solid Waste Motor Pool Fund (472); and General Governmental Motor Pool Fund (523).

| Program Summary                   | FY 2022<br>Total FTE | FY 2022<br>Budget | FY 2022<br>Revenues | FY 2022<br>Net Cost |

**Administrative Services Department**

**Motor Pool Capital Recovery Program**  
**EMS Motor Pool Capital Recovery Fund (491)**

**Notes:**

All vehicle purchases for the Emergency Medical Services Fund (490) have been transferred into this Motor Pool Capital Fund (491) to add clarity and improve accountability over these important operational assets. The motor pool capital recovery program was restarted in FY 2016, however, for EMS it was not implemented until FY 2017.

**Forecast FY 2021:**

Miscellaneous Revenue in the amount of \$40,200 is from several auctions held in fiscal year 2021, where old vehicles and ambulances were auctioned and proceeds retained to fund replacement vehicles.

**Current FY 2022:**

The capital outlay budget is for the replacement of vehicles and ambulances. Fleet Management, in cooperation with the Emergency Medical Services Division decided on which vehicles should be replaced in FY 2022.

An administrative charge is calculated based on the number of vehicles in each motor pool capital fund to offset the operating cost in the General Governmental Motor Pool Fund (523) to administer the program. The total amount of administrative charge is calculated at \$7,800 and will be transferred accordingly; interest earnings offset the administrative charge.

The Reserve level is set at 200% of the annual motor pool capital recovery billing which will establish a level of program flexibility. This will allow for unexpected price fluctuations, replacement schedule adjustments and other program changes.

**Revenues:**

The Motor Pool Capital Recovery billings (revenue) in the amount of \$1,778,700 represent motor pool capital recovery charges assessed to Emergency Medical Services for the purchase of (future) replacement vehicles and ambulances.

**Notes:**

The Division of Human Resources (HR) is comprised of a number of organizational components which include Administration, Labor and Employee Relations, Operations, Talent Acquisition, Talent Development and Total Rewards. Each specialized area provides a variety of services to the County's constituency as well as to the County's employee population. This is accomplished by supporting the organization with team building efforts in the areas of compensation, retention, employee recognition, employee relations, performance management, motivation, development and training.

The end of FY2020 and start of FY2021 saw dramatic changes in how the County conducted business due to a global pandemic, and the Human Resources team quickly adapted many operational processes and practices to make sure the needs of the organization were supported. The County's continuing and crucial objectives of attracting, retaining, and developing a highly skilled workforce had to be adjusted to accommodate best practices for maintaining a safe working environment.

In response to COVID-19 and Executive Orders issued by the Governor, the Talent Development team quickly adapted the New Employee Orientation Program (NEO), ensuring a steady pipeline of incoming talent. Previously, NEO was a two-day, instructor-led classroom training occurring every two weeks, providing incoming County staff members the opportunity to learn critical information needed at the start of employment with the organization. With initial CDC social distancing requirements, two classroom orientations were held with a reduced class-size, but it quickly became apparent that this was not a practical long-term solution, as it limited the number of hires the County could onboard. By April 2020, the entire NEO program was transitioned online, as an assigned curriculum through Collier University. In less than one year, over 400 new employees, including seasonal Parks staff, have taken the online NEO curriculum. With the success of virtual orientation, this model will be retained, as it offers the greatest flexibility in delivering to groups of all sizes starting their employment with the County.

## **Administrative Services Department**

HR staff seek to provide learning opportunities that build the knowledge, skills and abilities of employees to accomplish their work and achieve their potential. Learning opportunities include a library of nearly 1,900 virtual professional development and technical courses offered through the County's web-based learning management system, Collier University. The County continues to offer occasional in-person, instructor-led sessions as well. These courses focus on enhancing the skills that individuals need to be high performers in the workplace, as well as develop new abilities that prepare them for future opportunities within Collier County.

With openings resulting from attrition and retirements, employees in the Talent Acquisition section coordinated the recruitment for 467 vacancies that occurred in FY2020, working with hiring divisions to select and onboard new staff to fill the openings. While numbers of applicants declined compared to the last few years, likely attributable to concerns related to coronavirus, the agency received over 12,600 applications for posted positions. Later this year, the HR Division will roll out the NEOGOV OnBoard platform, allowing newly hired employees a central location to prepare for their County position, from a welcome message to being able to submit all required hiring documents on-line.

Periodically, based on Department/Division requests, the Total Rewards section reviews entry-level classifications in the County's pay plan against the external market, as we have found individuals in those positions are more likely to other organizations for higher wages. Where the data indicated the County's ranges are out of alignment, positions can be moved to a new pay range, and incumbents provided with pay adjustments. Total Rewards also conducts an annual agency-wide pay and classification study from October through December, during which targeted non-bargaining unit positions in the organization are evaluated against the external market.

The County's Service Award choice program recognizes actively working team members, as well as those who are retiring from service. Employee recognition continues to be complemented by the Values In Practice (VIP) awards program. It allows employees at all levels of the agency to immediately acknowledge others who live the County's guiding principles of Honesty, Integrity, Service, Accountability, Quality, Respect, Knowledge, Stewardship, Collaboration and Self Initiating/Self Correcting in the workplace. Though we were unable to have in-person recognitions for service awards or the VIP program, eligible employees received their awards by mail and were highlighted in monthly newsletters to the organization.

### **Forecast FY 2021:**

Personnel services are forecast under budget as the result of two vacancies in the division and several individuals moving to new positions. Due to organizational changes resulting from the pandemic, a number of budgeted HR initiatives and programs that were placed on hold or cancelled. Operating expenses are under budget due to savings in professional services, contractual services, training and educational expenditures, and food operating supplies.

### **Current FY 2022:**

Personnel services are nearly identical to FY2021 as a result of promotions or new hires to the division at lower rates of pay than the previous staff, and elimination of funds under Other Salaries and Wages as temporary staffing is now outsourced.

Operating Expenses are higher for FY2022 due to the Information Technology capital allocation, a planned pay classification study, along with the addition of the annual costs now incorporated to the budget to support NEOGOV OnBoard for new hires to the organization. There are also modest adjustments for employee recognition expenditures due to fewer service providers available to cater events, increasing the costs slightly in the coming year when we return to in-person recognition.

### **Revenues:**

The transfer from Community Development Funds (111/113/131) are in support of HR Cost Share and of the Human Resources Strategist dedicated to the Growth Management Department. Transfer from Public Utilities Water/Sewer Funds (408/470) are in support of HR Cost Share.

**Notes:**

The IT Division operates under an internal service philosophy. BCC Divisions and outside agencies budget IT service costs based on their service demand. Shared IT services are funded through consumption based unit costs. Specialty professional services for each Division are funded directly. This methodology was developed in direct partnership with the business users of IT services by direction of the Information Technology Executive Committee (ITEC) which governs agency IT policies. IT funding policies balance the service demands of our various businesses (type of services offered and service levels) with agency financial constraints.

**Forecast FY 2021:**

Personal Services is lower due to vacancies.

Operating expense is lower due to saving in data processing.

**Current FY 2022:**

The increase in Personal services is due to the proposed wage adjustment.

The increase in Operating expenses is due to data processing equipment repair & maintenance which include among others (APC Symetra, Cisco Smartnet, Enterprise Vault, Hyland & Sire software, MESA Enterprise, MESA Office365, MESA Windows E3, NetApp – SAN Maintenance, Net Brain Maintenance, SIEM, Symantec MSS, VMware Enterprise, VSAN Disks, Zoom, Zscaler).

Capital Outlay decrease is due to savings in data processing.

A transfer to Fund 188 is budgeted to support the two positions that were moved from Fund 505 to Fund 188.

**Revenues:**

Charges to the various departments within the County are consistent with desired/requested service levels and expectations.

**Information Technology Division**

**800 MHz Radio System Fund (188)**

**Mission Statement**

To provide funding for operation and maintenance of the 800 MHz Inter-government Radio System. The system provides interoperable radio communications for law enforcement, EMS, fire service, and local government including the Collier County Public Schools operating a total of 6,000 radios.

**Administrative Services Department**

**Information Technology Division**  
**800 MHz Radio System Fund (188)**

**Forecast FY 2021:**

Increased radio system maintenance costs reflect the expiration of the final warranty phases for the P25 system upgrade. Tower lease payments increase annually based on lease terms and lease modifications reflecting changes in antennas systems

There are no significant deviations in personal services.

Capital outlay reflects replacement of ancillary radio system components not included in the P25 upgrade.

**Current FY 2022:**

FY 2022 P25 system maintenance expenses are fully funded with the expiration of the final warranty phases in FY 2021.

Expenses for maintenance services provided to divisions for terminal equipment (mobile and portable radios) is offset with revenue from divisions and external agencies on the system

Tower lease payments increase annually based on lease terms.

Capital outlay reflects replacement of ancillary radio system components not included in the P25 upgrade including emergency generators and battery-back up systems' based on established replacement schedules.

**Revenues:**

Charges for service include \$20,000 for mobile and portable radio maintenance provided to non-BCC customers, and \$260,000 in proceeds from a \$12.50 surcharge on traffic moving violation fines.

Miscellaneous revenue consists of income from radio tower lease agreements, and reimbursements from divisions for radio mobile and portable radio equipment maintenance.

Tower lease revenue includes an annual payment of \$88,641 from Harris Corp for shared use of County sites for the State of Florida radio system. The Harris lease agreement expires in March 2022.

Transfer from General Fund (001) is to support the 800 MHz Radio System Fund (188).

Transfer from Fund (505) is to support the two positions moved from Information Technology Division Fund (505) to 800 MHz Radio System Fund (188) it has decreased to realign with the FY20 transfer.

**Information Technology Division**  
**Information Technology Capital (506)**

Forecast FY 2021:

The IT Division had the following capital outlay projects underway: \$3,595,000 Data processing (EOL Server Replacement, Network Load Balancers, SAN Storage, Virtual Servers Host, Fiber lifecycle replacements (campus, first phase), Network Edge replacement, Infrastructure APC, Iron Port, NetBrain Software); \$200,000 Business Continuity (VSAN storages) and \$150,000 County Manager Initiatives, Total: \$3,945,000.

Current FY 2022:

Capital outlay includes the following projects:

\$500,000 County Manager Initiatives.  
\$160,000 Contract Net Admin for 1 year.  
\$300,000 Patch Management as a Service (PMaaS).  
\$250,000 New Disk Shelves.  
\$150,000 Conduit Installation.  
\$90,000 PC Replacement.  
\$90,000 NetBackup.  
\$41,000 APC 20 kVA UPS – SWTP.  
\$100,000 APC 250Kva UPS – ESC.  
\$175,000 APC AC Units.  
\$200,000 Bldg H/Health Dept Network Equipment.  
\$100,000 Cisco ISE Deployment.  
\$60,000 Cloud Extending.  
\$200,000 Courthouse Network Equipment.  
\$100,000 EOL Server Replacement.  
\$200,000 Hosting Outsourcing Monitoring.  
\$500,000 NetBackup.  
\$600,000 Network Edge replacements.  
\$200,000 New Backup AC Unit Bldg F.  
\$250,000 New Backup AC Unit ESC.  
\$150,000 VSAN Hosts (2)

\$4,416,000 Total Projects

Revenues:

Agency computer users will be charges \$36.27 per computer for break/fix PC replacements.

A General Fund (001) capital transfer of \$500,000 is for County Manager initiatives.

Forecast FY 2021:

One (1) FTE was moved mid-year from Parks and Rec NCRP Water Park (001) to Purchasing Fund (001).

Operating expenses are expected to be on target.

Current FY 2022:

The increase in Personal services is due to the proposed wage adjustment, termination pay, a vacant position getting filled at a higher rate of pay and the mid-year move of one (1) FTE from Parks & Rec Fund (001) to Purchasing Fund (001)

Operating expenses increased due to other contractual services.

Revenues:

Transfer from Property & Casualty Insurance Fund (516) for \$76,600 is budgeted to fund the management of the certificate of insurance tracking system as an internal control measure to assure the compliance by vendors with contractual insurance requirements.

**Collier County Government**  
**Fiscal Year 2022 Adopted Budget**

**Administrative Services Department**

**Risk Management Division**  
**Property & Casualty Insurance Fund (516)**

**Mission Statement**

The mission of the Risk Management Division is to continuously develop, manage, and improve the County's risk finance, group insurance, safety, and occupational health programs in order to provide quality, cost-effective support to our customers; to protect the County's financial interests against frequent and/or catastrophic loss; and to assure that the County's employees go home safely each day.

**Forecast FY 2021:**

Revenues are projected to be higher than the Adopted Budget due to the settlement of litigation related to Hurricane Irma and the receipt of final reinsurance recoveries. However, FY 21 Carryforward was less than anticipated.

Expenditures are anticipated to be higher primarily due to the receipt and transfer of settlement recoveries from the Hurricane Irma litigation to the affected budgets.

**Current FY 2022:**

Personal Services expenditures comply with budget guidance.

The Operating Budget is down 14.1% due to a reduction in the claims budget associated with Hurricane Irma. The Reinsurance portion of the Operating Budget is up 5.96%, largely due to an increase in ratable exposures associated with the General Insurance portion of the budget.

A transfer to the General Fund of \$76,600 is budgeted to fund the management of the certificate of insurance tracking system as an internal control measure to assure the compliance by vendors with contractual insurance requirements.

**Revenues:**

Total Revenues are down 17.1% primarily due to the cessation of reinsurance recoveries associated with the closure of Hurricane Irma and a reduction of budgeted Carryforward. Property Casualty Billings are up 4.1% due to higher ratable liability exposures associated with growth.

**Forecast FY 2021:**

Revenues are projected to be lower than anticipated due to the removal of budgeted Job Bank employee premiums and lower reinsurance recoveries.

Operating Expenditures are forecast to be lower than the Adopted Budget due to lower health claims costs and lower reinsurance costs.

**Current FY 2022:**

Personal Services expenditures comply with budget guidance.

The Operating Budget is projected to be down 0.9% due to lower than anticipated claims costs for FY 21 and FY 22.

**Revenues:**

Allocated premium rates across the organization for Health insurance, Dental, Life insurance, Long Term Disability, and Short-Term Disability remain unchanged from FY 21. Health insurance rates have remained unchanged for nine years. Enrollment is expected to remain unchanged from FY 21. The overall revenue budget is projected to decrease 5.6% due to a reduction in projected Carryforward. However, the Plan remains fully funded.

**Collier County Government  
Fiscal Year 2022 Adopted Budget**

**Administrative Services Department**

**Risk Management Division  
Worker's Compensation Fund (518)**

**Mission Statement**

The mission of the Risk Management Division is to continuously develop, manage, and improve the County's risk finance, group insurance, safety, and occupational health programs in order to provide quality, cost-effective support to our customers; to protect the County's financial interests against frequent and/or catastrophic loss; and to assure that the County's employees go home safely each day.

**Forecast FY 2021:**

Revenues are anticipated to exceed the adopted budget due to an increase in Carryforward resulting from favorable claims experience in FY 20. Forecast FY 21 Workers' Compensation billings are anticipated to equal the adopted budget.

The Operating Budget is expected to be below the adopted budget due to a reduction in Workers' Compensation claims and lower than projected claims expenditures.

**Current FY 2022:**

Personal Services expenditures comply with budget guidance.

The Operating Budget is expected to increase by 0.9% due to higher ratable payroll resulting in higher reinsurance premiums.

**Revenues:**

Workers' Compensation Billings decreased 2.8% due to a reduction in projected ultimate losses in FY 22 by the County's actuary.

Total Revenues are up 14.1% due to higher than anticipated carryforward resulting from favorable claims experience in FY 20 and FY 21.

**Forecast FY 2021:**

Decrease in Personal expenses is due to two vacant positions as well as the following changes:

+ One (1) FTE was moved mid-year from TDC Admin/OPS Fund (194) to Communication & Customer Relations Fund (111).

+ Two (2) FTE's were moved mid-year from Administrative Services Dept. Admin section (001), an Operations Analyst and a Senior Operations Analyst.

- One (1) FTE, a Supervisor of Operations was transferred out to Corporate Business Operations (001).

Operating expenses is lower due to savings in printing/binding, marketing, office supplies and out of county travel.

**Current FY 2022:**

The increase in Personal services is due to the proposed wage adjustment, vacant positions being filled at a higher rate of pay and the mid-year (2021) changes of three (3) FTE's transferred in and one (1) FTE transferred to Corp Business Ops (001).

Operating expense increase is due to other Information Technology allocations, temporary labor and other contractual services which include (Aberdeen (closed captioned) Encore Servers, Muzak, Vision Internet, PageFreezer, Message Media, Live U, ADA Compliance vendor).

Capital Outlay increased due to data processing equipment.

**Administrative Services Grants**  
**Administrative Services Grants (703/704)**

**Mission Statement**

To provide enhancements to the minimum standards required of counties by the State of Florida and the Department of Homeland Security in support of local emergency management programming. Functions include service delivery, equipment, supplies, training development and delivery, Special Needs program and special planning projects. Grants from this fund come from the Emergency Management Preparedness Enhancement Trust Fund as mandated by the State of Florida and the Federal Emergency Management Agency.

## **Administrative Services Department**

### **Administrative Services Grants** **Administrative Services Grants (703/704)**

**Notes:**

Budgets for grants are no longer prepared in advance of the actual acceptance of the grants. Any grant received will be brought to the Board of County Commissioners for approval and acceptance along with budget amendments to recognize and appropriate funds at the time they are received.

**Forecast FY 2021:**

Currently the Department of Emergency Management executes a grants awarded by the State of Florida Division of Emergency Management (FDEM). These grants have a specific purpose toward improving communication interoperability, data and media transfer, disaster planning, training, building disaster resilience and other homeland security and natural hazard related matters. All of the grants are recurring, non-competitive grants. State and FEMA pass through funds for both the Emergency Management Performance Grant (EMPG) and Emergency Management Preparedness and Assistance Program Base Grant (EMPA) will require local funding thresholds to be maintained at certain levels or risk proportionate share of grant reductions.

All of the grants have contract periods that overlap fiscal years. This list represents active grant award balances during FY21:

\$105,800 EMPA 2020-2021 A0099 - 33691  
\$110,800 EMPG 2020-2021 G0093 - 33692  
\$ 22,100 EMPG-S G0161 – 33694  
\$ 5,000 EMPG 2020-2021 G0093 - 33692

Grand Total: \$243,700

**Revenues:**

A General Fund (001) transfer of \$5,000 has been budgeted to meet the required local share of EMPG 2020-2021 which is set at 100%. The State EMPA program is used as match to the Federal EMPG program.

**Collier County Government**  
**Fiscal Year 2022 Adopted Budget**

**Administrative Services Department**

**Bureau of Emergency Services Division**

**Emergency Management Operating (001)**

**Mission Statement**

The Collier County Division of Emergency Management works to protect and manage consequences for the citizens, visitors, local agencies, businesses, and organizations from the effects of natural, technological, public health, community crisis, and terrorism disasters or emergencies under the guidance of the County Manager. The Division receives program guidance and mandates from the Department of Homeland Security, the Federal Emergency Management Agency, and the State's Division of Emergency Management under the Office of the Governor. The Division maintains a vision of a vibrant, integrated, and progressive disaster-resistant community. Programming and work by the Division includes planning for and responding to major disaster events or localized emergencies 24 hours a day, 7 days a week. Staff and volunteers work to develop capabilities, strategies, and programs to minimize the effects and streamline the recovery from a disaster or community emergency. The Division provides on-scene technical support to public safety organizations, hurricane protection project management, community and crisis education and planning, comprehensive disaster, nursing home and other critical infra-structure review, preparedness planning, evacuation coordination, emergency public information and warning, meteorological services, hazardous materials storage analysis, field exercise and training resources, and state mandated registration and case-need evaluation for persons with special needs.

| Emergency Management must maintain a 24-hour, 7-day a week multi-hazard Homeland Security response and consequence management capability. This effort includes ensuring the reliability and capability of the emergency operations center, mobile command vehicle, various communication sets, and other field deployable assets to be ready at all times to respond, protect, and mitigate the effects to the community prior to, during, and after a natural, technological, terrorist, pandemic, or community crisis event. The Division provides technical assistance and hosts numerous multi-agency training forums and exercises in a multi-hazard environment to ensure that all efforts to prepare for, respond to, recover, and mitigate from the effects of a disaster or local emergency are efficient and effective. The Emergency Management Division actively seeks grant opportunities to acquire funds to help mitigate against future emergencies, build local capability with supplies and equipment, and support a broad range of public safety and public health concerns and agencies. |                              |                           |                             |                             |

**Administrative Services Department**

**Bureau of Emergency Services Division**  
**Emergency Management Operating (001)**

**Notes:**

Collier County continues to maintain one of the smallest, albeit nationally recognized, emergency management organizations by population and threat hazard in the State of Florida.

The Division of Emergency Management relies upon the efforts of each staff member for their respective program expertise to protect and serve the citizens of Collier County from effects of local emergencies and regional and national threats. The program is established in the following functions similar to the National Response Plan and State statute guidance: Human Services, Planning and Mitigation, Hazardous Materials, Homeland Security and Training, Logistics, and Administration. Emergency Management staff has also been tasked with grant research, project formulation and grant management, toward strengthening disaster resistance via mitigation efforts.

**Forecast FY 2021:**

Personal services increased by one (1) FTE, a Senior Operations Analyst was transferred in from Administrative Services Department Admin Section (001)

Operating expenses are higher due to contractual services for an AV consultant.

Capital outlay increase is due to the purchase of radios and equipment.

The \$605,000 reimbursement is related to BES (Bureau of Emergency Services) - Cares Act funding for the COVID response.

**Current FY 2022:**

Personal Services increase is higher due to a planned wage adjustment and to the mid-year move of one (1) FTE from Administrative Services Department Section (001).

Operating expenses comply with budget guidance.

**Collier County Government  
Fiscal Year 2022 Adopted Budget**

**Administrative Services Department**

**Bureau of Emergency Services Division**

**Emergency Relief (003)**

**Mission Statement**

To establish a reserve for disasters that may not meet the threshold for FEMA reimbursement.

Current FY 2022:

\$100,000 is appropriated in order to enable a quick response time for the procurement of generators and like equipment and supplies in an emergency and will only be used in the event of an impending emergency. All unspent funds will remain in reserves for contingencies in the Emergency Disaster Fund (003). Reserves for Catastrophic events was increased due to the transfer from General Fund (001).

In the event an expenditure is made and is reimbursable by FEMA, advance funding expenditures will be submitted for reimbursement and any amounts refunded will be returned to this fund.

Revenues:

Transfer from General Fund (001) is to restore funding as reserves have decreased over the years due an increase in disaster events.

**Collier County Government  
Fiscal Year 2022 Adopted Budget**

**Administrative Services Department**

**Bureau of Emergency Services Division**

**Division of Forestry Services (111)**

**Mission Statement**

Pursuant to Florida Statute 125.27, the Division of Forestry contracts with each County Board of Commissioners to provide countywide forest fire protection. In fulfilling the provisions of this law, each district/center manager will perform the following two functions: 1) Provide a Protected Acreage Review. 2) File an annual report with the Collier County Board of County Commissioners.

**Administrative Services Department**

**Bureau of Emergency Services Division**

**Medical Examiner (001)**

**Notes:**

The Board of County Commissioners, pursuant to Section 406 of Florida Statutes, provides the funds for the provision of Medical Examiner Services through a contractual service agreement with the Florida District 20 Medical Examiner. In many circumstances involving the death of a human being, per Florida Statutes 406.11, the medical examiner of the district in which the death occurred or the body was found shall determine the cause of death and shall, for that purpose, make or have performed such examinations, investigations, and autopsies as he or she shall deem necessary or as shall be requested by the state attorney. Further, the Medical Examiner must comply with a variety of reporting and record-keeping requirements as mandated by state law.

**Forecast FY 2021:**

The Medical Examiner's Office investigated 5,038 cases in the 2020 calendar year. COVID-19 created shortages in PPE, body bags, and other supplies and drove up prices for these items that are unlikely to return to pre-COVID levels, as availability is still impacted.

The basic toxicology panel price increased by 6.25% as of October 2019 and additional toxicology test costs have increased approximately 10%. Lab costs continue to rise due to additional testing requirements from synthetic opioid analogs and drug use patterns. The number of cases requiring toxicology testing is anticipated to continue to increase. Toxicology tests are required by Florida law in all cases of violent deaths, suspected drug intoxications, homicide, suicide, deaths involving children, drowning, motor vehicle and other accidental deaths, deaths from unknown causes, in all unidentified individuals, and in certain natural deaths.

Services and costs of operational and administrative services and supplies, costs associated with the performance of autopsies and cause of death determinations, and all other costs and fees are continuously negotiated to achieve cost reductions while maintaining or improving standards.

**Current FY 2022:**

The proposed budget reflects an 1.6% increase from the 2020-2021 fiscal year budget which includes the following Operating Expenses: \$578,800 operational expenses including toxicology tests, lab costs, hardware/software replacement, FPL and other utilities, morgue supplies and services, consultant fees, recurring building expenses; \$1,269,900 for payroll including taxes and benefits. Additionally, \$8,900 is allocated for info tech automation and \$45,000 for insurance – general, property, and liability insurance. Total - \$1,902,600.

The Medical Examiner's office is constantly scrutinizing services, policies, procedures and statutory-mandated operational duties, autopsy and administrative supplies, costs and fees and continues to negotiate reductions in costs wherever possible.

**Collier County Government**  
**Fiscal Year 2022 Adopted Budget**

**Administrative Services Department**

**Emergency Medical Services EMS**  
**Emergency Medical Services (EMS)(490)**

**Mission Statement**

The Division of Emergency Medical Services is a single consolidated division that provides emergency medical care for Collier County under the direction of the Board of County Commissioners and in compliance with Florida Statutes, Chapter 401. The EMS Division's mission is to provide competent, consistent, county-wide patient care and service to the community in an efficient and cost-effective manner.

**Forecast FY 2021:**

Personal Services are in line with fiscal year 2021 budget projections. Even due to the Covid-19 pandemic, over time hours are still in line with projections.

Operating expenses are higher due to the new threshold for assets increasing from \$1000 to \$5000. Items that would have been expended from capital outlay were expended from operating instead. Due to the Covid-19 pandemic, operating expenses are higher due to the necessary amount of Personal Protective Equipment needed to provide adequate care and health and safety in Collier County.

**Current FY 2022:**

Personal Service increase is due to a Collective Bargaining Agreement between Collier County and Collier EMS/Fire Bargaining Unit that was approved by the Board on 07/13/21 Item 16F9, this was to fix an outdated EMS pay plan to compete with outside agency first responders.

Operating expenses are similar to FY21 with slight increases in areas that were and will continue to be impacted by the Covid-19 pandemic. Other increased costs are for Information Technology expenses and Intergovernmental Transfers to The Agency For Health Care Administration that will be reimbursed later in FY22.

Capital outlay has decreased due to savings in Data Processing Equipment.

Reserve for Capital is to support future capital needs.

Transfer to Fund 494 EMS Grants is for the 10% local match required by Florida Statute Section 338.26(3), Chapter 2019-153 for EMS services associated with Mile Marker 63.

**Revenues:**

Collections are anticipated to be similar with or higher than FY21 due to the Covid-19 pandemic. The patient mix and level of service have changed somewhat, but even an increase in call volume will have modest effect on collections. This is due to Medicare and Medicaid. Medicare pays 80% of the Urban Base Rate and Mileage. Medicare payments are not based on charged rates, but rather 80% of what Centers for Medicare and Medicaid Services (CMS) determines to be allowable. Medicaid pays a flat rate based on level of service. Because nearly 60% of our charges are Medicare patients and 10% Medicaid patients, there would be no impact on collections for 70% of our charges.

Transfer from General Fund 001 has increased to support the EMS union contract.

**Collier County Government**  
**Fiscal Year 2022 Adopted Budget**

**Administrative Services Department**

**Emergency Medical Services EMS**  
**Helicopter Operations 490**

**Mission Statement**

To provide emergency transport via helicopter for medical emergencies within Collier County and to provide mutual aid to surrounding counties when they are unable to meet their demands.

Current FY 2022:

Personal service increase is due to overtime, the Board approved compensation adjustment and deferred compensation

Since the economy has recovered MedFlight is now experiencing an increase in overall costs associated with maintaining the aircraft. In addition, MedFlight has experienced an increase in the number of patients flown each year for the past several years. Services for parts and labor have all increased over the past several fiscal years. The proposed budget reflects these changes.

It must be noted that helicopter maintenance is a constant expenditure that continues to grow with the age of the original aircraft and the addition of the new aircraft. This budget includes funding for scheduled, routine maintenance, however, should a major unfunded repair be needed, the Board will be asked to utilize General Fund (001) reserves for funding.

The maintenance department will be filling a vacant mechanic position. The mechanic is necessary to eliminate reliance on outsourcing aircraft mechanics and reduce out-of-service time with having 1-full time mechanic. Federal Aviation Administration and CAMTS requires all mechanics to attend factory training on the aircraft, engines, night vision equipment, and Human Factors training. The added expense for travel related items as well as tuition is reflected in the FY22 budget.

Helicopter Operations has completed the process to purchase a new H135 aircraft, delivery was made in FY21 (Oct 2020). Line items for maintaining/insuring the newly acquired helicopter as well as the old aircraft are included. We will hold onto the current aircraft for approximately 12 months; after the new aircraft has been put into service to ensure there are no issues, the old aircraft will be sold; estimated value is \$1 million.

**Emergency Medical Services EMS**  
**EMS Motor Pool and Capital Fund (491)**

Forecast FY 2021:

Helicopter Operations has completed the process to purchase a new H135 aircraft with delivery made October 2020 (FY21).

Current FY 2022:

Capital outlay includes the following projects:

\$ 100,000 Asset Mgt (Funded Program # 50105)  
\$ 50,000 Misc Capital (Funded Program # 31392)  
\$1,070,000 Power Load Stretchers (Fund Program # 50236)

\$122,000 Reserve for Contingencies  
\$422,300 Reserve for Future Capital Replacements  
\$500,000 Reserve for Helicopter Replacement

A helicopter replacement reserve has been established and will be funded \$500,000 per year.

**Administrative Services Department**

**Emergency Medical Services EMS**  
**EMS Grant Trust Fund (493/494)**

**Notes:**

This fund is used for annual and discretionary EMS grant programs as well as one-time purchases approved by the Board. At such time notifications are received from the grantor agency indicating the grant award amount, the grant will be brought to the Board for approval and acceptance along with a budget amendment to recognize and appropriate the funds. Any other approved projects or one-time purchases will be approved and budgets entered as needed.

**Forecast FY 2021:**

All of the grants have contract periods that overlap fiscal years. This forecast includes the following grant award from the Florida Department of Health:

\$254,800 EMS Cnty Grant Pgrm – 33655  
\$240,600 EMS Cares Act Prp – 33684  
\$567,600 FDOT Fire Station - 33356  
Grand Total - \$1,063,000

**Current FY 2022:**

FDOT successfully executed an interlocal (funding) agreement with GNFD. At which point Collier County continues to provide EMS services associated with the mile marker 63 fire station and is reimbursed for associated costs through coordination with GNFD henceforth the need to budget personal services and misc. revenue to segregate costs.

**Revenues:**

On November 9, 2020 we received notification from FDOT thru GNFD that due to the decline of toll revenues on Alligator Alley due to Covid and the higher than projected costs associated with the department's upcoming pavement renewal and replacement work; the department does not anticipate that any toll revenue would be available to make payments to the Fire District per the interlocal (funding) agreement with GNFD.

A transfer from Fund 490 EMS has been budgeted to cover the shortfall 100% until which time we receive notification from FDOT/GNFD that they will resume to make payments to the Fire District. As such the transfer amount has increased to cover both the shortfall and FY22. Once we receive that notification, Fund 490 EMS will resume to cover only the 10% local match required by Florida Statute Section 338.26(3), Chapter 2019-153 for EMS services associated with Mile Marker 63.

**Administrative Services Department**

**Fire Districts**

**Ochopee Fire Control District MSTU (146)**

**Notes:**

It remains the intent of the Board of County Commissioners (BCC) and the Greater Naples Fire Rescue District (GNFRD) to consolidate the Ochopee Fire Control MSTU into Greater Naples and this process is governed by an intergovernmental management agreement which the BCC originally adopted on 9/13/16 Item 11B effective 11/1/16. This original management agreement extended through 9/30/19. Primarily due to challenges in securing a permanent funding source for Station 63 the Greater Naples and Ochopee Fire District did not consolidate by 09/30/19. The BCC adopted on 03/23/20 Item 16.E.3 a new agreement effective 03/01/20. This management agreement extends through 09/30/2033. Greater Naples agrees to initiate legislation to expand the Greater Naples' boundaries to include the Ochopee Fire Control District ("consolidation") no later than the 2022 Florida legislative session.

Currently discussions are ongoing between the parties to revise the legislative timelines because an annexation and consolidation bill was not introduced in the 2021 legislative session. Further changes to the management agreement covering service subsidies are also being considered.

**Current FY 2022:**

Remittances to Others is to cover the monthly payment to Greater Naples, except for the Indirect cost reimbursement of \$8,200.

**Revenues:**

Budgeted ad valorem tax revenue is based on the Ochopee Fire Control District taxable value of \$344,059,248 which represents a 5.44% increase from FY21. A 4.0000 mill tax levy is proposed and is decreased 0.5000 mills per the intergovernmental management agreement that the BCC approved on 09/13/16 which states that when the loan to Collier County is paid in full the millage rate will be reduced to 4.0 mills. This levy will provide an estimated \$1,376,200 in tax revenues. The rolled back rate is a millage of 3.8738.

In spite of the increase in millage, in order to maintain minimum service levels due to years of decreased ad valorem funding and decreased carry forward from previous years, it is necessary to transfer \$565,100 from the General Fund. This transfer represents a portion of PILT tax revenue which is used to offset the loss of tax base due to the preponderance of federal lands within the District.

Current FY 2022:

This MSTU addresses fire protection services for the residents of Goodland that are provided by a contractual agreement between Collier County and the City of Marco Island. In FY21, it is estimated that the contract amount will be \$134,800. There are no reserves for contingencies.

Revenues:

Budgeted ad valorem tax revenue is based on Goodland/Hoor's Island Fire District taxable value of \$103,894,599 which represents a 9.59% increase from FY21. A 1.2760 mill tax levy is planned and will provide an estimated \$132,600 in tax revenues. The rolled back rate is a millage of 1.1764.

## **Growth Management Department**

As the county population and economy have grown, the Growth Management Department has expanded to facilitate that growth. With the mission of balancing mobility, livability, economic vitality, and environmental sensitivity through coordinated planning, regulation, construction, and maintenance programs that protect our community's character, it's paramount that these areas functions are administrated efficiently for the benefit of both staff and the public they serve. For these reasons, the department is bifurcated into two areas.

### **Community Development Services**

Administration, Planning, and most of the Regulation section of Growth Management's budget fall under the Community Development Services umbrella. Community Development Services is comprised of 6 division directors: Building Plans Review and Inspections, Code Enforcement, Development Review, Operations & Regulatory Management, Current Planning & Zoning, and Community Planning. The Community Development Services budget is approximately \$70 million, primarily administered in enterprise-based funds, with limited dependence on General Fund contributions. Those sections funded by the General Fund have met the budget guidance outlined by the County Manager's office and the Board of County Commissioners. Reserves in our enterprise funds are well established, as business has been exceptionally strong. These reserves include appropriate allowances for fees prepaid for future services. We continue to streamline our permitting process and since April, we have moved to 100% electronic permitting for all business elements. Further initiatives are underway to improve our customers' experience when making application and redesigning and simplifying application workflows on our public portal.

To assist the contractor community, a video inspection program was developed and implemented for the Building Division that allows for both recorded video inspections and live virtual video inspections. Our Code Enforcement Division remains committed to the life, safety, and well-being of the community through education, cooperation, and compliance. Our budget is adequately sized to accommodate upcoming land use activities, including current and future restudies, peer reviews to determine fiscal neutrality, master plan implementations, redistricting, and LDC amendments.

There have been no requests or approved increases in fees. Instead, the County Manager's Office and the industry have continued to challenge us, and the Board has approved numerous staff-initiated fee decreases resulting from our continued approach to enhance efficiencies. The last two decreases in fees resulted in more than two million dollars in savings annually, or greater than seven million dollars in savings to our community since FY2017.

Finally, the Community Development Services element of GMD is committed to the resiliency and long-term protection of our natural and built environments, to include the sustainability of our community and business partners. Through our efficient business practices, we have been able to maintain a reliable level of service, and as a participating community in the National Flood Insurance Program (the NFIP), Collier County will retain its current rating as a Class 5 community in the NFIP Community Rating System (CRS). The Class 5 rating has resulted in a 25 percent discount on flood insurance premiums for NFIP policies issued or renewed in Special Flood Hazard Areas on or after May 1, 2020. This savings translates into greater than \$7.8 million spread among more than 70,000 flood insurance policies within the unincorporated areas of Collier County.

We appreciate our community partners, the County Manager's agency, and the Board's continued level of support to the mission but realize that it is the ladies and gentlemen that work in all aspects of our business that make us what we are, successful.

### **Capital Planning, Construction & Maintenance**

Maintenance, Operations, a portion of Regulation, Airports and Project Management/Capital Improvement Program sections of Growth Management's budget fall under Capital Planning, Construction & Maintenance umbrella. The Capital Planning, Construction & Maintenance portion of the Growth Management Department includes five divisions: Capital Project Planning, Impact Fees & Program Management; Operations Support, Road Maintenance; and Transportation Engineering & Construction Management. These divisions manage a diverse portfolio of essential countywide capital projects, including bridge replacements, repair, and additions, new traffic signal installations and upgrades; right-of-way acquisitions; stormwater control structures and conveyance systems; beach erosion control and inlet management projects, and airport capital improvements. In addition, the Division staff are responsible for operations and maintenance of a multitude of assets, including operating three airports, landscape medians, and street lighting. Funding sources for the programs include impact fees, gas tax, general funds, airport user fees, ad valorem taxes, and grants. All Divisions have met the budget guidance outlined by the County Manager's office and the Board of County Commissioners.

## **Growth Management Department**

While the pandemic provided a relatively short-term reduction in facility usage, traffic data has proven that the County has recovered to above pre-pandemic numbers. Department staff continues to diligently manage our contractors and maintain tight fiscal controls, which have allowed the Department to achieve an enviable track record of successful project management. The maintenance section continuously scrutinizes asset management priorities utilizing the County's award-winning asset management team. The County's three airports are continuing to see record revenue increases. In FY's 22 & 23, the Department will carry forward an aggressive stormwater capital program, construction of Vanderbilt Beach Road Extension, and implementation of the Transportation Investment Generating Economic Recovery (TIGER) Immokalee Mobility project and will prepare several other major capital projects for construction such as Pine Ridge Road, Airport Road, and Collier Boulevard. In addition, continuing a variety of bridge projects, intersection improvements, roadway enhancements, stormwater improvements, and ensuring timely completion of necessary maintenance. The Department's strategic focus remains on preserving our infrastructure as we respond to the growth period where the demand for new capital project execution is accelerated.

The Department is anticipating challenges in FY 22 such as supply chain delays, project cost inflation, and a stressed labor force. The Department will continue to work with vendors to order long lead time items early in the project to mitigate project delays. In addition, staff continuously monitor costs and utilize this data to bid projects strategically. Department staff will continue to leverage state and federal funds to ensure efficient use of the County's local funding sources, including shovel-ready projects that may capitalize on national economic recovery and transportation authorization funds. Our ability to recruit, train, and retain key team members must be a top priority to achieve the County's strategic goals. In FY 22, the Department will continue to augment staffing with consultant/vendor assistance to ensure completion of the strategic objectives. The Department has and will continue to be successful because of the hard-working and dedicated individuals that work tirelessly to provide exceptional service to the residents, business owners, and visitors of Collier County.

**Forecast FY 2021:**

Personal Services are forecast to be slightly lower than the adopted FY 2021 budget due to vacancies throughout the year.

Operating Expenses are forecast to be lower due to a decrease in contracted services (inability of the professional services vendor to provide qualified candidates to perform building plans review and inspections), a reduction in technology services (land development software provider unable to complete the number of change orders requested), and the digital conversion of land development and building-related documents not operating at full capacity.

Capital Outlay is forecast to be lower due to the deferral of bathroom renovation projects.

**Current FY 2022:**

This budget includes all direct, indirect, and other major capital expenses associated with Fund (113) operations, including funding to support CityView maintenance and development and contracted professional services to meet permitting and inspection-related activities.

Personal Services are budgeted to be in line with the adopted FY 2021 budget.

Operating Expenses are expected to be higher primarily due to the addition of temporary labor and increased IT capital and automation allocation costs. This section includes budget for required building maintenance, digital record conversion of permits and plans, and increased external vendor support for further enhancements to the land development software.

Capital Outlay includes site improvements such as repaving parking areas, enhancing landscaping, renovation of bathrooms, and other required building maintenance and replacement items identified by Facilities Management.

**Revenues:**

Staff recognizes the continued volatility of development industry activity and will continue to focus on market conditions, capturing efficiencies, and maintaining a conservative approach to business operations and revenue forecasting. Revenue is budgeted to increase in FY 2022 and is in line with FY 2020 levels. Revenue associated with building permit activity did not decrease in FY 2021 as was anticipated due to the COVID-19 pandemic impact on the industry.

**Growth Management Department**

**Administration**

**Planning & Regulatory Administration (131)**

Forecast FY 2021:

Operating Expenses are forecast to be in line with the adopted FY 2021 budget.

Current FY 2022:

Overall Expenses are budgeted to be in line with the adopted FY 2021 budget.

Capital Outlay expenditures are budgeted to decrease due to a change in the threshold of a capital asset from \$1,000 to \$5,000. Items such as replacement computers, network printers, and hardware upgrades are now budgeted out of Operating Expenses.

Revenues:

Revenue is projected to decrease in the coming year primarily due to a reduction in small-scale growth management plan amendments.

**Collier County Government  
Fiscal Year 2022 Adopted Budget**

**Growth Management Department**

**Administration**

**Planning & Regulatory Admin/FEMA Expenses (111)**

**Mission Statement**

To collaborate with FEMA representatives addressing County objections to the revised FEMA flood insurance rate maps and more importantly to obtain the needed engineering, scientific and topographic data to improve the accuracy of the flood maps for the residents and property owners of Collier County and to implement the County's floodplain management plan and oversee the Community Rating system.

**Growth Management Department**

**Administration**

**Planning & Regulatory Admin/FEMA Expenses (111)**

**Notes:**

This section assists with maintaining the Community Rating System (CRS) program, contract expenses related to the continuation of Physical Map Revisions 1 and 2, FEMA's Southwest Florida Coastal Flood Study, and responding to comments from FEMA.

This budget also provides funding for the update to the Floodplain Management Plan, which is a requirement of the CRS program and needs to be done every five years. The spending in this budget depends on FEMA's ability to complete their reviews submitted by County staff for the Physical Map Revisions and the Coastal Flood Study.

**Forecast FY 2021:**

Personal Services and Operating Expenses are forecast to be lower as the temporary labor expense was moved to General Planning Services (111).

**Current FY 2022:**

Personal Services and Operating Expenses are budgeted to be in line with the adopted FY 2021 budget.

Capital Outlay budget has been reduced to zero due to a change in the threshold of a capital asset from \$1,000 to \$5,000.

**Collier County Government  
Fiscal Year 2022 Adopted Budget**

**Growth Management Department**

**Administration  
Records Management (113)**

**Mission Statement**

This section primarily supports the Growth Management Department (GMD) with adhering to the storage and retrieval requirements of the Florida Department of State and Chapter 119 of the Florida Statutes, and provides for secure digital conversion of hard copied blueprints, development plans, documents, and photographs into indexed digital images for systematic storage and recovery to citizens, developers, property owners, and other agencies.

**Growth Management Department**

**Administration  
Records Management (113)**

**Forecast FY 2021:**

Personal Services and Operating Expenses are forecast to be lower due to reduced office equipment & furniture, copying charges, and contractual services charges.

Capital Outlay forecast is set to zero as expenses for plotters and wide-bodied scanners were deferred until FY 2022.

**Current FY 2022:**

Personal Services are budgeted to increase slightly in line with the general wage adjustment.

Operating Expenses are budgeted to be lower due to reduced office equipment & furniture, copying charges, and contractual services charges.

Capital Outlay includes plotters and wide-bodied scanners to aid in the digitizing project.

**Collier County Government  
Fiscal Year 2022 Adopted Budget**

**Growth Management Department**

**Administration  
Addressing and GIS (113)**

**Mission Statement**

To provide addressing, GIS, and CAD mapping support services to the general public as well as local, state, and federal agencies. Provide project management and technical support to the Growth Management Department; and on a contract basis, provide GIS and/or CAD mapping services to other County divisions, and/or other government agencies.

| Program Summary                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   | FY 2022<br>Total FTE | FY 2022<br>Budget | FY 2022<br>Revenues | FY 2022<br>Net Cost |

Forecast FY 2021:

Personal Services are forecast to decrease due to two vacancies during the year.

Operating Expenses are forecast to decrease as two AutoCAD licenses were removed.

Current FY 2022:

Personal Services will decrease as one of the vacancies was filled at a lower salary.

Operating Expenses are budgeted to be in line with the adopted FY 2021 budget.

Capital Outlay budget has been reduced to zero due to a change in the threshold of a capital asset from \$1,000 to \$5,000.

**Collier County Government  
Fiscal Year 2022 Adopted Budget**

**Growth Management Department**

**Planning**

**General Planning Services (111)**

**Mission Statement**

It is this section's responsibility to perform comprehensive community-specific long range planning functions and activities for Collier County consistent with State and Board of County Commissioners planning initiatives, as outlined in the County's Growth Management Plan (GMP), and as mandated by pertinent Florida Statutes and the Florida Administrative Code (F.A.C.); provide planning technical assistance and interpret the GMP for various agencies, divisions and organizations within County government and the community; as well as basic planning support for general public questions, limited plan review, and assistance to the Building Division and Zoning Section.

| <b>Program Summary</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            | <b>FY 2022<br/>Total FTE</b> | <b>FY 2022<br/>Budget</b> | <b>FY 2022<br/>Revenues</b> | <b>FY 2022<br/>Net Cost</b> |

**Forecast FY 2021:**

Personal Services are forecast to be lower due to long-term vacancies throughout the year.

Operating Expenses are forecast to be higher due to the temporary labor expense being moved to this section from Planning & Regulatory Admin/FEMA Expenses (111) and an increase in court-reporting services.

**Current FY 2022:**

Personal Services are budgeted to be lower due to filling two vacant positions at lower salaries.

Operating Expenses are budgeted to increase due to temporary labor costs being moved to this section from Planning & Regulatory Admin/FEMA Expenses (111) and an increase in court-reporting services. Other expenditures are programmed for peer reviews to determine fiscal neutrality and Board-approved projects such as the East Naples Community Development Plan implementation, the Immokalee Master Plan Policy Implementation, Redistricting activities, and LDC amendments.

**Mission Statement**

The purpose of this section is to provide accurate, expeditious, and courteous service to the general public regarding land planning issues and general questions, issuance of various plan approvals and permits, and assistance to the Growth Management Department (GMD) Business Center. This section also provides the necessary oversight to amendments to the Land Development Code (LDC) to ensure compliance with State Statute and the Florida Comprehensive Planning Regulations and to protect the welfare of the general public and resources of Collier County.

**Growth Management Department**

**Planning**

**Zoning & Land Development Review (111)**

Forecast FY 2021:

Personal Services are forecast to be lower due to a long-term vacancy.

Operating Expenses are forecast to be higher due to an additional software license.

Current FY 2022:

Personal Services are budgeted to be higher due to filling a vacant position at a higher salary.

Operating Expenses are budgeted to be lower due to lower IT capital and automation allocation costs.

**Collier County Government  
Fiscal Year 2022 Adopted Budget**

**Growth Management Department**

**Planning**

**Zoning & Land Development Review (131)**

**Mission Statement**

The mission of this section is to review and provide recommendations for all land use petitions such as rezones, PUDs and conditional uses consistent with the Land Development Code (LDC) and Growth Management Plan (GMP) and as required by Chapter 163, Part II, Florida Statutes, and to ensure proper public input through the BCC, the Collier County Planning Commission (CCPC) and other BCC-appointed advisory committees.

**Forecast FY 2021:**

Personal Services are forecast to be lower due to several employee vacancies. The decrease in Personal Services is partially offset by an additional FTE (Project Manager) forecast for all of FY 2021, as a transfer for this FTE to another section was programmed in the adopted FY 2021 budget but did not occur.

Operating Expenses are forecast to be in line with the adopted FY 2021 budget.

**Current FY 2022:**

Personal Services are budgeted to be lower due to the anticipated hiring of vacant positions at base pay. The additional FTE (Project Manager) forecast in FY 2021 will transfer to Engineering Services (131) in FY 2022.

Operating Expenses are budgeted to be higher due to an anticipated increase in consulting services required for LDC changes, planning services for engineering and architectural services, peer reviews to determine fiscal neutrality, a comprehensive plan update, and contracting services for studies.

**Revenues:**

Revenue is budgeted to increase in FY 2022 and is in line with FY 2020 levels. Revenue associated with Planning and Zoning petitions did not decrease in FY 2021 as was anticipated due to the COVID-19 pandemic impact on the industry.

Fiscal Year 2022 Adopted Budget**

**Growth Management Department**

**Planning**

**Land Use Hearing Officer (131)**

**Mission Statement**

The Office of the Hearing Examiner will carry out the policy direction of the Board of County Commissioners (Board) related to growth management and land development through implementation of the Growth Management Plan's (GMP) goals, policies, and objectives specifically through hearing and issuing decisions and recommendations for local land use and zoning petitions consistent with the Land Development Code (LDC).

| <b>Program Summary</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  | <b>FY 2022<br/>Total FTE</b> | <b>FY 2022<br/>Budget</b> | <b>FY 2022<br/>Revenues</b> | <b>FY 2022<br/>Net Cost</b> |

**Forecast FY 2021:**

Overall expenses are forecast to be higher due to increased legal advertising and court reporter services and a switch from employing a full-time County employee Hearing Examiner to a contracted vendor Hearing Examiner. The County employee Hearing Examiner position was vacated on February 1, 2020. The contracted vendor Hearing Examiner started on July 14, 2021.

**Current FY 2022:**

Personal Services are budgeted to be lower due to the FTE for the contracted vendor Hearing Examiner being filled by a lower-paid administrative employee.

Operating Expenses are budgeted to be higher due to increased legal advertising and court reporter services and a switch from employing a full-time County employee Hearing Examiner to a contracted vendor Hearing Examiner.

**Growth Management Department**

**Regulation**

**Building Review & Permitting (113)**

**Mission Statement**

The purpose of this section is to provide fast, efficient, courteous customer service to residents, property owners, visitors, and licensed development professionals with the review and issuance of permits and to provide quality, timely inspections for all construction projects, while adhering to the Florida Building Code, and to prevent unlicensed and unscrupulous contractors from harming the public.

| <b>Program Summary</b>                                                                                                                                                                                                                                                         | <b>FY 2022<br/>Total FTE</b> | <b>FY 2022<br/>Budget</b> | <b>FY 2022<br/>Revenues</b> | <b>FY 2022<br/>Net Cost</b> |

**Growth Management Department**

**Regulation**

**Building Review & Permitting (113)**

**Forecast FY 2021:**

Personal Services are forecast to be lower than the adopted FY 2021 budget due to employee vacancies, mostly building inspectors and plans reviewers, and reduced overtime.

Operating Expenses are forecast to be lower as cost savings were realized through an analysis of cell phone usage and realignment of expenditures to other cost centers.

Capital Outlay forecast has been reduced to zero due to a change in the threshold of a capital asset from \$1,000 to \$5,000.

**Current FY 2022:**

Personal Services are budgeted to be higher primarily due to a Business Center Project Coordinator transferring from Code Enforcement (111) to this area. This FTE has been performing 75% of his work in this area in the past. The remaining 25% was spent supporting Code Enforcement activities, which was offset via an intergovernmental charge. With this realignment, the FTE will be paid out of the same cost center as the other Business Center Project Coordinators, and this will improve the payroll and reporting structure. An offset is programmed for reimbursing this area from Code Enforcement (111).

Operating Expenses are in line with the adopted FY 2021 budget.

Capital Outlay budget has been reduced to zero due to a change in the threshold of a capital asset from \$1,000 to \$5,000.

## **Growth Management Department**

### **Regulation** **Code Enforcement (111)**

**Notes:**

Code Enforcement is a community health, safety, and welfare-focused function that is not intended to perform as a revenue-centric business model. Revenues from fines and forfeitures are shown as part of the Code Enforcement budget but are not primarily intended to support the Division's operational costs. Charges for abatement activities and fees for lien searches are assessed to recover incurred costs.

**Forecast FY 2021:**

Personal Services are forecast to be lower due to employee vacancies, hiring new staff at base pay, and a mid-year transfer of a Customer Service Specialist to the Construction & Maintenance Administration Office (101).

Operating Expenses are forecast to be lower due to reduced abatement and demolition activity, reduced cell phone billing, decreased training activity, and reduced demand for office supplies.

**Current FY 2022:**

Personal Services are budgeted to be lower due to two positions transferring to other areas, a Customer Service Specialist to the Construction & Maintenance Administration Office (101) that occurred mid-year and a Business Center Project Coordinator to Building Review and Permitting (113). The Business Center Project Coordinator has been performing 75% of his work in Building Review and Permitting (113) in the past. The remaining 25% was spent supporting Code Enforcement activities, which was offset via an intergovernmental charge. With this realignment, this FTE will be paid out of the same cost center as the other Business Center Project Coordinators, and this will improve the payroll and reporting structure. An offset is programmed for reimbursing Building Review and Permitting (113) from Code Enforcement.

Operating Expenses are budgeted to be higher due to an increase in temporary labor and IT capital and automation allocation costs.

Capital Outlay budget has been reduced to zero due to a change in the threshold of a capital asset from \$1,000 to \$5,000.

**Revenues:**

Revenue is derived from fees, fines, citations, Code Enforcement Board actions, and Special Magistrate assessed judgments and is budgeted to be slightly lower, primarily due to reduced Special Magistrate fines and citation activity.

**Collier County Government  
Fiscal Year 2022 Adopted Budget**

**Growth Management Department**

**Regulation**

**Right-of-way Permit & Inspections (131)**

**Mission Statement**

To provide a fast, efficient process for the review, issuance and inspection of infrastructure of right-of-way permits in compliance with Florida Administrative Code, regulations and codes, adopted by the Board of County Commissioners as set forth in governing ordinances.

Forecast FY 2021:

Personal Services and Operating Expenses are forecast to be in line with the adopted FY 2021 budget.

Current FY 2022:

Personal Services are budgeted to be slightly higher due to the general wage adjustment.

Operating Expenses are budgeted increase due to higher IT and Fleet charges.

**Collier County Government  
Fiscal Year 2022 Adopted Budget**

**Growth Management Department**

**Regulation**

**Business Franchise Administration Element (111)**

**Mission Statement**

To administer telecommunications licenses to cable franchises, monitor and procure associated fees, enforce customer service standards as they relate to franchise terms.

**Growth Management Department**

**Regulation**

**Business Franchise Administration Element (111)**

**Forecast FY 2021:**

Personal Services are forecast to be lower due to the only employee in this section being placed on a “no-pay” status.

Operating Expenses are forecast to be lower due to a reduction in professional services.

Capital Outlay forecast has been reduced to zero due to a change in the threshold of a capital asset from \$1,000 to \$5,000.

**Current FY 2022:**

Personal Services are budgeted to be slightly higher due to the general wage adjustment.

Operating Expenses are budgeted to be slightly higher due to an increase in professional services.

Capital Outlay budget has been reduced to zero due to a change in the threshold of a capital asset from \$1,000 to \$5,000.

This budget includes an interdepartmental service payment for program administration and oversight by the Utilities Regulation Fund (669) staff.

**Collier County Government  
Fiscal Year 2022 Adopted Budget**

**Growth Management Department**

**Regulation**

**Utility Regulations Fund (669)**

**Mission Statement**

To provide effective and efficient regulation of privately owned water, bulk water, and wastewater utilities, providing service within the unincorporated areas of Collier County and the timely resolution of customer inquiries pertaining to quality utility service.

| Program Summary                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    | FY 2022<br>Total FTE | FY 2022<br>Budget       | FY 2022<br>Revenues     | FY 2022<br>Net Cost |

**Forecast FY 2021:**

Personal Services are forecast to decrease due to a long-term vacancy.

Operating Expenses are forecast to be lower due to lower than anticipated contractor expenses for rate cases.

**Current FY 2022:**

Personal Services are budgeted to be slightly higher due to the general wage adjustment.

Operating Expenses are budgeted to be higher due to an increase in IT capital and automation allocation costs and the addition of two CityView licenses.

**Revenues:**

This fund is a revenue-centric operation that receives franchise fees for regulatory duties and an interdepartmental reimbursement for administrative work performed by programmed staff. Revenues for the remaining two utilities regulated by this section, Ave Maria Utility Company and North Marco Utility Company, are expected to increase slightly, reflecting Ave Maria's growth in their customer base.

**Growth Management Department**

**Regulation**

**Transportation Development Review and Concurrency Mgt (101)**

Forecast FY 2021:

Personal Services are forecast lower than the adopted FY 2021 budget due to a vacant Senior Project Manager.

Operating Expense are forecast slightly lower than the adopted FY 2021 budget due to a reduction in Out of County Travel resulting from the COVID 19 global pandemic.

Capital Outlay forecast has been reduced to zero due to a change in the threshold of a capital asset from \$1,000 to \$5,000 dollars.

Current FY 2022:

Personal Services decrease is related to vacated positions budgeted at classification minimum.

Operating Expenses increase is due to increases in IT costs and a change in the threshold of a capital asset from \$1,000 to \$5,000 dollars.

| Program staff includes the County Engineer, Section Manager of the Engineering Review and Inspection Section, and the County Surveyor. Provides for the technical review and approval of plans for subdivisions, SDP's, SIP's and insubstantial changes; processes and issues excavation permits, blasting permits, lot-line adjustments, easement vacations and other minor approvals. Processes requests for utility conveyances. Manages preliminary and final acceptances of subdivisions, including the processing of performance securities. |                              |                           |                             |                             |
| <b>Engineering Inspections</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     | 6.00                         | 860,000                   | 2,700,000                   | -1,840,000                  |
| Provides for the inspections of infrastructure construction for subdivisions and site improvement plans, including inspections for preliminary acceptances and utility conveyances. Inspects all single family and commercial units for drainage and landscaping, features not required by the Florida Building Code. Conducts well inspections.                                                                                                                                                                                                   |                              |                           |                             |                             |

**Forecast FY 2021:**

Personal Services are forecast to decrease due to employee vacancies, the resignation of senior-level staff, and a mid-year transfer of an Associate Site Plans Reviewer to Transportation Development Review (101).

Operating Expenses are forecast to increase due to increased usage of contracted services.

**Current FY 2022:**

Personal Services are budgeted to increase due to hiring a senior staff member and the general wage adjustment. A Project Manager is being transferred from Zoning & Land Development Services (131).

Operating Expenses are budgeted to increase due to an anticipated need for increased contracted engineering inspection services, additional temporary labor, and increased IT and Fleet charges.

Capital expenses are in line with past historical spending.

**Revenues:**

Revenue is budgeted to increase in FY 2022 and is in line with FY 2020 levels. Revenue associated with land development permits and inspections did not decrease in FY 2021 as was anticipated due to the COVID-19 pandemic impact on the industry.

**Growth Management Department**

**Regulation  
Environmental Services (111)**

**Forecast FY 2021:**

Operating Expense is forecast to be slightly below the FY 2021 budget due to savings in other contractual services, travel and boat maintenance.

**Current FY 2022:**

Personal Services are budgeted to increase in line with the general wage adjustment.

Operating expenses have increased due to IT costs.

**Collier County Government  
Fiscal Year 2022 Adopted Budget**

**Notes:**

On December 10, 2013, the Board accepted a Memorandum of Understanding with the Community Foundation of Collier County. The Community Foundation of Collier County donations may be used to aid the County in construction and maintenance of artificial reefs.

**Forecast FY 2021:**

No donations are expected in FY 2021. Operating Expenses reflect an amount estimated for monitoring reefs previously constructed during FY 2016.

**Current FY 2022:**

Operating Expenses may be utilized for monitoring and maintaining artificial reefs. Should revenues be received to efficiently build more structures, additional expenses may be incurred.

**Revenues:**

As revenues are received, which may include naming rights for reefs, they will accumulate within this fund to be used efficiently for future projects.

**Growth Management Department**

**Regulation**

**Planning / Environmental Services (131)**

Forecast FY 2021:

Personal Services are forecast to decrease due to employee vacancies.

Operating Expenses are forecast to increase due to the funding of CityView licenses.

Current FY 2022:

Personal Services are budgeted to increase in line with the general wage adjustment.

Operating expenses are budgeted to increase due to additional funding for contracted labor for inspection services, CityView licenses, and higher IT charges.

**Collier County Government  
Fiscal Year 2022 Adopted Budget**

**Growth Management Department**

**Regulation**

**Water Pollution Control Fund (114)**

**Mission Statement**

To proactively plan, develop, and efficiently implement programs and projects that protect the safety, health and welfare of the community and its environment with a focus on the protection of Collier County's drinking water supply from all sources of pollution. Protection of Collier County's groundwater, freshwater, surface water and other non-tidal water resources is mandated by the Water Pollution Control Ordinance 89-20 (WPCO 89-20), the Growth Management Plan, related Board-approved contracts, agreements, and federal and state regulatory directives.

| Provides analytical, chemical and biological water quality data that is accurate, precise and reliable. Meets the mandates of Ordinance No. 1989-20; the GMP Natural Groundwater Aquifer Recharge Sub-Element Objective 3 (Groundwater Quality Monitoring) and associated policies; the GMP-Conservation and Coastal Management Element (CCME) Objectives 2.1, 2.2, and 2.3; Policies 2.1.2, 2.1.7, 2.2.4, 2.3.4, 2.3.5, 2.3.6; FAC 62-522, 62-550, 62-551, 62-601, 62-625, 62-650, and 64E-9; and the National Environmental Laboratory Accreditation Conference. Monitors Collier County's groundwater and surface water quality. In addition to Collier County's program, includes ground and surface water quality monitoring and /or analysis for the South Florida Water Management District (SFWMD); Lake Trafford, City of Marco, City of Naples, Pelican Bay Services, Water and Wastewater Departments, Lely Area Stormwater Improvement Project (LASIP) permit monitoring; Florida Department of Health, Environmental Health and Engineering, Big Cypress National Park; etc. and red tide sampling and community notification. |                              |                           |                             |                             |

## **Growth Management Department**

### **Regulation**

#### **Water Pollution Control Fund (114)**

**Notes:**

Ordinance 89-20 allows up to one tenth of a mill of Ad-Valorem revenue to be levied towards a Water Pollution Control Fund. The proposed FY 2022 budget, in compliance with FY 2022 Budget Policy, remains millage neutral (0.0293 mil) and well below the 0.1 mil allowed by referendum.

**Forecast FY 2021:**

Personal Services are forecast lower than the adopted FY 2021 budget due to a vacated position and subsequent onboarding at a lower salary.

Operating Expenses are forecast to be lower due to a decrease in other contractual services, other operating supplies and a reduction in marketing and promotional activities.

Capital Outlay Expenses are forecast to be lower than the adopted FY 2021 budget due to the purchase of lab equipment within Capital Project Fund (301) and a change in the threshold of a capital asset from \$1,000 to \$5,000.

**Current FY 2022:**

Personal Services are budgeted to increase in line with the general wage adjustment.

Operating Expenses budgeted increases are a result shifting expenses due to the threshold of a capital asset from \$1000 to \$5000 and increases in other contractual services related to surface water and the private well ground studies that are due every five (5) years to maintain Pollution Control's services.

Capital Outlay has decreased due to an increase in the threshold of a capital asset from \$1000 to \$5000. Capital Outlay also includes the replacement of critical lab equipment and improvements which have been budgeted within the Countywide Capital Project Fund (301) and has been reflected in the transfer portion of the budget.

**Revenues:**

Taxable value for this countywide district function is \$104,755,223,016 an increase of 5.64% over last year. Based upon a millage neutral position, property tax revenue will total \$3,069,300 an increase of \$173,200 over the FY 2021 levy.

Fiscal Year 2022 Adopted Budget**

**Growth Management Department**

**Regulation**

**Intersection Safety Program (001)**

**Mission Statement**

The purpose of the Intersection Safety Program is to encourage vehicle owners to obey traffic control devices at Collier County intersections through the use of Traffic Infraction Detectors (unmanned cameras) to improve safety by lowering the number of traffic accidents caused by red light running.

## **Growth Management Department**

### **Maintenance**

#### **Landscape & MSTU's Operations (111)**

**Notes:**

With Board direction to reset the Unincorporated Area General Fund millage rate to the FY 2007 level of \$.8069, and applying the marginal increase, or \$.0908 mills, to continue funding the median landscape program, only direct personnel expenses associated with this initiative will be shown in this section. It should be noted that the full variance or \$.0908 from the current millage rate of \$.7161 has temporarily shifted to solely funding the maintenance program after three years of constructing capital medians deferred during the recession. The operating millage of \$.7161 will be used to fund reserves at policy levels and fund recurring operations and capital transfers. The maintenance costs associated with the current 121.9 landscaped lane miles are shown in the Landscaping Capital Fund (112) section of the budget.

**Forecast FY 2021:**

Personal Services are expected to be slightly less than the adopted FY 2021 budget due the transfer of one (1) FTE, a Principal Project Manager, to Stormwater Engineering mid-year.

Operating Expenses are expected to be slightly lower than FY 2021 budgeted levels due to savings in other contractual services.

**Current FY 2022:**

Personal Services decrease is a result the transfer of one (1) FTE, a Principal Project Manager, to Stormwater Engineering which is partially offset by the general wage adjustment.

Operating Expenses increased due to increases in IT, Motor Pool Capital and Fleet Management charges.

Capital Expenses include the purchase of replacement landscaping equipment.

**Collier County Government  
Fiscal Year 2022 Adopted Budget**

**Growth Management Department**

**Maintenance**

**Trans Maintenance Road & Bridge (101)**

**Mission Statement**

The Road Maintenance Division strives to maintain a safe and efficient county roadway system for the citizens and visitors of Collier County in support of Florida Statute Chapter 334.046; continually provide emergency response to all roadway/roadside hazards 24 hours per day, 7 days a week; provide continued road service and customer service that exceeds expectations.

| <b>Program Summary</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               | <b>FY 2022<br/>Total FTE</b> | <b>FY 2022<br/>Budget</b> | <b>FY 2022<br/>Revenues</b> | <b>FY 2022<br/>Net Cost</b> |

**Growth Management Department**

**Maintenance**

**Trans Maintenance Road & Bridge (101)**

**Notes:**

This budget carries the general operating costs for the division; activities in the Unincorporated Areas of the county, such as limerock road conversions, striping and marking and bridge repairs are separate cost centers within the Road & Bridge Maintenance Fund (111) as well as components of the Transportation Capital Fund (310) and Gas Tax Fund (313).

**Forecast FY 2021:**

Personal Services are slightly lower than the FY 2021 adopted budget due to savings from various vacant positions throughout the year and the transfer of two (2) Maintenance Specialists to Stormwater Maintenance from Road and Bridge offset by the transfer of one (1) Heavy Equipment Operator from Stormwater Aquatics to Road and Bridge.

Operating Expense savings are a result of lower than anticipated fuel and Fleet Management costs.

Capital Expense is forecast to increase slightly over FY 2021 budget due to the unanticipated replacement of a lowboy trailer.

**Current FY 2022:**

Personal Services are budgeted to increase as a result of the general wage adjustment and strategic position reclassifications.

Operating Expenses are budgeted to increase slightly due to IT cost and the increase in the threshold of capital assets from \$1,000 to \$5,000.

Capital Outlay reflects the purchase of small equipment not included on the Motor Pool Capital Recovery list.

**Revenues:**

Revenues budgeted are mainly interdepartmental reimbursements, insurance claim refunds and scrap sales.

**Collier County Government  
Fiscal Year 2022 Adopted Budget**

**Growth Management Department**

**Maintenance**

**Stormwater Maintenance (103)**

**Mission Statement**

To provide efficient and high quality customer service in the appropriate operation and maintenance of the publicly maintained stormwater pumping and control facilities throughout Collier County.

## **Growth Management Department**

### **Maintenance**

#### **Stormwater Maintenance (103)**

##### **Forecast FY 2021:**

Personal Services expense is expected to be under FY 2021 adopted budget due to various vacancies throughout the year and the transfer of one (1) Heavy Equipment Operator to Road and Bridge offset by the transfer of two (2) Maintenance Specialists to Stormwater Maintenance from Road and Bridge.

Operating Expenses are projected to be slightly under FY 2021 budget as a result of a reduction in trash and garbage costs associated with dumping of canal debris.

Capital Outlay is expected to exceed FY 2020 budget due to the purchase of one (1) Max Gen V mower.

##### **Current FY 2022:**

Personal Services - FY 2022 budget increases are due to the general wage adjustment, strategic position reclassifications and the transfer of two (2) Maintenance Specialists to Stormwater Maintenance from Road and Bridge offset slightly by the transfer of one (1) Heavy Equipment Operator to Road and Bridge.

Operating Expenses - FY 2022 budget increased over FY 2021 primarily due to an increase in motor pool recovery, IT costs, engineering fees and other contractual services to continue stormwater maintenance throughout the county. These increases were partially offset by anticipated decreases in trash and garbage associated with dumping of canal debris.

Capital Outlay - Budget includes the replacement of one (1) excavator.

##### **Revenues:**

\$62,500 from South Florida Water Management District (Big Cypress Basin) has been budgeted in Stormwater Operating Fund (103).

**Collier County Government  
Fiscal Year 2022 Adopted Budget**

**Growth Management Department**

**Maintenance**

**Transportation Road Maintenance (111)**

**Mission Statement**

To deliver to the citizens of Collier County quality maintained roadways, roadsides and drainage systems, providing safe roadway systems and excellent customer service. Maintenance operations are performed in support of Florida Statute Chapter 344.046.

| <b>Program Summary</b>                                                                                                                                                                                                           | <b>FY 2022<br/>Total FTE</b> | <b>FY 2022<br/>Budget</b> | <b>FY 2022<br/>Revenues</b> | <b>FY 2022<br/>Net Cost</b> |

**Growth Management Department**

**Maintenance**

**Transportation Road Maintenance (111)**

**Notes:**

This budget provides for general maintenance of Unincorporated Area roadways including: non-landscaped medians and right-of-way areas, sidewalks, curbing, drainage infrastructure, installation of sod for erosion control and minor bridge repairs.

**Forecast FY 2021:**

Operating Expenses are expected to be slightly lower than FY 2021 adopted budget due to savings in other contractual services and limerock.

**Current FY 2022:**

Requested budget has slightly increased from the prior year due anticipated increases in limerock and other operating expenses associated with the purchase of supplies.

## **Growth Management Department**

### **Improvement Districts and MSTU** **Victoria Park Drainage MSTU (134)**

#### **Current FY 2022:**

Operating Expenses are budgeted at \$7,200 and include the customary indirect cost charges, constitutional transfers and pump maintenance expenses.

Transfers - Budgeted transfers include \$22,900 transfer to Stormwater Operating Fund (103) for the partial reimbursement of pump repairs completed in FY 2021 and customary transfers to the Tax Collector and Property Appraiser.

#### **Revenues:**

Taxable value for this District in FY 2022 totals \$44,656,300, an increase of 2.88% from the prior year. Budget guidance specified that MSTU's without advisory board oversight would be limited to a rolled back rate position unless staff presents a compelling reason for additional funds. MSTU's with advisory board oversight can consider tax rates ranging from tax neutral (rolled back rate) to millage neutral depending upon program requirements and taxable values upon advisory board recommendation. This district is not represented by an advisory board. For FY 2022, the millage rate has increased .3514 from .0300 to .3814. Previously, the millage rate was held artificially low to draw down fund balance. The millage rate has been as high as .5179 in 2005. Based on the proposed budget, the required ad valorem tax levy increases \$15,700, from the adopted FY 2021 budget. This increase will allow the Victoria Park Drainage Fund (134) to reimburse Stormwater Fund (103) over the next two years for pump repairs of \$40,451.20 incurred in FY2021 and accumulate reserves for future pump repairs or replacements over the next four years.

**Collier County Government  
Fiscal Year 2022 Adopted Budget**

**Growth Management Department**

**Improvement Districts and MSTU  
Naples Production Park (Capital) MST&BU (138)**

**Mission Statement**

The Naples Production Park Municipal Service Taxing and Benefit Unit was created and established for the purpose of providing design, easement acquisition and construction for roadway, water, sewer and drainage improvements within the Unit.

**Notes:**

Funds were collected as special assessment bond proceeds within Debt Service Fund (232) and these funds are available for the benefit of this District and the Pine Ridge Industrial Park. Property owners within the districts paid their share of the assessments. Since many properties paid off their assessments early, the additional cash was used to pay off the Bonds early.

In FY 2009, there was approximately \$6 million available in the Debt Service Fund (232) which could be used for capital improvements. Growth Management staff conducted neighborhood informational meetings and determined which roadway and drainage improvement projects could be done. Improvements to this Industrial Park as well as the Pine Ridge Industrial Park commenced during FY 2009 and are complete. Residual funding is being returned to Debt Service Fund (232) in FY 2021 and FY 2022.

## **Growth Management Department**

### **Improvement Districts and MSTU** **Naples Park Drainage MSTU&BU (139)**

#### Forecast FY 2021:

Only minor operating expenses are anticipated during FY 2021 for mowing and litter removal services, in addition to customary transfers to the Property Appraiser and Tax Collector.

#### Current FY 2022:

The vast majority of fund appropriations budgeted are for contractual maintenance. Contractual maintenance dollars are available and sufficient when drainage maintenance is necessary. Typical indirect charges and constitutional transfers total \$900. No reserves are budgeted.

#### Revenues:

Taxable value is \$1,742,119,846 a 6.94% increase over the prior year. Budget guidance specified that MSTU's without advisory board oversight would be limited to a rolled back rate position unless staff presents a compelling reason for additional funds. MSTU's with advisory board oversight can consider tax rates ranging from tax neutral (rolled back rate) to millage neutral depending upon program requirements and taxable values upon advisory board recommendation. This budget is built around the rolled back rate of .0049 generating a property tax levy of \$8,500. The practice of levying the rolled back rate in an increasing taxable value environment will continue until funds are drawn for maintenance purposes.

**Collier County Government  
Fiscal Year 2022 Adopted Budget**

Current FY 2022:

Operating Expenses, including a small indirect cost payment, total \$58,300. Fund balance rolling from one year to the next is driving this budget. The tax levy for this district was discontinued in FY 2009. Available special assessment bond proceeds will be used to fund the capital improvement budget, which are shown separately within Pine Ridge Industrial Park Fund (132) and Naples Production Park Fund (138).

**Collier County Government  
Fiscal Year 2022 Adopted Budget**

**Growth Management Department**

**Improvement Districts and MSTU  
Pine Ridge Industrial Park MSTU&BU (142)**

**Mission Statement**

The Pine Ridge Industrial Park Municipal Service Taxing and Benefit Unit was created and established for the purpose of providing design, easement acquisition and construction for roadway, water, sewer and drainage improvements within the Unit.

Current FY 2022:

A land capital allocation totaling \$1,986,000 intended to purchase right-of-way necessary for construction of a roadway between J & C Boulevard and Trade Center Way as well as temporary easements required for drainage maintenance is budgeted. Incidental expenses of \$800 include Indirect Cost Reimbursement and General Insurance.

## **Growth Management Department**

### **Improvement Districts and MSTU** **Hawksridge Pumping System (154)**

#### Forecast FY 2021:

Pump replacements were made during FY 2016 and FY 2017, therefore ongoing maintenance and operational costs of the pumping station comprise the majority of forecasted expenses.

#### Current FY 2022:

Appropriations include dollars to maintain and repair pump station equipment. Incidental expenses include Indirect Costs and the customary Property Appraiser and Tax Collector transfers.

#### Revenues:

Taxable value for this District totals \$78,962,989 an increase of 3.12% over the prior year. Budget guidance specified that MSTU's without advisory board oversight would be limited to a rolled back rate position unless staff presents a compelling reason for additional funds. MSTU's with advisory board oversight can consider tax rates ranging from tax neutral (rolled back rate) to millage neutral depending upon program requirements and taxable values upon advisory board recommendation. There is no advisory board for this MSTU. This budget is built around the rolled back tax rate of .0354 generating a property tax levy of \$2,800.

**Forecast FY 2021:**

Personal Services are forecast to increase over FY 2021 adopted budget due to the transfer and reclassification of one (1) FTE from Code Enforcement to Administration as a Grants Coordinator and from another transfer of a Deputy Department Head position from the Public Utilities Department - Administration Division.

Operating Expenses are in line with FY 2021 budget.

Capital Outlay forecast is lower than the adopted FY 2021 budget due to an increase in the capital asset threshold from \$1,000 to \$5,000.

**Current FY 2022:**

Personal Services increased due a transfer of one (1) FTE's from Code Enforcement Administration and one (1) from Public Utilities - Administration in FY 2021 along with a general wage adjustment.

Operating Expense reductions in utilities, out of county travel, and other contractual services are partially offset by increases in temporary labor and indirect costs.

**Revenues:**

Forecasted Intergovernmental Revenues in FY 2021 are expected to decrease due to downward trend in Motor Fuel Tax Rebates.

**Growth Management Department**

**Operations**

**Project Management Support (101)**

Forecast FY 2021:

Personal Services are expected to be slightly lower than the FY 2021 budget due to a vacancy filled at a lower than budgeted rate of pay.

Operating Expenses are forecast lower than FY 2021 budget due to a vacant contract position.

Capital Outlay forecast is lower than FY 2021 budget due to an increase in the threshold for a capital asset increasing from \$1,000 to \$5,000.

Current FY 2022:

Personal Services increased due to general wage adjustment.

Operating Expense decreased due to a reduction of a contract position offset slightly by an increase in IT charges.

Capital Outlay decrease as the threshold for a capital asset increased from \$1,000 to \$5,000.

**Collier County Government  
Fiscal Year 2022 Adopted Budget**

**Growth Management Department**

**Operations**

**Traffic Operations Division (101)**

**Mission Statement**

To maintain the safety and efficiency of county roadways and signal network through sound engineering principles and effective maintenance.

## **Growth Management Department**

### **Operations**

#### **Traffic Operations Division (101)**

**Forecast FY 2021:**

Personal Services are forecast below FY 2021 budget as result of vacancies and onboarding at lower salaries.

Operating Expense forecast is projected to be less than FY 2021 budget due to savings in electricity resulting from LED streetlight upgrades.

Capital Outlay is forecast to increase over FY 2021 budget as a result of increased needs for traffic signal equipment, roadway lighting supplies and equipment purchases for the infrastructure in the Traffic Management Center.

**Current FY 2022:**

Personal Services reflect a general wage adjustment.

Operating Expense decreased slightly due to lower budgeted utilities resulting from LED streetlight upgrades.

Capital Outlay includes funding for replacement of four (4) audible peds, five (5) signal cabinets, five (5) UPS cabinets, equipment for traffic signals, and TMC server room backup equipment.

**Revenues:**

The majority of forecasted and budgeted revenues include contractually obligated reimbursements from the Florida Department of Transportation (FDOT) for the maintenance of state road streetlights and traffic signals.

**Collier County Government**  
**Fiscal Year 2022 Adopted Budget**

**Growth Management Department**

**Operations**

**Street Lighting Districts Fund (760)**

**Mission Statement**

To provide street lights to residential and commercial areas that do not meet the requirements for arterial level roadway lighting. Installation, maintenance and operation costs for the street lights will be paid for through the County Board approved taxing district.

## **Growth Management Department**

### **Operations**

#### **Street Lighting Districts Fund (760)**

**Notes:**

Overall department expenditures are forecast below budget with the vast majority of expenses connected with the cost of electricity. The number of street lights within the district are steadily increasing, however, new and replacement lights are more energy efficient than in the past, leading to fairly stable electricity costs. The millage rate for this district increased substantially in FY 2015 to cover the increased cost of electricity and repay Fund (101), which subsidized the cost of electricity in FY 2013 \$86,147 and FY 2014 \$83,738. A transfer to Fund (101) was made in FY 2015, FY 2016 and FY 2017. Full repayment of the Fund (101) advance was completed in FY 2017. Electricity accounts for over 94% of forecast expenditures.

**Forecast FY 2021:**

Operating Expense is forecast below FY 2021 budget due to savings in electricity from LED conversions.

**Current FY 2022:**

The FY 2022 budget includes \$792,000 for electricity, \$100,000 for street lighting maintenance and new lighting installation, general insurance of \$3,600, indirect costs of \$5,300, as well as customary transfers to the Property Appraiser and Tax Collector. Purchase of electricity comprises the vast majority of programmed expenses. To avoid the need for future advances such as those required in FY 2013 and 2014, and protect against any electrical rate increases, a general capital reserve is programmed.

**Revenues:**

Taxable value for this district totals \$6,783,201,835 which represents a 6.76 % increase from last year's value. The millage neutral rate is 0.1391 per \$1,000 of taxable value. Due to increasing taxable value and an improving cash position, the rolled back millage rate of 0.1315 is proposed and this rate will raise \$892,000. The Fund's cash position at the beginning of FY2020 (9/30/19) totaled \$388,000. Cash at 9/30/2020, the beginning of FY21, totaled \$508,800 and budgeted fund balance at 9/30/21 is estimated at \$596,900. The cash position for this Fund will be monitored continually, but it is expected that the rolled back rate can be levied assuming taxable value continues to increase.

**Growth Management Department**

**Operations**

**Metropolitan Planning Org MPO (128)**

**Notes:**

The MPO annual budget, like other grant funded budgets, is approved by the Board of County Commissioners through the budget amendment process rather than the annual budget process. The current year funding cycle of grants are administered in the Transportation Grant Funds 711/712.

**Revenues:**

MPO local funds are programmed at \$8,000 for lobbying or any other activities that cannot be funded with annual Federal and State revenues, such as the preparation of resolutions in support of or opposition to Federal and State legislation. Due to a strict interpretation of what constitutes lobbying, each member agency of the MPO has been asked to contribute \$1,000 per voting member for such activities. The BCC is requested to contribute \$5,000, while the City of Naples, City of Marco Island and Everglades City are requested to contribute \$2,000, \$1,000 and \$0, respectively, as approved by the MPO Board on May 14, 2010.

The transfer from the MSTD General Fund (111) of \$5,000 is subject to review by OMB prior to execution, only the amount spent, up to \$5,000 will be transferred. The transfer is budgeted in the MPO Operating Fund (128).

**Collier County Government  
Fiscal Year 2022 Adopted Budget**

**Growth Management Department**

**Project Management  
Transportation Engineering Division (101)**

**Mission Statement**

Assist in planning, roadway design, roadway permitting, roadway construction, and miscellaneous special projects to meet service levels established by the County Growth Management Plan and established by budget approval actions of the Board of County Commissioners. To provide supervision, engineering, and coordination to ensure Division roadway projects are designed and constructed in a timely, efficient, and economical manner.

| The CEI section is responsible for construction inspection and management of roadway projects. Among the functions of this unit are project administration, scheduling, utilities, drainage, asphalt and earthwork inspections. Staff of this unit ensures that the work is done in accordance with plans and specifications. With reduced workload, CEI is being done with in-house staff at a considerable savings. |                              |                           |                             |                             |

**Forecast FY 2021:**

Personal Services are forecast to be less than FY 2021 budget as a result of vacant positions throughout the year.

Operating Expense is anticipated to be less than the adopted FY 2021 budget due to savings related to training and contract staffing.

Capital Outlay is forecast below FY 2021 budget as a result of an increase to the threshold of a capital asset from \$1,000 to \$5,000.

**Current FY 2022:**

Personal Service increase in line with general wage adjustment.

Operating Expenses have increased due to IT cost and other contractual services.

Capital Outlay has decreased as a result of an increase to the threshold of a capital asset from \$1,000 to \$5,000.

**Forecast FY 2021:**

Personal Services are forecast higher than FY 2021 budget due to (1) FTE, a Principal Project Manager, transferred from Landscape Operations to Stormwater Engineering.

Operating Expenses are expected to be lower than FY 2021 budget due to savings in training and contract labor.

Capital Outlay is forecast to be higher in FY 2021 budget as a result of the expense of (1) drone that was paid for in FY 2021 instead of FY 2020 due to delivery delays.

**Current FY 2022:**

Personal Services increase is due to the transfer of (1) FTE Principal Project Manager from Landscape Operations to Stormwater Engineering.

Operating Expenses have increased due to IT cost, other contractual services, and an increase in the threshold of a capital asset from \$1,000 to \$5,000.

Capital Outlay includes the purchase of two (2) expanded Ford F-150 Pickup Trucks for Project Managers to conduct sites to monitor projects.

**Growth Management Department**

**Project Management**

**TDC Category A Beach Renourish/Pass Maint Admin-Fund (185)**

**Notes:**

TDC Beach Renourishment/Pass Maintenance Administration Fund (185) provides for TDC beach renourishment and pass project administration, engineering, monitoring and project management. Budgeted projects are summarized in Beach Renourishment/Pass Maintenance Capital Fund (195).

**Forecast FY 2021:**

Personal Services are forecast lower than FY 2021 budget due to a vacant position. Operating Expenditures are forecast lower than FY 2021 due to savings in other contractual costs related to contract labor. Capital Outlay is forecast lower than FY 2021 budget due to an increase in the threshold of a capital asset from \$1,000 to \$5,000.

**Current FY 2022:**

Personal Services increase is in line with the general wage adjustment. Operating Expense increases are due to increases in other contractual services for consultant fees. Capital Outlay budget decreased due to the increase in the threshold of a capital asset from \$1,000 to \$5,000.

**Revenues:**

Funding for beach renourishment and pass/inlet program management is provided by Tourist Development Tax funds transferred from TDC Beach Renourishment/Pass Maintenance Fund (195).

**Collier County Government  
Fiscal Year 2022 Adopted Budget**

**Growth Management Department**

**Airport  
Airport Administration (495)**

**Mission Statement**

To acquire, establish, construct, enlarge, improve, maintain, equip, and regulate Everglades Airpark, Immokalee Regional Airport, and Marco Island Executive Airport per County Ordinance 2004-03 as amended by County Ordinance 2010-10. To assist with and facilitate Collier County's economic development and diversification programs, including applying for grants to supplement the capital improvement program.

| <b>Program Summary</b>                    | <b>FY 2022<br/>Total FTE</b> | <b>FY 2022<br/>Budget</b> | <b>FY 2022<br/>Revenues</b> | <b>FY 2022<br/>Net Cost</b> |
|-------------------------------------------|------------------------------|---------------------------|-----------------------------|-----------------------------|
| <b>Divisional Administration/Overhead</b> | <b>3.00</b>                  | <b>635,000</b>            | <b>-</b>                    | <b>635,000</b>              |

To secure and manage new grants; direct and operate the three County airports to include the management of facilities, runways, tenant leases, and daily operations. Plan and develop the infrastructure through Airport Layout Plan update, PUD permitting, revised business plan, increased marketing and economic development. Insure the safety and security of all airports.

**Growth Management Department**

**Airport**

**Airport Administration (495)**

**Forecast FY 2021:**

Forecasted Personal Service is in line with FY 2021 budget due to termination pay offset by savings from temporary vacancies filled at lower salaries.

Operating Expense is forecast lower than FY 2021 budget due to savings in training and travel.

**Current FY 2022:**

Personal Service budget is in line with the general wage adjustment.

Operating Expense increased over prior year levels due to an increases in IT capital, fleet costs and training.

Indirect Service Charges reflects an increase as determined by the annual update of the County Central Services Cost Allocation Plan.

## **Growth Management Department**

### **Airport**

#### **Immokalee Regional Airport (495)**

##### **Forecast FY 2021:**

Personal Services forecast reflects an increase over FY 2021 budget due to strategic reclassifications and vacant positions filled at higher than budgeted salaries.

Operating Expense is forecast to be below FY 2021 budget due to a reduction in Aviation R&M as well as utilization of a Cares Act grant to pay utilities.

Aviation Fuel forecast is above the adopted FY 2021 budget due to an active fire season and lower than anticipated sales impacts from COVID-19.

##### **Current FY 2022:**

Personal Services increased due to a general wage adjustment and reclassification of key Airport Authority positions.

Operating Expense increase reflects increases in fleet, other operating expense and building maintenance.

Capital Outlay includes the purchase of one (1) replacement Case Tractor and (1) replacement Z-Turn Mower.

Aviation Fuel budget reflects an increase in projected Jet A volume.

##### **Revenues:**

Fuel sales revenue forecast reflects a increase compared to FY 2021 budget as a result of higher than anticipated sales of Jet A fuel and AvGas due to an active fire season and lower than anticipated sales impacts from COVID-19. Other revenue sources are primarily related to facility leases and reflect current agreements.

Fuel projections for FY 2022 increase, resulting in an increase to operating revenue. Other revenue sources are primarily related to facility leases and assume current agreements will be ongoing with consistent monthly collections.

**Growth Management Department**

**Airport  
Everglades Airport (495)**

Forecast FY 2021:

Personal Services reflect a slight increase due to staff overtime.

Operating Expenses is forecast slightly higher than FY 2021 budget due to increases in other operating supplies.

Aviation Fuel (AvGas expense) is forecast lower due to decreased traffic as a result of COVID-19.

Capital Outlay includes the purchase of a replacement vehicle (pickup truck) damaged in hurricane Irma.

Current FY 2022:

Personal Services budget reflects a general wage adjustment and an increase to budgeted overtime.

Operating Expense budget decrease is a result of decreased Fleet and IT costs.

Aviation Fuels budget reflects an expected increase in airport activity along with increasing fuel prices.

Revenues:

Revenue reflects a forecast increase over FY 2021 budget due to Irma related insurance refunds.

Revenues are projected to show a slight increase for the FY 2022 budget.

**Marco Island Executive Airport (495)**

**Forecast FY 2021:**

Forecast Personal Services reflect an increase of two (2) additional line staff FTE's authorized by the Board on 6/22/21, Agenda Item 16G1. In addition, overtime is over budget to accommodate increased customer volume.

Operating Expense reflects and increase over FY 2021 budget due to increases in water/sewer charges and collection services.

Capital Outlay forecast increase is a result of replacement of a Tug and the purchase of a new utility vehicle for passenger and luggage transport.

**Current FY 2022:**

Personal Services budget increases reflects two (2) additional line staff FTEs authorized by the Board on 6/22/21, Agenda Item 16G1.

Operating Expense reflects a significant increase related to operating and maintaining the new terminal building.

**Revenues:**

Projected forecast revenue reflects an increase over FY 2021 budget due to increased fuel sales volume and increasing fuel prices.

Increased revenues are the result projected increase to fuel sales and associated transient aircraft fees in FY 2022.

**Growth Management Department**

**Airport**  
**Airport Fund (495)**

**Notes:**

All airports are listed on separate pages in this section of the budget book for proper presentation of their operations; however, shared costs such as Reserves, Carry Forward and Transfers to the Airport Capital Fund (496) are presented here at the fund level.

**Forecast FY 2021:**

On February 13, 2018, the Board approved item 14.A.1. for the construction of a new terminal facility at the Marco Island Executive Airport. Approximately 80% of the funding for the new terminal will be reimbursed from the Florida Department of Transportation (FDOT), however, it will be in installments between FY19-FY21, subject to annual legislative appropriations. To cashflow this project, a temporary loan of \$4,500,000 from Planning Services Fund (131) was needed. The loan was required to provide the Airport Authority with sufficient budget to open the construction purchase order due to the timing of planned reimbursements from the FDOT for the project. As cash \$1,035,942 was transferred to Airport funds from Planning Services, interest accrued on the loan and is a required component of the repayment to Planning Services.

**Current FY 2022:**

A transfer of \$523,100 is budgeted for FY22 to Planning Services Fund (131) for partial repayment of transferred funds and accrued interest.

**Growth Management Department**

**Reserves and Transfers**  
**Road & Bridge (101)**

Current FY 2022:

Transfers to Community Development Fund (113) are for rental payments in accordance with leased space of the East Horseshoe building.

Transfers to County Wide Capital Fund (301) are for an upgrade to the County's video monitoring system.

The Transfer to Special Obligation Debt Service Fund (298) is for payment of the debt service related to the Transportation building on South Horseshoe Drive. The last debt service payment will be made in FY 2029.

A modest reserve for contingencies is programmed for unexpected or additional costs that may arise during the fiscal year.

Revenues:

The General Fund (001) transfer is the primary funding source of the Road and Bridge Maintenance Fund (101).

## **Growth Management Department**

### **Reserves and Transfers** **Community Development Fund (113)**

Current FY 2022:

Transfer to the General Fund (001) includes the following:

\$20,800 cost share for Human Resources software and training materials for recruitment, on-boarding, pay study, career development and succession planning, cost to Community Development is based on FTE count.

\$79,100 cost share of Human Resources position.

\$85,200 to fund a dedicated Facilities Management Project Manager for Community Development to coordinate and execute various repairs and capital improvements needed.

Transfer to County Wide Capital Fund (301) is for an upgrade to the County's video monitoring system.

Revenues:

The Community Development Fund (113) rents space (and collects commensurate revenue via transfer) to the following divisions occupying the East Horseshoe building not part of (113) operations:

Transportation Planning Fund (101)

Impact Fee Administration Fund (107)

MSTD General Fund (111) which includes: Code Enforcement, Comprehensive Planning, Zoning & Land Development, Natural Resources, Cable Administration, and Stormwater

Pollution Control Fund (114)

Development Services Fund (131) which includes: Planning & Zoning, Engineering, Hearing Examiner, and Environmental Planning

TDC Beach Renourishment/Pass Maintenance Administration Fund (185)

Current FY 2022:

A transfer to the General Fund (001) is for Human Resources to purchase software and training materials for recruitment, on-boarding, pay study, career development and succession planning, cost to Community Development is based on FTE count.

Transfers to the MSTD General Fund (111) within Comp Planning and Community Development Fund (113) are for operational support.

Reserve for Capital increased primarily due to an advance in FY 2021 to Airport Fund 495 was lower than forecast (\$3.5 M), and a portion of the advances made to Airport Fund 495 are budgeted to be repaid in FY 2022 (\$.5 M).

Revenues:

The Transfer from MSTD General Fund (111) is to support PUD Monitoring & 25% of Hearing Examiner costs.

## **Court Related Agencies**

The Court Related Agencies include divisions that provide judicial operations for both Circuit and County Courts and Programs. The divisions include Court Administration, Probation, facility and operation costs for the State Attorney's Office, Public Defender, Guardian Ad Litem, Electronic Court Reporter, Circuit and County Judges. Also included are the Public Guardianship Program, the Drug Abuse Trust Fund, and the Teen Court Program. The total appropriation for FY2022 including transfers and reserves, is \$5,704,500.

Court costs are funded with a general fund transfer, court fees, surcharges on traffic violations, and probation fees. The County is mandated by Section 14 of Article V of the State Constitution to fund the following costs of the circuit and county courts, public defender's offices, state attorney's offices, guardian ad litem offices, and the offices of the clerk of the circuit and county courts performing court-related functions:

1. Facilities – construction, lease, maintenance, and security of: buildings and office space, appurtenant equipment and furnishings, structures, real estate, easements, and parking facilities.
2. Utilities – electricity, gas, water and wastewater services and systems, storm water services and systems, sewer services and systems, all associated costs and fees, and mitigation of environmental impacts.
3. Communication services – telephone system infrastructure, maintenance, facsimile equipment, wireless communications, cellular telephones, pagers, video teleconferencing equipment and line charges, local carrier service, and local and long distance toll charges.
4. Computer network systems and equipment – computer hardware and software, modems, printers, wiring, network connections, maintenance, support staff or services, training, supplies, and line charges.
5. Courier messenger and subpoena services.
6. Auxiliary aids and services which are necessary to ensure access to the courts for qualified individuals with a disability.

Ordinance 09-41 adopted by the Board of County Commissioners on July 28, 2009 as authorized by s. 318.18(13)(a) F.S., provides for a \$30 surcharge for those non-criminal traffic infractions set forth in Chapter 318, Florida Statutes, and certain criminal violations enumerated in Section 318.17, Florida Statutes, will provide the County with an estimated \$810,000 in revenue for FY 2021. This revenue is designated for capital improvements to Courthouse buildings and facilities.

Ordinance 04-42, adopted by the Board of County Commissioners on June 22, 2004 as authorized by s. 939.185 F.S., provides for a \$65 court cost fee when a person pleads guilty or nolo contendere to, or found guilty of, any felony, misdemeanor, or criminal traffic offense under the laws of the State of Florida, will provide the County with an estimated \$160,000 in revenue for FY 2021. This revenue will be divided equally among four (4) court related programs: Innovative Court Programs, Teen Court, Law Library, and Legal Aid.

The Court Related Technology Fund (178) receives a \$2 per page service charge collected for recording documents or instruments as listed in s.28.222 F.S. These funds are used to support court-related technology throughout the various entities of the Court. The FY 2021 budget is anticipated to provide \$900,000 in revenues.

| Court Administration staff is required to administer all courtroom operations. To maintain current levels of service to the citizens of Collier County, the court administration needs to maintain clerical staff to assist in courtroom operations and work with county and circuit divisions on court related issues. This includes, but is not limited to: courtroom operations, building maintenance, BCC and budget issues, purchasing and finance issues, and some court costs. Court costs include Court Reporter costs, Court Appointed Attorney costs, and expert and regular witness costs. |                              |                           |                             |                             |
| <b>Court Related Programs</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         | <b>2.00</b>                  | <b>131,800</b>            | <b>-</b>                    | <b>131,800</b>              |

**Forecast FY 2021:**

Court Administration has been providing financial support to Teen Court, the Public Guardianship Program and the Law Library. All planned transfers will proceed as budgeted.

**Current FY 2022:**

The Operating Expense increase of 1.4% is related to other contractual services.

Transfer to (171) Teen Court in the amount of \$13,200 and a Transfer to (192) Court Innovations in the amount of \$149,600 covers the shortfall in funding due to continued insufficient receipts of the \$65 (Article V) revenues. Law Library Fund (640) will receive a transfer in the amount of \$38,900 during the current year to aid in their operations.

**Revenues:**

The General Fund (001) transfer increased slightly to 0.5% and is a result of the decrease in revenue due to the reduced number of arrests and court filings in Collier County.

**Collier County Government  
Fiscal Year 2022 Adopted Budget**

**Court Related Agencies**

**Court Administration  
Parole & Probation (681)**

**Mission Statement**

To provide quality rehabilitative supervision and direction to all defendants placed on probation verifying that they comply with court imposed sanctions and conform to social norms, to effectively maintain a large caseload and serve the judiciary, and abide by established case law and Florida Statutes in the performance of duties.

Forecast FY 2021:

Personal Services is lower due to vacancies.

Reduced Operating Expense reflects cost containment measures of the agency primarily in fuel and out of county travel.

Current FY 2022:

Personal Services decrease is due to a position being filled at a lower rate of pay.

Operating Expense has increased due to other contractual services.

Revenues:

Revenue has decreased due to a reduced number of cases receiving probation, which has resulted in the decline of prosecution fees and the continuing effect of Covid 19.

## **Court Related Agencies**

### **Court Administration**

#### **Court Innovations (192)**

**Notes:**

This revenue source was created effective July 1, 2004 when the Board of County Commissioners adopted Ordinance 04-42 pursuant to s. 939.185 F.S., which was part of the revision to Article V of the State Constitution. The source of this revenue is an additional court cost of \$65 when a person pleads guilty or no contest or is found guilty of any felony, misdemeanor, or criminal traffic offense in Florida. Twenty-five percent (25%) of this amount is allocated to fund innovative court programs.

Collier County funds the management of 80 wards per month with this program, directly to the local Guardianship Office. This is not a mandated program; however, the Chief Judge has determined this program to be a necessity to our Community.

**Forecast FY 2021:**

Revenue is based upon actual collections received through April 2021.

Per County Ordinance 04-42, any funds remaining in Teen Court (171), Law Library (640) and the Legal Aid Society (652) are to be returned to the Court Innovations Fund (192). There are no planned residual transfers from any of these funds, as current revenues are not sufficient to support the ongoing level of service.

**Current FY 2022:**

Funding for the Public Guardianship program has been consistent with prior years, as the program serves a fixed number of clients.

**Revenues:**

Collections of the \$65 fee that supports this program have been insufficient since FY 2007 due to the continued decline in revenues. To offset this decrease, a transfer to cover the shortage is budgeted in the amount of \$149,600 from Court Administration Fund (681). Funding is from Probation fees (681) and the balance is from General Fund (001).

**Notes:**

This revenue source was created effective July 1, 2004 when the Board of County Commissioners adopted Ordinance 04-42 pursuant to s. 939.185 F.S., which was part of the revision to Article V of the State Constitution. This revenue is an additional court cost of \$65 when a person pleads guilty or no contest or is found guilty of any felony, misdemeanor, or criminal traffic offense in Florida. Twenty-five percent (25%) of this amount is allocated to fund juvenile programs. In the past, Teen Court and Juvenile Assessment Centers were allocated twelve and a half percent (12.5%) each. On June 22, 2010 via Board Agenda Item 16J5, Teen Court will receive the full twenty-five percent (25%).

**Forecast FY 2021:**

Revenue is based upon actual collections received through April 2021.

**Current FY 2022:**

Personal Services decreased (33.9)% due to long term staff retiring and the hiring of new staff at a lower rate of pay.

Operating Expense includes funding for the Teen Court coordinator, minimal operating costs for maintenance of the program and three \$1,000 Scholarships to be awarded to program participants.

**Revenues:**

Current revenue budget is a full 25% of the \$65 Fee with a supplemental transfer from Court Administration (681) in the amount of \$13,200 to keep the program active. Court Administration funding is from Probation Fees (681) and the balance is from General Fund (001).

**Court Administration**  
**Law Library Fund (640)**

**Notes:**

This revenue source was created effective July 1, 2004 when the Board of County Commissioners adopted Ordinance 04-42 pursuant to s. 939.185 F.S., which was part of the revision to Article V of the State Constitution. The Law Library receives one-quarter of this fine to fund their operations.

**Forecast FY 2021:**

Revenues from the \$65 court cost fee are based upon actual collections received through April 2021.

**Current FY 2022:**

The request from the Law Library for operating costs of \$92,500 will be fully funded as Court Administration will provide a transfer in the amount of \$38,900 to supplement the \$65 court cost fee that supports this function.

The costs include funding for staff, books, utilities and electronic Westlaw access.

**Revenues:**

Article V revenues have been insufficient since FY 2007 due to the continued decline in this revenue source. To off-set this decrease, a transfer from Court Administration Fund (681) in the amount of \$38,900 is budgeted. Court Administration funding is from Probation Fees (681) and the balance is from a General Fund (001) transfer.

Current FY 2022:

Operating Expense for the Circuit Court Judges include minor operating items split among the various judges.

All other costs, such as office space, utilities, communication services and security are paid for by the Collier County Facilities Management Division.

**Collier County Government  
Fiscal Year 2022 Adopted Budget**

**Court Related Agencies**

**Circuit & County Court Judges  
County Court Judges (001)**

**Mission Statement**

All County Judges, except Judge Martin handle 20% of the County Criminal, 20% of the Small Claims cases, and 5% of Civil County court cases for Naples and Immokalee. Judge Martin's presides over the remaining 75% of civil county court cases and 100% of Drug Court cases with the caveat that any cases initially assigned to Judge Martin involving Jerry Berry and/or Donald Day are randomly distributed to the other five (5) Judges.

**Notes:**

Pursuant to the revisions to Article V, as of July 1, 2004, the County is responsible for funding the following operating expenses for the Public Defender: facility construction/lease, facility maintenance and security, utilities, communication services, data processing equipment and software, and other local operating requirements.

**Current FY 2022:**

A large portion of the budget is fixed costs which the Public Defender has no control over, such as water, electricity, building repairs and maintenance, etc. The remaining budget is for two Attorneys, one Support Staff Position, and one Specialty Courts Coordinator. The Public Defender is fully utilizing these positions to provide early representation of clients in order to move their cases efficiently and effectively through the judicial system in Collier County.

**Notes:**

Pursuant to the revisions to Article V, as of July 1, 2004, the County is responsible for funding the following operating expenses for the Guardian Ad Litem: facility construction/lease, facility maintenance and security, utilities, communication services, data processing equipment and software, and other local operating requirements.

**Current FY 2022:**

Rent, utilities, security and facility maintenance are paid for Guardian Ad Litem by the Facilities Management Division, which is funded by the General Fund (001). Technology needs are paid for by the Court IT Fee Fund (178).

This budget contains funding for storage fees and a minimal allocation for office supplies and minor operating equipment.

**Notes:**

Revenues reflect collections of \$2 per page of a \$4 per page service charge assessed for recording documents or instruments as listed in s. 28.24 F.S. These revenues are dedicated to the technology needs of the Courts and Court Related Agencies.

**Forecast FY 2021:**

Operating Expenses are higher due to the purchase of computer software that was not previously budgeted.

Revenues are based upon actual collections through April 2021.

**Current FY 2022:**

Personal Services increase is due to a general wage adjustment and deferred compensation.

Operating Expenses have increased due to Information Technology allocations and other contractual services.

**Revenues:**

The number of documents being recorded has started to increase due to home sales being up and civil filings from hurricane Irma insurance claims has increased revenue by 20%.

## **Office of the County Manager**

### **Management Offices**

The Executive Management Offices consist of the Administrative Office of the County Manager, the Corporate Compliance & Internal Review Section, the Office of Management and Budget, the Grants Compliance Section and the Impact Fee Administration. In addition, Pelican Bay Services, Tourism, Economic Development and Community Redevelopment Agencies (CRA) report directly to the County Manager's Office.

### **Executive Management Offices**

The Executive Management Offices consist of the Administrative Office of the County Manager, the Corporate Compliance & Internal Review Section and the Office of Management and Budget.

The phone numbers for these offices are:

252-8383 - County Manager's Office

252-8973 - Office of Management and Budget

### **Tourism**

Funding for the Naples, Marco Island, Everglades Paradise Coast Convention and Visitors Bureau is generated from the 5% tourist tax levied on hotel rooms and short-term rentals in Collier County.

For more information on Tourism, please call 252-2402.

### **Sports & Special Events Complex**

The Paradise Coast Sports and Special Events Complex, opening Summer 2020, features professional-level synthetic turf fields, on-site recreation and entertainment options with high quality concessions. Construction funding is supported with Tourist Development Taxes with the General Fund supporting land acquisition and operating dollars.

For more information, please call 252-2402.

### **Pelican Bay Services**

Services are provided to residents of Pelican Bay through the Pelican Bay Municipal Services Taxing and Benefit Unit (MSTBU). Services include Water Management, Community Beautification, Street Lighting, Security Operations, Clam Bay Restoration, and a capital improvement program. Funding is provided by special assessments levied on residents of Pelican Bay as well as an ad valorem levy for district lighting and lighting system improvements.

For more information on Pelican Bay Services, please call 597-1749.

### **Office of Business & Economic Development**

The Office of Business & Economic Development, the creation of which was approved by the Board on June 26, 2012, works in conjunction with other local and state economic development organizations to assist businesses to expand or relocate to Collier County. Activities consist of incentive policy development and administration, business concierge services including facilitating regulatory assistance and promoting the business climate in Collier County.

### **Collier County Accelerator Project**

The Collier County Accelerator Project consists of the Naples Accelerator and the Florida Culinary Accelerator at Immokalee. Both locations focus on jump starting local business and offering a soft-landing for businesses relocating to the Paradise Coast. In FY 21, Florida Gulf Coast University will operate the program at the Naples Accelerator, while the University of Florida has an existing partnership with the Culinary Accelerator.

For more information on the Office of Business & Economic Development program, please call 252-8358

### **Community Redevelopment Agency**

Under Collier County's Community Redevelopment Agency there are two (2) Community Redevelopment Component Areas: The Bayshore/Gateway Triangle Community Redevelopment Area and the Immokalee Community Redevelopment Area. Each exists and utilizes professional staff to plan, promote and implement area re-development and infrastructure improvements. The primary source of funding for CRA activities is tax increment revenue.

For more information on the Bayshore/Gateway Triangle CRA please call 252-8844

For more information on the Immokalee CRA please call 867-0028

**Office of the County Manager**

**Office of Management & Budget  
Grant Compliance (001)**

**Notes:**

Effective February 1, 2012, Grants Management was reorganized under the Office of Management and Budget (OMB) to centralize all administrative grant compliance functions at the corporate level. The Grants Compliance Office (GCO) provides oversight and technical support to Divisions with a focus on single audit and fiscal management. The development and implementation of agency wide internal controls and protocols will support successful single audit reviews. Key areas such as procurement, draw requests, report submission, and revenue to expenditure reconciliations will be under the purview of OMB as technical assistance to Divisions.

**Forecast FY 2021:**

Forecast personal services increased due to a vacancy being filled at the beginning of the year. In FY 2020, the position remained vacant while a part-time job banker was utilized. Operating expenditures are generally consistent with the adopted budget.

**Current FY 2022:**

Personal services are higher than the prior year reflecting turnover and a permanent employee replacing a job banker.

**Collier County Government**  
**Fiscal Year 2022 Adopted Budget**

**Office of the County Manager**

**Office of Management & Budget**  
**Impact Fee Administration (107)**

**Mission Statement**

Ensure the fair and equitable administration of the Collier County Impact Fee Program, in accordance with Chapter 74 of the Collier County Code of Laws and Ordinances, which is the Collier County Consolidated Impact Fee Ordinance.

| Program Summary                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     | FY 2022<br>Total FTE | FY 2022<br>Budget       | FY 2022<br>Revenues     | FY 2022<br>Net Cost |

| Review building permits and assess County Impact Fees within the time guidelines of the Growth Management Department Performance Standards. Perform impact fee calculations with less than 1% of assessments requiring subsequent refunds due to calculation errors. Calculate estimates, maintain account ledgers and generally oversee the Certificate of Public Facility Adequacy process. Administer all regulations set forth by the Collier County Consolidated Impact Fee Ordinance, 2001-13, as amended, which is Chapter 74 of the Collier County Code of Laws and Ordinances, including update studies, indexing of fees, and all other Impact Fee related issues. Operational expenses will be partially funded by the Impact Fee Trust Funds as set forth by the Collier County Consolidated Impact Fee Ordinance, 2001-13, as amended, Section 74-203. |                      |                         |                         |                     |

**Notes:**

In order to efficiently account for and manage those sources and uses of funds associated with impact fee operations; this fund was created in FY 2010. The fund is supported by reimbursements from Impact Fee Trust Funds, Certificate of Public Facility Adequacy Fees (COA fees), a corporate support transfer from MSTD General Fund (111), and various administrative fees related to impact fees.

**Forecast FY 2021:**

Forecast personnel costs and operating expenses are in line with the adopted budget.

During the year, one (1) Senior Operations Analyst was transferred to the County Manager's Office (001) and one (1) Operations Analyst was transferred in from Administrative Services Department Admin Section (001).

**Current FY 2022:**

Personal Services decreased over last year due to the reclassification of Job Bank salaries to Temporary Employment operating expenses.

Operating Expenses reflects increased IT charges and Capital Outlay budget provides for computer replacements. Expenses are generally in line with the prior year budget.

Reserves in this fund are primarily designed to insure sufficient cash flow to cover operations during the first quarter of the fiscal year until operating and transfer revenue is received. Additionally, funding has been set aside to specifically address future office space planning, should the need arise.

Notes:

The Affordable Housing Impact Fee Deferrals for Water and Sewer Program was adopted by the Board on July 26, 2005 in Ordinance 2005-40. Once a homebuyer qualifies for the deferral, this program uses an alternate funding source to pay the water and sewer impact fees to ensure that the District's capital infrastructure will not be impacted by the deferral. For five years, the General Fund funded the program in an amount of the built-in 3% cap, not to exceed \$750,000 per year. The program was developed with the limitation that the aggregate amount of deferred fees per fiscal year would in all cases be limited to no more than 3% of the total impact fee collections of the previous fiscal year. After the fifth year, the lien repayments will be used to repay the General Fund.

Forecast FY 2021:

On September 30, 2020, the audited balance of outstanding Impact Fee Deferrals was \$1,510,092.48. This represents 247 owner occupied dwellings made up of 228 condo units and 19 single family homes that are still in the program.

For owner occupied units, the deferred impact fees shall become due and payable when the dwelling is sold, refinanced, or the owner loses the homestead exemption. This program also was offered to rental dwelling units, however deferred impact fees had to be paid off 6-years and 9-months after the execution of the impact fee deferral agreement by the County. There are no outstanding rental dwelling unit impact fee deferrals remaining in the program.

Current FY 2022:

The General Fund transfer reflects the anticipated fund balance at year ending September 30, 2021. No deferral income or interest income is budgeted. Instead, actual program revenue and corresponding expense is accounted for in the succeeding fiscal years forecast as fund balance.

**Notes:**

A change to the Land Development Code was approved on September 25, 2012, which created a process to make minor text changes to PUDs (Planned Urban Developments), Development Agreements and Settlement Agreements to remove the Affordable Housing Contribution commitments. Subsequently, on March 12, 2013 (Item 16F4) the Board directed the County Manager, or his designee, to proceed with an outlined plan to refund previously paid Affordable Housing Contributions upon the approval of minor changes to PUDs to remove the Affordable Housing Contribution commitments, and approve any budget amendments that may be required to facilitate this action.

**Office of the County Manager**

**Tourist Development Council (TDC) Division  
TDC Category C Non County Museum - Fund (193)**

**Notes:**

During FY 05, the administration of Museum Category "C" funding was amended to provide for direct deposit of Tourist Development Tax proceeds into Fund (198) in lieu of the previous method that deposited all Museum proceeds into Fund (193) and transferred a portion out to County Museums Fund (198). On July 11, 2017, the Board approved increasing the Tourist Development Tax from 4% to 5% as well as distribution adjustments among TDT supported funds. The increase was effective September 1, 2017. Non-County Owned Museum TDT revenues represent approximately 1.91% of the Tourist Development Tax revenue budget.

**Forecast FY 2021:**

The forecast includes grant awards of \$300,000.

**Current FY 2022:**

The proposed grant award budget is \$600,000. Recommended grants include the Holocaust Museum \$30,000, Botanical Garden \$200,000; Naples Zoo \$100,000; Children's Museum \$100,000; Artis Naples/Baker Museum \$100,000. \$70,000 is currently unassigned.

**Revenues:**

The estimated TDT revenue allocation to Non-County Museum Grants Fund (193) is \$570,100, approximately 19.5% above the prior year budget.

**Collier County Government  
Fiscal Year 2022 Adopted Budget**

**Office of the County Manager**

**Notes:**

The Board of County Commissioners authorized collection of an additional one (1) percent Tourist Development Tax (TDT) - fourth percent - on July 26, 2005. Proceeds from this fourth penny are devoted exclusively to tourism marketing and promotion. Pursuant to terms contained within ordinance 2005-43, collections began on October 1, 2005. This ordinance provided that the existing 23.236% of the first two (2) percent collected will be allocated to Fund (194) providing for TDC administrative and overhead expenses; replenishing the Disaster Recovery Fund (196); and providing supplemental dollars to Beach Renourishment/Pass Maintenance (Fund 195) and Beach Park Facility (Fund 183) initiatives. With passage of Ordinance 2011-02 on January 25, 2011, the distribution requirements changed with all year ending proceeds within Fund 194 swept to Disaster Recovery Fund (196) in an amount sufficient to achieve a \$1,000,000 cash balance. Thereafter, Marketing and Promotion Fund (184) will receive all remaining swept dollars.

On April 23, 2013 the Board authorized amendments to the Ordinance that increased the overall distribution of Tourist Development Taxes (TDT) to Category B (Promotion) from 36.7% to 46.7% of total TDT collections, decreased County Museum operations distribution from 11% to 9.6%, decreased Category A (Beach Park Facilities portion only) from 50% to 41.2% of total collections and reduced the required Disaster Recovery fund balance from \$1,000,000 to \$500,000. The change to Disaster Recovery administration also included making the General Fund responsible for maintaining the required fund balance. These changes were reflected in the various TDC funded FY 2014 budgets.

On February 26, 2013, the Board authorized the addition of three positions in the areas of direct sales, sports marketing, and digital and social media marketing bringing the authorized number of positions to ten. In the FY 2016 budget, the Board authorized the addition of an Event Sales and Marketing position and a fiscal position bringing the authorized position count to 11.75. In FY 2017, the Board authorized the addition of a Deputy Director of Tourism and Sports Marketing bringing the authorized position count to 12.75. In FY 2020 1.75 positions were transferred to the Corporate Business Operations Division revising the position count to 11.00 FTE.

On July 11, 2017, with the adoption of Ordinance 2017-35 the Board of County Commissioners authorized collection of an additional one (1) percent tourist tax - a fifth percent. The increase was effective on September 1, 2017. Also authorized were amendments that made the overall distribution of Tourist Taxes to Tourism Promotion 33.57%, capped County Museum distribution at \$2,000,000, added a 14.28% distribution for an Amateur Sports Complex and increased Beach Renourishment to 39.98% of total collections. The percentage of overall TDT collections distribution to Beach Park Facilities Fund (183) became 3.58%. And the distribution to non-County Museum Fund (193) became 1.91%. Changes also included eliminating reference to a specific Disaster Recovery Reserve dollar value. These changes were incorporated into the FY 2018 budget.

**Forecast FY 2021:**

One (1) FTE, a Tourism Sales Specialist from this budget was realigned mid-year to the Communications and Customer Relations Division. Spending is in line with the budget as amended.

**Current FY 2022:**

The position count is reduced by the position realignment noted above. Budgeted tourism promotion management & administrative costs total \$1,661,200 representing approximately 16.1% of budgeted TDT destination promotion collections of \$10,313,100. Ordinance 2005-43 as amended, limits tourism promotion management & administrative costs to 32% of the amount collected each fiscal year for promotion uses.

**Revenues:**

Tourist Development Taxes earmarked for tourism promotion are deposited into Tourism Promotion Fund (184). A transfer of \$1,784,400 from fund (184) to support fund (194) is provided. The overall FY22 Tourist Development Tax revenue budget is \$29.8 million, approximately 19.5% above the prior year budget.

**Budgeted Tourist Development Tax (TDT) Collections**

Beach Park Facilities Fund 183 - \$1,068,600  
Tourism Promotion Fund 184 - \$10,313,100  
TDC Museums Fund 193 - \$570,100  
Beach Renourishment Fund 195 - \$11,635,500  
County Museums Fund 198 - \$2,000,000  
Tourism Capital Projects Fund 758 - \$4,262,600  
Total TDT Revenue - \$29,849,900

**Office of the County Manager**

**Tourist Development Council (TDC) Division  
TDC Category B Promotion Reserve & Projects - Fund (196)**

**Notes:**

Reserves within this fund are available to provide funding for emergency promotional campaigns or other efforts to promptly respond to any disaster - natural or economic - which adversely impact tourism in Collier County. Pursuant to Ordinance 2005-43, Tourism Disaster Recovery Fund (196) received \$500,000 per year as a transfer from Tourism Administration and Overhead Fund (194) beginning in FY 06 and this transfer amount (or some lesser amount) continued for three (3) years until reserves in Fund (196) reached \$1,500,000. Reserves reached \$1,500,000 at fiscal year ending 2008. With passage of Ordinance 2011-02, the required fund balance ceiling within the disaster recovery fund was dropped to \$1,000,000. Consistent with Ordinance changes approved on April 23, 2013, the reserve level in Disaster Recovery Fund (196) was reduced to \$500,000. Ordinance 2017-35, approved on July 7, 2017, eliminated reference to a specific dollar value for the Disaster Recovery Reserve. Subsequently, as part of the FY 2018 budget process, the TDC recommended that the Disaster Recovery Reserve be established at \$1,500,000 with the recommendation being approved by the Board as part of the FY 2018 adopted budget. Emergency spending for Covid-19 recovery has been authorized as part of the FY 2021 budget and is being requested in the FY 2022 budget.

Expenditure History: In March 2005, the Board of County Commissioners approved - based on an emergency designation - the expenditure of up to an additional \$500,000 for use in promoting Collier County as a tourist destination in the wake of four (4) hurricanes during 2004. Similarly, the BCC during FY 2009 approved an emergency advertising stimulus package responding to the economic recession and its negative effects upon tourism travel and leisure spending. The use of emergency advertising dollars totaling \$1,066,000 continued in FY 2010 under Board authorization recognizing the global economic slowdown. In FY 2011, \$500,000 of emergency reserves was once again dedicated to marketing the destination in anticipation of building tourism visitation in the wake of a stagnate economy. These funds were designated to promote the Group Meetings Market. In September of 2016, the Board authorized use of approximately \$98,000 to be used for design and permitting of the East Naples Pickleball Court Shade Structure and an Amateur Sports Tourism Complex feasibility study. Following Hurricane Irma in September 2017, the Board authorized the expenditure of \$250,000 to expedite tourism and economic recovery. In FY 2019, \$250,000 was authorized to assist in tourism recovery after the red tide crisis.

**Forecast FY 2021:**

Forecast expenditures included \$500,000 for an emergency promotional campaign to expedite tourism recovery post Covid-19.

**Current FY 2022:**

The FY 2022 budget has been prepared with a \$500,000 appropriation for ongoing Covid-19 related tourism recovery efforts.

**Revenues:**

A transfer from TDC Promotion Fund (184) provides funding to restore the reserve balance to \$1,500,000.

**Collier County Government  
Fiscal Year 2022 Adopted Budget**

**Office of the County Manager**

**Tourist Development Council (TDC) Division

**Office of the County Manager**

**Tourist Development Council (TDC) Division  
TDC Category B Tourism Promotion - Fund (184)**

**Notes:**

The Board of County Commissioners authorized collection of an additional one percent tourist tax - fourth penny - on July 26, 2005. Proceeds from this fourth penny are devoted exclusively to marketing and promotion. Pursuant to terms contained within Ordinance 2005-43, collections began on October 1, 2005. Further regulation on the distribution of swept proceeds from Administrative and Overhead Fund (194) into TDC Tourism Promotion Fund (184) is contained within Ordinance 2011-02.

On April 23, 2013, the Board authorized amendments to the Ordinance that, among other things, increased the overall distribution of tourist taxes to Promotion Category B from 36.7% to 46.7%. This change went into effect in June 2013.

On July 11, 2017, the Board approved increasing the Tourist Development Tax from 4% to 5% and distribution adjustments among Tourist Tax supported funds. The increase was effective September 1, 2017. Also authorized were amendments to the Ordinance that made the overall distribution of Tourist Taxes to Tourism Promotion 33.57%, capped County Museum distribution at \$2,000,000, added a 14.28% distribution for an Amateur Sports Complex and increased Beach Renourishment to 39.98% of total collections. The percentage of overall TDT collections distribution to Beach Park Facilities Fund (183) became 3.58%. And the distribution to non-County Museum Fund (193) became 1.91%. These changes were incorporated into the FY 2018 budget.

**Forecast FY 2021:**

Forecast expenditures are projected modestly above budget reflecting some prior year purchase orders being carried forward.

**Forecast transfers:**

\$ 203,500 to Tax Collector  
\$1,501,900 to Fund (194) - supports TDC Management and Administration  
\$ 470,900 to Fund (759) - supports Sports & Special Events Complex management and promotion

**Current FY 2022:**

The promotion net operating budget is established 47% higher than last year's budget. The increase is supported by funds carried forward that were generated by better than expected TDT collections in FY 2020 and FY 2021 as well as a \$1,037,700 COVID related federal grant funded reimbursement received in FY 2021. Marketing Grants to Non-Profits include: Gulfshore Opera \$15,000; Artis Naples/Film Festival \$50,000; Marco Island Historical Society \$75,000.

**Budgeted transfers:**

\$ 226,900 to Tax Collector  
\$1,784,400 to Fund (194) - supports TDC Management and Administration  
\$ 796,900 to Fund (196) - to restore emergency promotion reserve to \$1,500,000  
\$ 473,300 to Fund (759) - supports Sports & Special Events Complex management and promotion

**Revenues:**

The portion of TDT revenue allocated to Tourism Promotion is \$10,313,100. This amount is approximately 23% above the prior year budget. This revenue source supports both Tourism Promotion Fund (184) and the TDC Management & Administration Fund (194).

**Office of the County Manager**

**Sports & Special Events Complex**  
**Sports & Events Complex (759)**

**Forecast FY 2021:**

Forecast expenditures reflect expected facility management, operations & maintenance expenses as well as acquisition of fixtures and equipment.

**Current FY 2022:**

The budget includes funding for management, operations and athletic field maintenance through a contractual arrangement as well as county staffing to provide general facility maintenance. Also provided in the budget is funding carried forward for fixtures and equipment acquisition.

**Revenues:**

Funding is primarily provided through an ongoing operational transfer from the General Fund with a portion of the budget supported by Tourist Development Tax via a transfer from TDT Promotion Fund (184).

**Collier County Government  
Fiscal Year 2022 Adopted Budget**

**Office of the County Manager**

**Pelican Bay Services Division  
Pelican Bay Water Management (109)**

**Mission Statement**

To provide for the efficient and timely delivery of Water Management services to the Pelican Bay Community through necessary maintenance of the community's storm water system to assure its efficient operation in the transporting and treatment of the storm water. In addition, the Division strives to maintain the highest aesthetic appearance while maintaining the delicate balance of the ecosystem.

| Includes the routine maintenance of the Pelican Bay Water Management System of approximately 3.5 miles of berm separating the developed property from the Clam Pass System. The system functions as a storm water treatment facility by removing nutrients and pollutants, thus improving the quality of storm water before it is discharged into Clam Bay. |                              |                           |                             |                             |

**Office of the County Manager**

**Pelican Bay Services Division  
Pelican Bay Water Management (109)**

**Forecast FY 2021:**

Personal Services increased slightly due to the addition of an associate project manager that was hired at a rate higher than budgeted. Operating expenses decreased due to lower than budgeted costs for engineering services, swale maintenance and rent. Administration has outgrown their current leased space and will be moving into a larger unit in the Sun Trust Building that will be shared with the Pelican Bay Foundation. However, forecasted rent is lower than the FY21 adopted budget due to the negotiated lease rate being lower than anticipated.

**Current FY 2022:**

The FY22 operating budget is lower than FY21 primarily due to decreases in rent, engineering fees, fleet charges and flood control. As discussed above, building rent is lower than budgeted due to the negotiated lease being lower than anticipated. Other operating costs such as engineering fees and flood control decreased in FY22 based on historical trends which will enable additional funds to be allocated towards capital projects. A lower carry forward and slightly increased costs in personal services has created the need for a slight increase in assessment.

**Revenues:**

Special assessment revenue funding water management activities increased from \$122.16 to \$123.91 per equivalent residential unit (ERU) in FY 2022 which will raise \$949,000.

Miscellaneous revenues include sublease revenue from the Pelican Bay Foundation.

**Collier County Government  
Fiscal Year 2022 Adopted Budget**

**Office of the County Manager**

**Pelican Bay Services Division  
Pelican Bay Community Beautification (109)**

**Mission Statement**

The Division strives to maintain the highest aesthetic appearance, while responsibly maintaining the delicate balance of the ecosystem. This includes mowing, trimming, plantings, seasonal flowers and holiday decorations.

**Office of the County Manager  
Pelican Bay Services Division  
Pelican Bay Community Beautification (109)**

**Forecast FY 2021:**

Personal Services are forecasted below the adopted budget due to temporary vacancy savings and lower overtime.

Operation Expenses are forecasted lower in the areas tree trimming, fuel, temporary labor, and rent. Administration has outgrown their current leased space and will be moving into a larger unit in the Sun Trust Building that will be shared with the Pelican Bay Foundation. However, forecasted rent is lower than the FY21 budget due to the negotiated lease rate being lower than anticipated.

**Current FY 2022:**

Personnel Services increase is in line with the general wage adjustment.

Operating Expenses decreased slightly primarily due to tree trimming, flood control, and temporary labor which are in line with historical trends. This decrease was partially offset by increases in other contractual services and sprinkler system maintenance.

Capital outlay for FY22 includes the replacement of 2 F250 trucks, 2 utility vehicles, a berm mower and a riding mower. This Division is not part of the motor pool capital program and equipment is budgeted on a cash and carry basis based upon Fleet Management Division recommendations.

**Revenues:**

Special assessment revenue funding for community beautification decreased from \$429.44 to \$394.57 per equivalent residential unit (ERU), which will raise \$3,022,000.

Miscellaneous revenues include sublease revenue from the Pelican Bay Foundation.

Current FY 2022:

Overall, special assessment revenue budgeted within this Fund decreased from \$551.59 to \$518.48 per equivalent residential unit. Available fund reserves decreased in FY 2022 from \$1,557,000 to \$1,306,800. The decrease in the capital reserve will allow more funds to be allocated in Fund 322 for capital projects. The Division budgeted cash flow reserves to cover 5-7 weeks of estimated expenses, as assessment revenues do not begin to flow in until November 2021.

**Office of the County Manager**

**Pelican Bay Services Division  
Pelican Bay Street Lighting (778)**

**Forecast FY 2021:**

Personnel Services are forecasted to be in line with the adopted FY2021 adopted budget.

Operating Expenses are forecasted to be below the FY2021 Budget due to lower than anticipated electrical contractor fees, rent, light bulb and ballast expenditures.

**Current FY 2022:**

Personnel Services increase is in line with the general wage adjustment.

Operating Expenses are budgeted lower than FY21 due to decreased costs of operations which allows transferring excess funds to capital project fund 322 for the new Pelican Bay Operations Building. The street lights have LED bulbs which require less frequent maintenance and replacement.

Capital Outlay includes the replacement bucket truck.

**Revenues:**

This fund had a millage rate of .0857 in FY 2021 and the rate remains unchanged for FY 2022 in accordance with the advisory committee recommendation. Estimated taxable value for this district totals \$7,712,078,048 which represents a 0.71% increase over last year. Property taxes total \$660,900. The District's actual cash and cash equivalents (carry-forward) year over year increased \$340,200 to \$2,096,500 as of 9/30/2020.

Miscellaneous revenues include sublease revenue from the Pelican Bay Foundation.

**Collier County Government  
Fiscal Year 2022 Adopted Budget**

**Office of the County Manager**

**Pelican Bay Services Division**

**Pelican Bay – Clam Pass Ecosystem Enhancement (111)**

**Mission Statement**

To provide funding assistance towards the management of the Clam Bay Estuary.

Notes:

Beginning mid-year FY 2015, a separate cost center was created and funds appropriated by budget amendment to assist with management of the Clam Bay Estuary.

Current FY 2022:

Previously budgeted as a transfer from the Unincorporated Area General Fund (111) to Pelican Bay Capital Fund (320), funds to assist with the management of the Clam Bay Estuary are now directly budgeted within a separate Fund (111) cost center with direct signature authority by Pelican Bay MSTBU management. In FY2022, a phased removal of the exotic Scaevola will commence and continue over several years.

**Office of the County Manager**

**Corporate Business Operations**  
**Corporate Business Operations (001)**

Forecast FY 2021:

Personal Services forecast is greater than the adopted budget due to two (2) FTE's which were transferred in mid-year from Administrative Services Department Admin Section (001) and from Communications & Customer Services (111), Financial & Operational Manager and an Art & Culture Manager, respectively. Operating expenditures are expected to be less than budgeted.

Current FY 2022:

The Corporate Business Operations personal services budget is higher than the prior year reflecting the two (2) FTE's transferred in FY 2021.

Operating expenses are budgeted higher relative to IT cost recovery and minor equipment requirements.

Revenues:

Divisions supported by Corporate Business Operations that have dedicated revenue sources provide funding support through transfers into the General Fund.
