**NOTE:** Proposed developments will be reviewed for consistency with the Manatee Protection Plan adopted by the Collier County Board of County Commissioners and approved by the Florida Department of Environmental Protection.

If the location of the proposed development appears to be consistent with the MPP, then the developer will submit a "Manatee Awareness and Protection Plan," which shall address, but not be limited to, the following categories:

- Education and public awareness
- Posting and maintaining Manatee Awareness signs
- Information on type and destination of boat traffic that will be generated from the facility.
- Monitoring and maintenance of water quality to comply with state standards.

### 3.2.4.1 Ranking Criteria

A ranking of Preferred is given to a site that has or can legally create adequate water depth and access, will not impact native marine habitats, and will not impact a high manatee use area. A Moderate ranking is given when: there is adequate water depth and access, will not impact a high manatee area, but will impact native marine habitat; there is adequate water depth, no impact to native marine habitat, but will impact a high manatee use area; and where the water depth is less than four (4) feet MLW, will not impact native marine habitat, and will not impact a high manatee use area. A Protected ranking is given to an area when: there is adequate water depth and access, but will impact native marine habitat and will impact a high manatee use area; there is not adequate water depth, will impact or destroy native marine habitat and will impact a high manatee use area; there is not adequate water depth, will not impact a marine habitat and will impact a high manatee use area; and there is not adequate water depth, will impact marine habitat and will not impact a high manatee use area.
